Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Programs. In any event, Licensee may not (1) use the Licensed Programs to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an application service provider, or (2) install and/or operate and/or give access to the Licensed Programs on any hardware and/or software environment owned by or under control of any third party unless otherwise expressly authorized in the Agreement, or (3) represent or imply to any party that it is an authorized or certified provider of services for DS. Licensee shall indemnify and defend DS against any claim, expense, judgment, damage or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Licensee's use of the Licensed Programs with third party end users.

EXTENDED ENTERPRISE USERS

For certain Licensed Programs as identified in the Product Portfolio and subject to all terms and conditions of the Agreement and this LPS, Licensee is authorized to give access to its licenses of such Licensed Programs to Extended Enterprise Users for the sole and exclusive purpose of enabling the Extended Enterprise Users to conduct business with Licensee, provided that use of the Licensed Programs by any such Extended Enterprise User shall be limited to use (i) solely as configured and deployed by Licensee and (ii) solely in connection with the Extended Enterprise User's performance of services for and on behalf of Licensee, and not for such Extended Enterprise User's own or another's account or for the purpose of hosting, modifying, or otherwise using or maintaining the Licensed Programs.

OUTSOURCING TO A THIRD PARTY

Licensee is authorized to execute the Licensed Programs remotely on computers operated by third parties, provided that only duly authorized Users, and/or Extended Enterprise Users if applicable, shall have access to the Licensed Programs. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Programs are installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted there under, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written agreement under which the third party agrees that its access to and use of the Licensed Programs is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any [DS Group Company](#). Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Programs, Licensee shall immediately terminate the third party's access to and use of the Licensed Programs. Licensee shall indemnify and defend DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to each third party's access to or use of the Licensed Programs.

EDUCATIONAL ALLOWANCE AVAILABILITY

The standard educational allowance does not apply to the Licensed Programs to which this LPS applies.

USE OF EARLY ACCESS FEATURES

DS in its sole discretion may provide, at no additional cost, the ability for Licensee to use certain features made available as part of Licensed Programs for early access purposes (the "Features"). Such Features are clearly identified, displaying terminology such as "beta", "early delivery", etc. on the user interface or in the Documentation, and may be used solely with the applicable Licensed Program.

In electing to use Features, Licensee expressly acknowledges and accepts that:

1. use of the Features as set forth herein is at Licensee's own discretion and risk; and
2. as is always the case but of particular importance here given the early evaluation nature of these Features, Licensee should ensure prior validation of any output created using the Features before use in production and especially in business-critical systems; any decision by Licensee to use them in such contexts must be made with due care and consideration of the potential consequences.

THE FEATURES ARE MADE AVAILABLE ON AN "AS IS" BASIS AND WITHOUT WARRANTY OF ANY KIND, WHETHER EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY, TITLE, NON-INFRINGEMENT AND/OR FITNESS FOR ANY PARTICULAR PURPOSE, AND ALL SUCH WARRANTIES, CONDITIONS, UNDERTAKINGS, AND TERMS ARE HEREBY EXCLUDED TO THE MAXIMUM EXTENT PERMITTED BY LAW.

In no event shall DS or its licensors be liable for direct or indirect, consequential, special, incidental or punitive damages, including without limitation loss of use, data, profit, revenue, or goodwill, whether based in contract, negligence, or otherwise, arising out of, resulting from or in any way relating to Licensee's use of the Features. In particular, the warranty, indemnification and Support Services provided by DS under the Agreement shall not apply to the Features.

DS in its sole discretion may elect at any time to discontinue the Features in whole or in part, modify the scope, functionality, format and output of any Features, and limit their use, all without liability. No express or implied commitment is made regarding the potential future availability of any Features.

In future delivery of the Licensed Programs, DS in its sole discretion may elect to make the Features, in whole or in part, available in Licensed Programs or in other Licensed Programs, to adapt their price and to restrict their use to specific countries, licensing schemes and/or other scope. Licensee acknowledges that the Features may leverage artificial intelligence models, systems or technologies for specific functionality (referred to as "AI-based Functionality").

Licensee may not use AI-based Functionality and its output ("AI Output") in a manner that is considered as prohibited or high-risk under applicable laws and regulations and/or for non-appropriate purposes, including but not limited to:

- Promote or facilitate illegal activities or unlawful or fraudulent actions;
- Attempt unauthorized access to a system, property, or information;
- Generate illicit content or content that contains or promotes illicit or non-appropriate content;
- Distribute malware or spam;
- Contravene regulatory policies, administrative rules and/or guidelines;
- Track people without consent;
- Falsely impersonate an individual; or
- Mine cryptocurrency.

Licensee's ownership of AI Output is subject to DS and/or third parties pre-existing rights which may be embedded or included in such AI Output. Licensee acknowledges and agrees that (i) the AI Output may not qualify for intellectual property protection; (ii) different DS' Licensees may produce same or similar AI Output when using the AI-based Functionality, and (iii) Licensee's rights to the AI Output may not be enforceable against other users of AI-based Functionality.

Licensee shall (i) inform authorized Users (and Extended Enterprise Users, as applicable) that AI-based Functionality may be made available as part of Licensed Programs and (ii) train authorized Users (and Extended Enterprise Users, as applicable) to ensure compliance with applicable laws and regulations, as well as with the Agreement when using AI-based Functionality.

AI-based Functionality may include AI models, systems, technologies or features licensed from third-parties that require DS to pass through third-party terms. Licensee shall comply with such third-party terms as made available by DS in this LPS, within the Documentation or otherwise.

6. SPECIFIC TERMS FOR THIRD PARTY COMPONENTS

The specific terms relating to the use of certain third party components or products not developed by or for a DS Group Company and granted to Licensee to be used in connection with or within a Licensed Program are defined hereafter:

6.1 OPEN SOURCE COMPONENTS

The Licensed Programs may include open source components. Whenever notices (such as acknowledgment, copies of licenses or attribution notice) are required by the original licensor, such notices are included in the Documentation of the Licensed Programs.

Moreover, some open source components may not be distributed and licensed under the terms of the Agreement but under the terms of their original licenses as set forth in the Documentation of the Licensed Programs themselves.

Source code for open source software components licensed under terms and conditions that mandate availability of such source code is available upon request. The warranty and indemnification provided by DS under the Agreement does NOT apply to all open source components. The original licensors of said open source components provide them on an "as is" basis and without any liability whatsoever to Licensee.

6.2 ADDITIONAL THIRD PARTY TERMS

The following terms apply in addition to the Agreement:

8. Licensee shall not remove or modify any program marking or any notice of Oracle's or its licensor's proprietary rights.
9. When applicable, use of the Commercial Features for any commercial or production purpose requires a separate license from Oracle. "Commercial Features" means those features that are identified as such in the Licensing Information User Manual – Oracle Java SE and Oracle Java Embedded Products Document, accessible at <https://www.oracle.com/technetwork/java/javase/documentation/index.html>, under the "Description of Product Editions and Permitted Features" section.
