# 1 SIMULIA Open Source and Commercial Program Content

Many of the SIMULIA products include third party software, either as open source or free programs (“OS Programs”) or as commercial programs. Together these are referred to as “third party” content of the SIMULIA products and are identified in these web pages.

## 1.1 Open Source and free programs

Each OS Program is available for use under a license that may be found by clicking the Release of the OS Program in the applicable web page. While users should consult the specific license applicable to each OS Program, generally these licenses provide permission to any person obtaining a copy of the OS Program to deal in the OS Program without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the OS Program and to permit persons to whom the OS Program is furnished to do so. Some of the licenses for the OS Programs listed below impose additional restrictions on use or modification and require that source code be made available. Each license includes substantially the following conditions and in some cases additional or different terms:

The copyright notice associated with each OS Program (as listed in the program license) and the above permission notice (or other applicable restrictions indicated in each license) shall be included in all copies or substantial portions of such OS Program.

EACH OS PROGRAM IS PROVIDED “AS IS” WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, BY ANY CONTRIBUTOR TO THE DEVELOPMENT OF SUCH OS PROGRAM, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT.

NO CONTRIBUTOR TO THE DEVELOPMENT OF ANY OS PROGRAM SHALL BE LIABLE TO ANY USER OF ANY OS PROGRAM FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, OR CONSEQUENTIAL DAMAGES OR LOSS (INCLUDING BUT NOT LIMITED TO PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS, OR BUSINESS INTERRUPTION) AS A RESULT OF USING, MODIFYING, OR DISTRIBUTING THE OS PROGRAM OR ANY DERIVATIVE THEREOF EVEN IF ADVISED OF THE POSSIBILITY THEREOF, HOWEVER CAUSED AND ON ANY THEORY OF STRICT LIABILITY OR TORT.

## 1.2 Commercial programs

Each commercial program included in a SIMULIA product has been obtained through a commercial license that permits redistribution of that program in one or more SIMULIA products. In some cases these licenses require that users be informed of copyrights and / or license conditions. In those cases this information is provided in the applicable pages associated with the SIMULIA Product name and / or Release.

## 1.3 Third party content of SIMULIA products

The following SIMULIA products include one or more open source or free programs and / or commercial programs. Click on the product Release (below) to go to the page for that product release to review the specific information for OS programs and commercial programs included in that product.

## 2 SIMULIA – DesignSight V6R2010 / Abaqus Simulation Engine

When you install the Abaqus Simulation Engine on a Linux platform, HP-MPI is also installed automatically to enable simulation execution on multiple hosts. Using HP-MPI with the Abaqus Simulation Engine implies that you have read and accepted the license terms below.

HP-MPI is included with this release of the Abaqus Simulation Engine software. HP-MPI is an implementation from Hewlett-Packard Company ("HP") of the Message Passing Interface standard that may be used for parallel execution of the Abaqus Simulation Engine software. HP-MPI is the property of HP and is not a Dassault Systèmes Program. Under a license from HP to Dassault Systèmes Simulia Corp., HP-MPI is made available to licensed Abaqus Simulation Engine users at no additional charge.

You are a licensed Abaqus Simulation Engine user if you are authorized to use Abaqus Simulation Engine software under a software license agreement between Dassault Systèmes or its subsidiary and the business, governmental or academic entity with which you are associated. If you are a licensed Abaqus Simulation Engine user, you may obtain HP-MPI under a license directly from HP, or you may proceed to use the automatically installed version of HP-MPI as described in the [System Requirements](#) without entering into a separate license with HP. If you choose to use the automatically installed HP-MPI as made available by Dassault Systèmes or its subsidiary, use and reproduction of HP-MPI by your business, governmental, or academic entity will be subject to the same restrictions as are in the license agreement with your business, governmental or academic entity that govern the use of the Abaqus Simulation Engine software and will be terminable by Dassault Systèmes or its subsidiary on the same conditions as are in the Abaqus Simulation Engine software license agreement. However, HP-MPI is NOT a Dassault Systèmes Program and is NOT warranted or supported by Dassault Systèmes or its subsidiaries. Without limiting the foregoing:

HP-MPI IS PROVIDED "AS IS" AND WITHOUT ANY WARRANTY. DASSAULT SYSTÈMES, ITS SUBSIDIARIES, AND HP SPECIFICALLY DISCLAIM ANY AND ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF NON-INFRINGEMENT OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IN NO EVENT SHALL DASSAULT SYSTÈMES, ITS SUBSIDIARIES, OR HP BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGE (INCLUDING WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, OR LOSS OF BUSINESS INFORMATION) ARISING FROM USE OR ATTEMPTED USE OF HP-MPI, EVEN IF DASSAULT SYSTÈMES, ITS SUBSIDIARIES, OR HP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

### **3 SIMULIA – DesignSight V6R2010x / Abaqus Simulation Engine**
