

CATIA CDM-PM Integration Version 4 Release 2 Modification Level 5

The CATIA CDM-PM Integration (CDP) for V4R2M5 product provides integration of the CATIA Data Management (CDM) and ProductManager. It couples the graphical product structure management and design-in-context function in CATIA Data Management with the capabilities for configuration management, change control, and developer management in ProductManager.

This product makes it possible for users throughout the extended enterprise to have access to design data on a timely and accurate basis.

This product is available for the AIX® platform only.

The CATIA CDM-PM Integration (CDP) for V4.2.5 product is withdrawn. This PRPQ makes the product available to select customers on a controlled basis.

Programming Requirements

Common Software Requirements

CATIA.CDM-PM Integration (5626-CDP) requires:

- Server: ProductManager Director Version 3.2.0 at service level SNAPShot BR2, or Product Manager Director Version 3.3.0 or 3.4.0. The program number is:
 - 5765-605 on an AIX server
 - 5765-606 on an HP server
 - 5765-607 on a Sun™ server

Note: The ProductManager server can be only an AIX, HP, or Sun server.

- Client: ProductManager Software Development Kit (SDK) compatible with ProductManager Director SNAPShot BR2, or ProductManager Director Version 3.3.0 or 3.4.0 and the operating system on which CATIA.CDM-PM Integration Product will be run.

Refer to your country-specific announcement letter for additional software pre-requisite information.

License Management:

This product uses Dassault Systemes License Use Management (LUM) supporting nodelock and license server.

- Dassault Systemes License Use Management Runtime, Version 4.6.8 is required for AIX, HP-UX, and Solaris licensed servers and clients.

Licensed Program Materials Availability

- Restricted materials - No. This licensed program is available without source licensed program materials. It is available in object code only.

Supplemental Terms

Type/Duration of Program Services (also referred to as “Support Services”)

Program Services will be provided for this PRPQ until December 31, 2009.

You will find all necessary information including processes, on Dassault Systemes web site:

<http://www.3ds.com/terms/support-policies>

Designated Machine Identification

No.

Test Period

No.

Use-Based Charges/Usage Restrictions

Charges for this program are based on the number of users logged on at any time. The total number of users logged on may not exceed the number for which you have been authorized. If the total number exceeds your authorization, you must notify Dassault Systemes and obtain additional authorizations.

March 2010

Softcopy Publications

The program that Dassault Systemes licenses may include licensed publications in displayable or source form. Except as provided in this section, the terms and conditions of the license agreement with Dassault Systemes apply to these publications and to any copies that are made from them.

The licensed publications may be used in displayable or source form on all machines designated for this program. The licensed publications may also be copied and used on other machines in support of authorized use of this program.

To support authorized use of the Program, printed copies of the displayable or source material may be made if the copyright notice and any other legend of ownership is reproduced on each copy or partial copy.¹

Warranty

This program is warranted as specified in the Dassault Systemes license.

Licensed Program Specifications may be updated from time to time and such updates may constitute a change in specifications.

Following the discontinuance of all program services, this program will be provided "As Is" as specified in the Dassault Systemes license.
