November 2009

Thibault de Tersant, Senior EVP and CFO

Forward Looking Information

Statements herein that are not historical facts but express expectations or objectives for the future, including but not limited to statements regarding the Company's non-IFRS financial performance objectives, are forward-looking statements.

Such forward-looking statements are based on DS management's current views and assumptions and involve known and unknown risks and uncertainties. Actual results or performances may differ materially from those in such statements due to a range of factors. In preparing such forward-looking statements, the Company has in particular assumed an average U.S. dollar to euro exchange rate of US\$1.40 per €1.00 and an average Japanese yen to euro exchange rate of JPY132 to €1.00 for the 2009 full year; however, currency values fluctuate, and the Company's results of operations may be significantly affected by changes in exchange rates. The Company has tried to factor in the potential impact of the current global economic crisis on its 2009 fourth quarter and full year objectives, but conditions could worsen. Further the Company has assumed that its increased responsibility for both indirect and direct PLM sales channels, and the resulting commercial and management challenges, will not cause it to incur substantial unanticipated costs and inefficiencies. The Company's actual results or performance may also be materially negatively affected by the current global economic crisis, difficulties or adverse changes affecting its partners or its relationships with its partners, including the Company's longstanding, strategic partner, IBM; new product developments and technological changes; errors or defects in its products; growth in market share by its competitors; and the realization of any risks related to the integration of IBM PLM within DS and of any newly acquired company and internal reorganizations. Unfavorable changes in any of the above or other factors described in the Company's regulatory reports, including the Document de référence, as filed with the French "Autorité des marchés financiers" (AMF) on April 2, 2009, could materially affect the Company's financial position or results of operations.

Non-IFRS Financial Information & Information in Constant Currencies

Readers are cautioned that the supplemental non-IFRS (previously referred to as “adjusted IFRS”) information presented in this press release is subject to inherent limitations. It is not based on any comprehensive set of accounting rules or principles and should not be considered as a substitute for IFRS measurements. Also, the Company’s supplemental non-IFRS financial information may not be comparable to similarly titled non-IFRS measures used by other companies. Further specific limitations for individual non-IFRS measures, and the reasons for presenting non-IFRS financial information, are set forth in the Company’s annual report for the year ended December 31, 2008 in the Company’s 2008 Document de référence filed with the AMF on April 2, 2009.

In the tables accompanying this press release the Company sets forth its supplemental non-IFRS figures for revenue, operating income, operating margin, net income and diluted earnings per share, which exclude the effect of adjusting the carrying value of acquired companies’ deferred revenue, the expenses for the amortization of acquired intangible assets and stock-based compensation expense (in each case, as explained respectively in the Company’s 2008 Document de référence. The tables also set forth the most comparable IFRS financial measure and reconciliations of this information with non-IFRS information.

When the Company believes it would be helpful for understanding trends in its business, the Company provides percentage increases or decreases in its revenue (in both IFRS as well as non-IFRS) to eliminate the effect of changes in currency values, particularly the U.S. dollar and the Japanese yen, relative to the euro. When trend information is expressed herein “in constant currencies”, the results of the “current” period have first been recalculated using the average exchange rates of the comparable period in the preceding year, and then compared with the results of the comparable period in the preceding year.

DS with IBM: The 5th Generation Alliance

From 1981 to 2009

October 26th, 2009

⁽¹⁾ Transaction expected to be completed in H1 2010 and subject to the execution of local agreements and completion of regulatory processes and applicable labor relations requirements in various countries

Expanding Coverage: IBM PLM Locations Worldwide

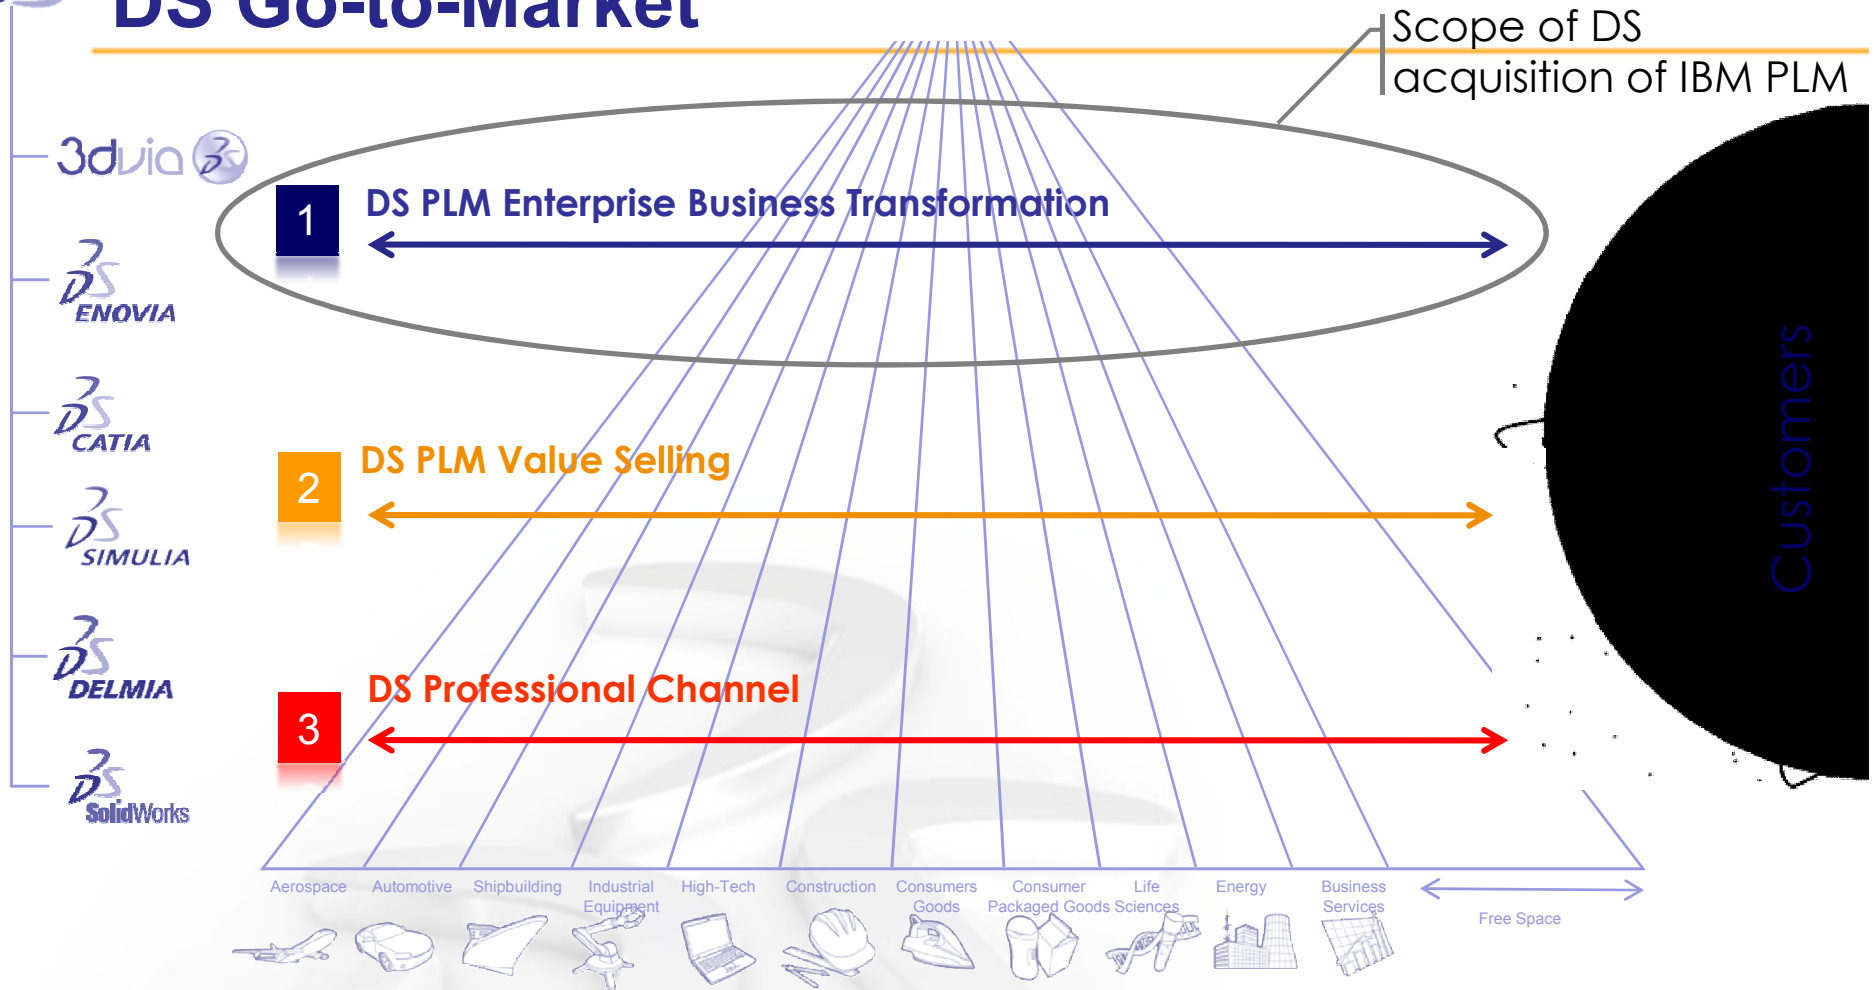

Well-Received Agreement

- “DS will now have a global sales and support organization that spans and manages all its major customers. This acquisition should give DS **more direct interaction with its larger customers** and, indeed, most of its customer base. In conjunction with management of the partner channel, this should enable DS to **better understand its customers’ needs** and respond more quickly to their requests.” **CIMdata**
- “This acquisition **makes perfect sense** and is long overdue. This is a natural evolution for both companies. This acquisition is less about the end of a relationship and more about the evolution of both companies in line with how **PLM** has emerged **as a global enterprise software category.**” **AMR Research**
- This agreement gives DS additional strength and market presence in **mobilizing a highly capable and well-respected sales and marketing organization**. I believe that this agreement can be an important **catalyst** to a broader and faster adoption of **V6**.

DS Go-to-Market

- Strong indirect channel with **Professional Channel**
- Well-crafted transition of **PLM Value Selling Channel** for **SMB** market
- Intent to integrate IBM PLM and DS direct sales force in **PLM Enterprise Business Transformation**

Well-Timed Agreement as We Lau

- **Well integrated sales team to with V6:**
 - **a complete PLM value proposition**
 - **to a large set of industries**

New Global Alliance with IBM

- **Strengthening the cooperation with IBM for:**
 - **Services with IBM Global Services**
 - **Financing with IBM Global Financing**
 - **New enterprise infrastructure**

"This transaction also helps fuel IBM's focus on PLM integration through middleware, business transformation and application services, and dynamic infrastructure."
Tom Hawk, general manager, IBM Global Industrial Sector

Delivering A New Level of Engagement

- **IBM & DS focused on their core strengths to:**
 - **Better **serve** our clients**
 - **Help them **maximize the value** of their PLM environment and business processes**

IBM PLM Organization

- Partnership with IBM started in **1981** and enabled the creation of a business unit in charge of selling DS products - since **2006** IBM PLM is part of IBM's Software Group
- **World-class, ~700 person sales and support business**
 - Operating in 32 countries across Americas, Asia and Europe
 - Very knowledgeable resources of DS PLM software products with significant expertise in sales
 - Team managed by Albert Bunshaft Vice President - Product Lifecycle Management - IBM Software Group
- **Attractive financial model**
 - High level of recurring software revenue
 - Solid operating profitability

Terms & Financial Impact of the Acquisition

- **Acquisition terms**

- ~\$600 million in cash
- Closing expected in the second quarter of 2010

- **Estimated financial impact**

- DS cash balance as of September 30, 2009: ~€975 million
- **Hiring additional personnel** in finance, legal, sales administration, HR ... to have the right level of infrastructure to support the operations in all the involved countries
- Acquisition expected to be **accretive** after additional hirings to both earnings and margin on a non-IFRS basis

- **Incorporating IBM PLM in DS preliminary 2010 objectives to be initiated for DS Q4 2009 earnings release in February 2010**

(1) In the reconciliation schedule above, (i) all non-IFRS adjustments to IFRS revenue data reflect the exclusion of the deferred revenue adjustment; (ii) non-IFRS adjustments to IFRS operating expenses data reflect the exclusion of stock-based compensation expenses, amortization of acquired intangibles and other operating income and expense, net; and (iii) all non-IFRS adjustments to IFRS income data reflect the combined effect of these non-IFRS adjustments.

(2) The non-IFRS percentage increase (decrease) compares non-IFRS measures for the two different periods. In the event there is a non-IFRS adjustment to the relevant measure for only one of the periods under comparison, the non-IFRS increase (decrease) compares the non-IFRS measure to the relevant IFRS measure.
