
Licensed Program Specifications (LPS)

Reqtify®, ControlBuild® and AUTOSAR Builder® Release 2015

Terms that are initially capitalized below are defined in the Glossary - Release 1, available at www.3ds.com/terms/glossary.

The list of all Reqtify®, ControlBuild® and AUTOSAR Builder® Licensed Programs to which this LPS applies are available in the [Product Portfolio](http://www.3ds.com/terms/product-portfolio) on Dassault Systèmes website:

www.3ds.com/terms/product-portfolio

Hardware/Software Requirements

Reqtify

The minimal size requirements are as follows:

Windows

- Approximately 150MByte available hard-disk space
- 512 MByte RAM and 8 MByte VRAM
- High color (16-bit or 65536 colors) at resolution 1024x768 or 1280x1024

Reqtify is supported on the following platforms:

- Windows 2000/XP/VISTA/Seven and Eight (32 & 64 bits)

ControlBuild

The minimal system requirements for running ControlBuild are as follows:

Windows

- Approximately 500 MByte available hard-disk space
- 2 GBytes RAM

ControlBuild is supported on the following platforms:

- Windows /XP/VISTA/ Seven and Eight (32 & 64 bits)

AUTOSAR Builder

The minimal size requirements are as follows:

- Approximately 600MByte available hard-disk space
- 1 GByte RAM (*) with the 32 bits version of AUTOSAR Builder
- 2 GByte RAM (*) with the 64 bits version of AUTOSAR Builder

(*) When working with large AUTOSAR models, it is recommended that you allow more memory to enhance tool performance, at least 2 GB of physical memory with the 32 bits version or 4 GB with the 64 bits version of physical memory.

AUTOSAR Builder is supported on the following platforms:

- Windows 2000, XP, VISTA and Seven (32 & 64 bits)
-

Licensed Program Materials Availability

- Restricted materials - No. These Licensed Programs are available without source licensed program materials. It is available in object code only.
-

Supplemental Terms

Licensing Schemes & Geographic Scope

The licenses on the [Licensed Programs](#) to which this LPS applies are granted pursuant to the [Agreement](#) with Dassault Systèmes for the following usage and authorized users as such terms are defined in the Glossary - Release 1.

- [Machine Based](#) (node-lock)
- [Concurrent Based](#) (floating)
- [Named User Based](#)
- [Token Based](#) (the number of tokens required per Licensed Program is described in the Product Portfolio)

Licenses of the Licensed Programs to which this LPS applies are granted for use only in the country for which the license is ordered. Users whose usual workplace is located in the same country as the country where such use of the Licensed Program has been authorized, may use the Licensed Program

in any other country (subject *inter alia* to the export and re-export laws and regulations provision of the Agreement) for purposes of a business trip of a maximum of thirty (30) consecutive days.

Additional terms for Token Based licenses and Concurrent Based licenses

Token Based and Concurrent Based licenses may be licensed for either a Single Site or Multi-Site usage. Subject *inter alia* to the export and re-export laws and regulations provision of the Agreement and applicable provisions governing the above licensing structures:

- **A Single Site License** authorizes the Licensee to install and use the Licensed Program to which this LPS applies only on Machines within Licensee's Site as identified in the Ordering Document and in the country for which the license is ordered. The term **Licensee's Site** means the specific physical address of Licensee's own facility identified in the Ordering Document that may consist of one or more buildings within a radius of one kilometer of where the Licensed Program is first installed and put into use.
- **A Multi Site License**, as specified in the Product Portfolio, authorizes the Licensee to install and use the Licensed Program to which this LPS applies on Machines in several facilities of the Licensee located in the same geographic region only (i.e. APAC or EMEA or Americas).

OTHER PERMITTED USES

USE FOR CERTAIN SERVICES. Except for [Development Tool Kits](#), Licensee is authorized to use such Licensed Program for added-value engineering and/or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Program. In any event, Licensee may not (A) use the Licensed Program to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an applications service provider, or (B) install and/or operate the Licensed Program on any hardware and/or software environment owned by or under control of any third party, or (C) represent or imply to any party that it is an authorized or certified provider of services for Dassault Systèmes. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Licensee's use of the Licensed Program with third party end users.

OUTSOURCING TO A THIRD PARTY. Licensee is authorized to execute the Licensed Programs remotely on computers operated by third parties, provided that only duly authorized Users, and/or [Extended Enterprise Users](#) if applicable, shall have access to the Licensed Programs. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Programs are installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted thereunder, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written Agreement under which the third party agrees that its access to and use of the Licensed Programs is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any [DS Group Company](#). Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If

Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Programs, Licensee shall immediately terminate the third party's access to and use of the Licensed Programs. Licensee shall indemnify, defend, and hold harmless Dassault Systèmes against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to each third party's access to or use of the Licensed Programs.

LICENSEE'S RESPONSIBILITY. In addition to all terms and conditions of the Agreement and all other provisions of this LPS, Licensee agrees that it is responsible for ensuring that any use of the Licensed Program by all Users, Named Users and/or Extended Enterprise Users if applicable, shall at all times be in compliance with the terms and conditions of the Agreement. Any breach of the terms of this Agreement by Extended Enterprise Users if applicable, shall also be deemed a breach by Licensee.

Type/Duration of Program Services (also referred to as "Support Services")

You will find all necessary information including processes, on Dassault Systèmes website:

Designated Machine Identification

No

Specific Terms for Third Party Software

OPEN SOURCE SOFTWARE

The Licensed Programs may include open source software components. Whenever notices (such as acknowledgment, copies of licenses or attribution notice) are required by the original licensor, such notices are included in the Documentation of the Licensed Programs.

The following components are not distributed and licensed under the terms of the Agreement but under the terms of their original licenses set forth in the Documentation and/or notice files in the Licensed Programs themselves. Source code for these components is available upon request.

Under the GNU LESSER GENERAL PUBLIC LICENSE version 2, available at <http://opensource.org/licenses/LGPL-2.1>

Libiconv

Under the ECLIPSE PUBLIC LICENSE version 1.0, available at <http://www.eclipse.org/legal/epl-v10.html>:

Eclipse components

Whenever distributed, the following software is distributed and licensed under the terms of the GNU General Public License, available at <http://opensource.org/licenses/GPL-2.0>:

Mingw (Portions, see <http://www.mingw.org/license>)

The warranty and indemnification provided by DS under the Agreement does NOT apply to all such open source software components. Support Services provided by DS under the Agreement apply to open source software components and shall be provided by DS and not by the original licensor, but only for the use of the Licensed Programs that is in compliance with the terms of the Agreement, and in conjunction with the Licensed Programs. The original licensors of said open source software components provide them on an “as is” basis and without any liability whatsoever to Licensee.

ADDITIONAL THIRD PARTY TERMS SOFTWARE

AUTOSAR Builder contains Artop (AUTOSAR Tool Platform). The contributor of this component disclaims any and all warranties and may not be held liable for damages arising from the use of such component. The source code of this component is available upon request.

EXCLUSIONS

The Support Services provided by DS under the Agreement are not applicable to open source software components listed hereunder:

Mingw

Test Period

No

Security Mechanisms

Dassault Systèmes and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Programs may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Programs, and collect and transmit data about those illegal copies only. Data collected will not include any Licensee data created with the Licensed Programs. By using the Licensed Programs, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. Dassault Systèmes also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Programs. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Programs without any required lock device or authorization key provided by Dassault Systèmes is prohibited.

Softcopy Publications

These Licensed Programs may include licensed publications in displayable or source form. Except as provided in this section, the terms and conditions of the Agreement with Dassault Systèmes apply to these publications and to any copies that are made from them.

The licensed publications may be used in displayable or source form on all machines designated for these Licensed Programs. The licensed publications may also be copied and used on other machines in support of authorized use of these Licensed Programs.

To support authorized use of the Licensed Programs, printed copies of the displayable or source material may be made if the copyright notice and any other legend of ownership is reproduced on each copy or partial copy.

Warranty

These Licensed Programs are warranted as specified in the Agreement with Dassault Systèmes.

Licensed Program Specifications may be updated from time to time and such updates may constitute a change in specifications.

Following the discontinuance of all Program Services (Support Services), these Licensed Programs will be provided "As Is" as specified in the Agreement with Dassault Systèmes.

Footnotes:

Trademarks

Reqtify, ControlBuild, AUTOSAR Builder, **3DEXPERIENCE**, the Compass logo and the 3DS logo, CATIA, SOLIDWORKS, ENOVIA, DELMIA, SIMULIA, GEOVIA, EXALEAD, 3D VIA, BIOVIA, NETVIBES, and 3DXCITE are commercial trademarks or registered trademarks of Dassault Systèmes or its subsidiaries in the U.S. and/or other countries. All other trademarks are owned by their respective owners. Use of any Dassault Systèmes or its subsidiaries trademarks is subject to their express written approval.

Licensed Programs and services names may be trademarks or service marks of Dassault Systèmes or its subsidiaries.

References in this publication to Dassault Systèmes products, Licensed Programs and/or Program Services (Support Services) do not imply that Dassault Systèmes intends to make these available in all countries in which Dassault Systèmes operates.

Any other documentation with respect to these Licensed Programs, excluding any documentation referenced herein, is provided for reference purposes only and does not extend or modify these specifications.
