

## ENOVIA Live Collaborative Review

### Product Objective

ENOVIA® Live Collaborative Review™ enables ENOVIA® 3DLive™ users to perform sophisticated, product design reviews using powerful visualization, navigation, and communication tools.

### Product Overview

Although many companies strive to be more innovative in their product-development, their efforts to share and collaborate on product data is increasingly difficult with complex products, many different business processes, and working with design teams that are often widely distributed. Innovation suffers because of inefficient processes and inadequate use of existing Product Lifecycle Management IP.

ENOVIA Live Collaborative Review delivers annotated views, 3D measurements, and 3D cross sections for collaborative studies and presentations. Team members now can enhance product quality, speed time to market, and collaborate more effectively during a variety of reviews and inspections.

### Product Highlights

ENOVIA Live Collaborative Review helps ENOVIA 3DLive users improve product review inputs by delivering advanced collaboration capabilities for sectioning, measurement, and markup.

#### Adds 2D and 3D annotations to enable efficient collaboration loops

- Allows collaboration on the same project review from different locations through the 3D heads-up display in ENOVIA 3DLive
- Facilitates efficient collaborative reviews by supporting the creation and display of 2D and 3D annotations
- Provides efficient navigation of studies and presentations
- Supports publishing through report creation in 3DXML format

#### Measures in 3D to gain better insight in product dimensions

- Enables measurement between two geometrical entities
- Allows for multiple types of measurements.

#### Sections in 3D to understand and reveal design intent

- Delivers dynamic sectioning and cut with mouse based manipulation
- Promotes reuse by saving the results in 3DXML format
- Creates section plane results by controlling the positioning of a section plane

### Key Customer Benefits

- Exchange viewpoints among teams during product reviews and inspections with annotations thanks to 2D and 3D markers
- Enhance review process by revealing product elements not apparent readily from a basic, unmarked view of the exterior surface
- Gain instant access to any data source including 3DXML, ENOVIA® V6, ENOVIA® VPM® V5, ENOVIA® VPM® V4, and ENOVIA® SMARTEAM®
- Enhance collaboration and speed time to market with conference tools that enable global project reviews

## The Role of ENOVIA V6 and PLM 2.0

ENOVIA Live Collaborative Review supports PLM 2.0, product lifecycle management online for everyone, and the ENOVIA V6 values: global collaboration innovation, single PLM platform for intellectual property (IP) management, online creation and collaboration, ready to use PLM business processes, and lower cost of ownership.

### About Dassault Systèmes

As a world leader in 3D and Product Lifecycle Management (PLM) solutions, Dassault Systèmes brings value to more than 115,000 customers in 80 countries. A pioneer in the 3D software market since 1981, Dassault Systèmes develops and markets PLM application software and services that support industrial processes and provide a 3D vision of the entire lifecycle of products from conception to maintenance to recycling. The Dassault Systèmes portfolio consists of CATIA for designing the virtual product — SolidWorks for 3D mechanical design — DELMIA for virtual production — SIMULIA for virtual testing — ENOVIA for global collaborative lifecycle management, and 3DVIA for online 3D lifelike experiences. Dassault Systèmes' shares are listed on Euronext Paris (#13065, DSY.PA) and Dassault Systèmes' ADRs may be traded on the US Over-The-Counter (OTC) market (DASTY). ### About ENOVIA

ENOVIA is the recognized leader in delivering collaborative PLM solutions. We enable companies from a broad range of industries to dramatically accelerate innovation, time-to-market and revenue generation by collaboratively developing, building and managing products. Our solutions facilitate the sharing of concepts, content and context across product lifecycles and throughout value chains of employees, customers, suppliers and partners.

ENOVIA collaborative PLM solutions help global enterprises bring together people, processes, content and systems to achieve a compelling competitive advantage. Our interoperable solutions unify and streamline processes across the product lifecycle, enabling companies to easily and cost-effectively work on projects within and outside of their enterprises. Our adaptable, scalable technology is built to accommodate the ever-changing marketplace. For more information, visit [enovia.com](http://enovia.com).
