## Integration of eCAD design data and processes with PDM/PLM/ERP

*“Creating individual solutions for enthusiastic Customers”*

ENOVA  
SmarTeam

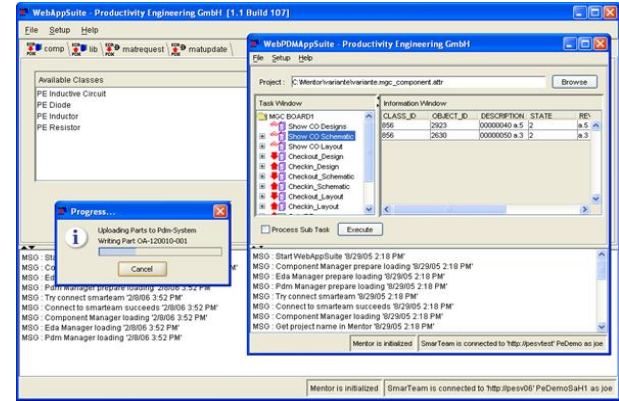

### eCAD WebAppSuite powered by PDMbridge®

Link between eCAD system and PDM/PLM/ERP systems

- Ensures uniform data resources for components, parts lists and documents
- Straightforward interface handling with data access and exchange
- Clear and unambiguous representation of the business processes in your IT systems

2 modules  
eCAD WebAppSuite Engineer  
eCAD WebAppSuite Librarian

### Targets

- eCAD projects management

### Customer Benefits

- Reduces overhead in keeping data up-to-date
- Ensures error-free, reliable transmission of redundant data
