

Discover ALL you can do with PLM.

Dassault Systèmes Industry Services is a global team dedicated to your success with PLM technology and creating your sustainable competitive advantage

Dassault Systèmes Industry Services

Dassault Systèmes Industry Services

Ensuring your success through Dassault Systèmes technology

The Difference between Vision and Execution

Dassault Systèmes Industry Services wants our PLM technology to be successful. That means as an organization we don't just sell you software. We have a responsibility and NEED to ensure our software successfully supports your business.

You are the expert of your **business**.

DSIS is the expert of DS **PLM**.

Working together we can help you change the way you do business by maximizing the investment you've already made in Dassault Systèmes PLM.

Discover ALL You Can Do with PLM

- Assess the potential of PLM and discover what you can do with your investment
- Assess your readiness for PLM implementation: Infrastructure Readiness AND Business Readiness
- Combine PLM, business needs, and methodology to transform your business and create a sustainable competitive advantage

About Dassault Systèmes

As a world leader in 3D and Product Lifecycle Management (PLM) solutions, Dassault Systèmes brings value to more than 115,000 customers in 80 countries. A pioneer in the 3D software market since 1981, Dassault Systèmes develops and markets PLM application software and services that support industrial processes and provide a 3D vision of the entire lifecycle of products from conception to maintenance to recycling. The Dassault Systèmes portfolio consists of CATIA for designing the virtual product - SolidWorks for 3D mechanical design - DELMIA for virtual production - SIMULIA for virtual testing - ENOVIA for global collaborative lifecycle management, and 3DVIA for online 3D lifelike experiences. Dassault Systèmes' shares are listed on Euronext Paris (#13065, DSH4.PA) and Dassault Systèmes' ADRs may be traded on the US Over-The-Counter (OTC) market (DAST4).
