

3DVIA COMPOSER PLAYER 3DVIA COMPOSER PLAYER PRO

3D COMMUNICATION

3DVIA COMPOSER IS THE INDUSTRY LEADING SOLUTION FOR CREATING 2D AND 3D PRODUCT COMMUNICATIONS ACROSS INDUSTRIES. WHEN CREATING INTERACTIVE 3D EXPERIENCES, 3DVIA COMPOSER PLAYER AND 3DVIA COMPOSER PLAYER PRO ARE AVAILABLE TO DELIVER ENGAGING INTERACTIVE 3D CONTENT.

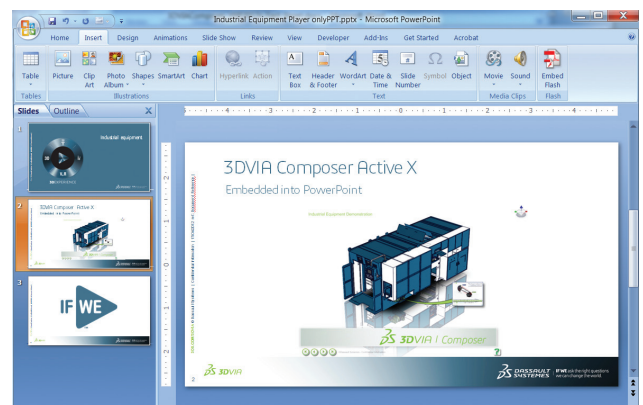

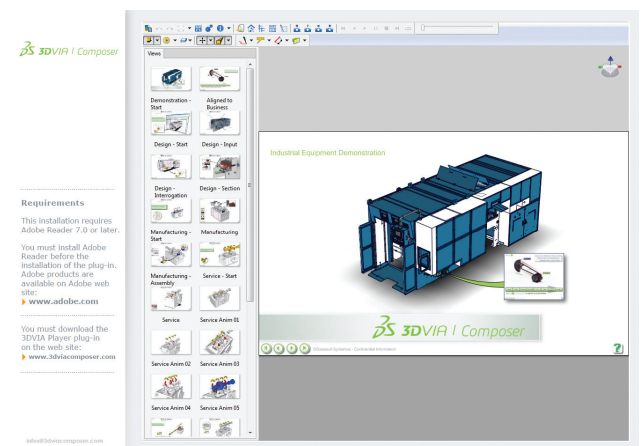

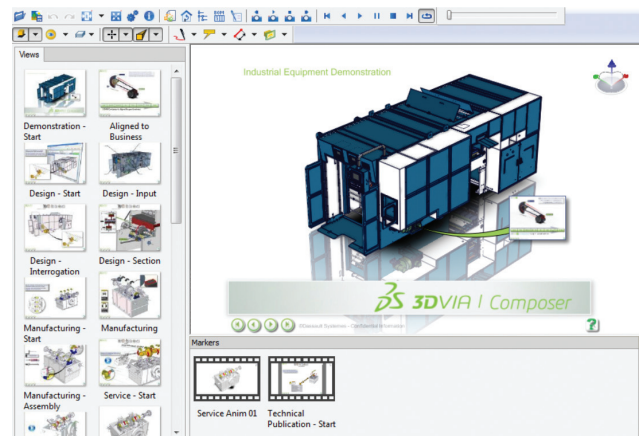

3DVIA Composer Player is a free interactive **3DEXPERIENCE** engine that distributes high performance 3DVIA Composer content to any end-user. More than a simple viewer, 3DVIA Composer Player offers content consumers the ability to interact directly with product deliverables for more engaging product-based **3DEXPERIENCE**.

Each installation of the 3DVIA Composer Player includes a standalone player, an ActiveX player, and a plug-in for Adobe Acrobat Reader. With three high performance application delivery options, the 3DVIA Composer Player offers the power and flexibility to deliver engaging 3DVIA Composer content where and when you need it.

3DVIA Composer Player Pro extends upon 3DVIA Composer Player features with a powerful application programming interface. With nearly unlimited custom programming capabilities around the ActiveX player, advanced functionalities can be enabled such as the ability to query, manipulate, interact, and display 3DVIA Composer. Additionally, 3DVIA Composer Player Pro applications can be combined with data originating from external sources for even richer **3DEXPERIENCE**.

It is also possible to maintain local file persistence using 3DVIA Composer Player Pro. Once the proper permissions have been granted, users can capture valuable feedback on an interactive scene using comments, labels, and annotations. Changes can then be "saved" to preserve markups and modifications for further review.

For an unmatched user experience, 3DVIA Composer Player Pro can be used to build customized interactive **3DEXPERIENCE** that can be embedded anywhere ActiveX technology is supported. This game-changing technology supports the development of purpose-built applications that can be tailored to suit individual project or organizational needs.

	3DVIA Composer Player	3DVIA Composer Player Pro
Licensing	Free	Machine-based with publishing options for sharing applications outside the enterprise
Stand-alone Player	Full Playback of content authored in 3DVIA Composer Authoring and dimensioning capabilities include; activate views, cutting planes, rotate geometry, attach labels, adjust properties, add measurements	Full Playback of content authored in 3DVIA Composer Authoring and dimensioning capabilities include; activate views, cutting planes, rotate geometry, attach labels, adjust properties, add measurements
Adobe Acrobat Reader	Included	Included
ActiveX	Basic APIs: <ul style="list-style-type: none"> ● Create custom buttons to control 3DVIA Composer applications 	Advanced APIs: <ul style="list-style-type: none"> ● Create custom buttons to control 3DVIA Composer applications ● Full control of the ActiveX session ● Bi-directional, real-time interaction with 3DVIA Composer ● XML push to player to connect data and geometry ● Interrogate and modify all properties of all actors ● Multi player connectivity
"Save" Functionality	Read only	Right Manager settings enables markups and modifications to be saved
Use Cases	<ul style="list-style-type: none"> ● Design/project review ● Stakeholder communications ● Assembly instructions ● Sales/marketing presentations 	<ul style="list-style-type: none"> ● Product configurators ● Online parts catalogs ● Design markup ● Manufacturing part consumption tracking ● Visual Compare ● Visual Training

Dassault Systèmes, the **3DEXPERIENCE** Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 150,000 customers of all sizes in all industries in more than 80 countries. For more information, visit www.3ds.com.
