DASSAULT SYSTEMES LICENSED PROGRAM SPECIFICATIONS (LPS) FOR 3DEXPERIENCE R2024x ADDITIONAL TERMS #1

Due to new available <u>Licensed Programs</u>, these additional terms #1 supplement the Licensed Program Specifications for **3D**EXPERIENCE R2024x and are an integral part of such Licensed Program Specifications. Except as expressly supplemented by these additional terms #1, all terms and conditions of the Licensed Program Specifications for **3D**EXPERIENCE R2024x shall remain in full force and effect.

The Licensed Program Specifications for **3D**EXPERIENCE R2024x together with these additional terms #1 (LPS) and the terms incorporated herein by reference (including terms referenced on a website) are an integral part of the license agreement between <u>DS</u> and <u>Licensee</u> ("<u>Agreement</u>"), which refers to this LPS. In the event of a discrepancy, inconsistency or contradiction between this LPS and the other terms of the Agreement, the provisions of this LPS shall prevail, but only with respect to the Licensed Programs to which this LPS applies. Licensee acknowledges that it has full knowledge of all the terms of this LPS and those incorporated herein by reference.

4. SUPPLEMENTAL TERMS

4.2 SPECIFIC PROVISIONS FOR CERTAIN LICENSED PROGRAMS

CATIA - 3DEXPERIENCE Design/Engineering business category

The following provisions supplement those of the corresponding section of the Licensed Program Specifications for **3D**EXPERIENCE R2024x:

Systems Simulation

For each Systems Simulation Analyst (6NB-SIC) Licensed Program, Users (and Extended Enterprise Users, as applicable) are granted the right to execute up to five hundred (500) systems simulations, depending on server resources consumption, as defined in the Documentation. A systems simulation has to be understood as a single computation, which is based on the parameters that Users define in the model of the system. The computation involves compilation, simulation execution and simulation results.

The number of systems simulations is specified on a yearly basis. For terms of one (1) year or less, all systems simulations are issued at the beginning of the term and unused systems simulations expire at the end of the term. For terms longer than one (1) year, systems simulations are issued per year and unused systems simulations expire at the end of the given year period; for any incomplete year period, the number of issued systems simulations is pro-rated and unused systems simulations expire at the end of the given incomplete year period.

Moreover, to be able to execute more systems simulations, Licensee must order Systems Unit Credit Pack (Small) (6TP-SYU-S) Credit Based Licensed Programs. Consumption rules are specified in the Documentation.
