

Rule-driven manufacturing software solutions for advanced and highly regulated industries

“Operational Excellence For All”

CAAV5 Products

DELMIA SR2

Prereq	-
	AP2 EIP MFT WKI PCR EPC MCM EPR CEF
Coreq	

- **Pertinence Suite Digital Process Integrator (DPI)**
Provides connectivity between 3D Process Planning and the Shop Floor
 - Acts as data bridge between the DELMIA manufacturing hub and the Pertinence Suite database
- **Pertinence Suite Digital Process Viewer (DPV)**
Gives a shop floor user a true 3D execution experience allowing better and faster understanding of instructions
 - Seamless navigation between Pertinence Suite data and the 3D process representation inside 3D Live

DELMIA 3D LIVE LID

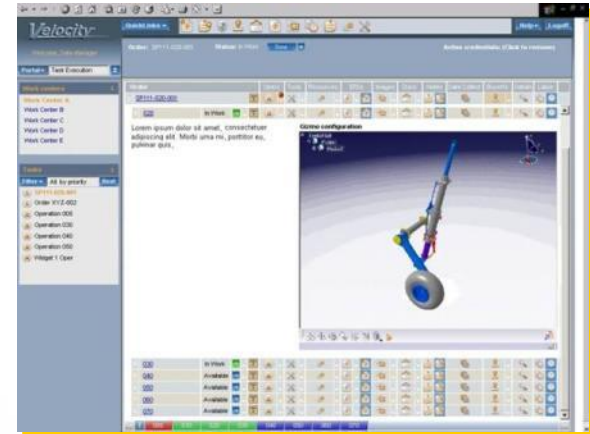

Prereq	LSF
	LCV LFT
Coreq	

Supports multiple devices for diverse user roles

- PDA
- Tablet PC
- Desktop PC

Supports multiple renderings depending upon device capability

- Text & Static 3D images
- Dynamic 3D
- Object Lists (Bill of Materials, etc.)
- Embedded Execution Objects

References : Intercim's references include Boeing, Airbus, Honeywell, Bell Helicopter-Textron, Ball Aerospace, P&W Rocketdyne

Targets : Manufacturing shop floor workers, quality experts, and support personnel at every level of the supply network

Proven Customer Benefits :

- Enforces procedural control, maintains complete as designed--as built history and traceability
- Emergent process management/quality control enables efficient and effective disposition of any unplanned product or process event
