

	DELMIA Extended Milling Machining Essentials (EMM)
Course Code	DEL-en-EMM-A-V6R120
Brand	DELMIA
Discipline	DELMIA Program and Control Engineering V6
Available Release	V6R2012
Duration	16 hours
Course Material	English
Level	Advanced
Audience	Advanced Numerical Control (NC) Programmers
Description	This course teaches you how to generate high quality NC programs for machining complex 3D parts and free-form shapes using advanced machining techniques. You will learn how to perform 2.5 to 5-Axis machining operations.
Objectives	<p>Upon completion of this course you will be able to:</p> <ul style="list-style-type: none"> - Identify and use the Multi-Axis Surface Machining workbench tools - Define Multi-Axis Finishing operations - Define Multi-Axis Contouring operations - Define Multi-Pockets operations in Power Machining and Flank Contouring - Define Multi-Axis Helix Machining operation
Prerequisites	Students attending this course should have attended DELMIA Prismatic Machining Fundamentals and DELMIA Milling Machining Essentials courses.
Available Online	Yes
