

	Introduction to DesignSight (DEI)
Course Code	SIM-en-DEI-F-V6R121
Brand	SIMULIA
Discipline	SIMULIA DesignSight V6
Available Release	V6R2012x
Duration	4 hours
Course Material	English
Level	Fundamental
Audience	Designers, Analysts
Description	This course will teach you how to perform a Structural/Frequency simulation using DesignSight Structure and Structure Plus. You will also learn how to perform a Thermal simulation using DesignSight Thermal. You will then learn how to review Simulations stored in a database and generate reports.
Objectives	<p>Upon completion of this course you will be able to:</p> <ul style="list-style-type: none"> <li>- Search for Simulation data in the V6 database</li> <li>- Open a DesignSight simulation for modification</li> <li>- Perform a Structural/Frequency simulation using DesignSight Structure and Structure Plus</li> <li>- Perform a Thermal simulation using DesignSight Thermal</li> <li>- Review Simulations stored in a database and generate reports.</li> </ul>
Prerequisites	V6 Fundamentals
Available Online	Yes
