ICEM Surf Direct-Interfaces

Direct Interfaces can translate CAD data out of the sending system directly into the data format of the receiving system, without the use of a neutral file format.

KEY CAPABILITIES

ICEM CATIA-Interface

The ICEM CATIA Interface enables the direct data transfer between ICEM Surf and CATIA V4.

The following formats are supported for import; V3 CADDATA file, V4 CADDATA, V4 CATEXP, V4 model file.

From within ICEM Surf a CATIA model file or CATEXP file is generated. The module ICEM Surf PLM-Link makes the data version possible also in batch usage with a PLM-system.

ICEM UNIGRAPHICS-Interface

The ICEM Unigraphics interface enables the bi-directional direct data exchange between ICEM Surf and the CAD/CAM-system Unigraphics.

This interface consists of programs that are executed together with Unigraphics Version 15. A Unigraphics model file of Version 15, or an earlier version can be read. The module ICEM Surf PLM-Link also enables data conversion in batch usage with a PLM system.

ICEM UNIGRAPHICS NX-Interface

The ICEM Unigraphics NX interface enables the bi-directional direct data exchange between ICEM Surf and the CAD/CAM System Unigraphics NX.

ICEM CATIAV5-Interface*

The ICEM CATIAV5-Interface enables data transfer between ICEM Surf and CATIA V5.

The basis module ICEM Surf Professional also contains interfaces to the following applications:

3DPaint
CDRS

Our **3DEXPERIENCE®** platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the **3DEXPERIENCE®** Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 190,000 customers of all sizes in all industries in more than 140 countries. For more information, visit www.3ds.com.
