Elysium V5 MultiCAx-ProE Plug In (Pro/ENGINEER to DELMIA Direct Translator)

Brings multi-CAD geometry into DELMIA insuring data compliancy with V5 quality standards

- Import Pro/E part and assembly to DELMIA V5 from DELMIA menu. Just simple operation
- Heals errors automatically in translation
- Translate ProE part to CATPart (B-rep) or CGR
- 1st step to other CAD systems interoperability

Targets :

All DELMIA users using PRO/ENGINEER data

Proven Customers Benefits :

- Achieve time and cost savings by directly importing “foreign” data to V5 while assuring 3D data quality and consistency

(1) for CATIA config
(2) for ENOVIA VPLM config
(3) for DELMIA config
