## **Licensed Program Materials Availability**

- Restricted materials - No. This licensed program is available without source licensed program materials. It is available in object code only.
-

# **Supplemental Terms**

Terms that are initially capitalized below are defined in the Glossary - Release 1, available at [www.3ds.com/terms/glossary](http://www.3ds.com/terms/glossary).

## **Licensing Schemes & Geographic Scope**

The licenses on the Licensed Program to which this LPS applies are granted pursuant to the Agreement with Dassault Systèmes and according to one the following licensing schemes (specifying the authorized use and the authorized users), as specified in the [Product Portfolio](#), the terms of which are incorporated herein by reference:

.

The following license types are available for these products:

- [Concurrent Based \(floating\)](#)
- [Token Based](#)

The Licensed Programs may be accessed and executed by Users whose usual workplace is at the same facility as the [License Server](#) or on the [Machines](#) for which license keys have been provided, as applicable (1) on the License Server itself, and (2) on other Machines that are networked to the License Server at the same site as the License Server or are located in the same country as the License Server, as identified in the Quote.

Within the parameters of the Quote, Licensee may from time to time designate the License Server(s) for which license keys shall be provided and from which tokens shall be available to other machine(s) subject to the restrictions described in this LPS.

Licensee shall promptly provide DS with usage reports when requested.

Number of tokens. For analysis jobs, the number of required tokens (also called “analysis tokens”) is determined by the type of analysis being performed and the number of CPUs or cores used in running the analysis job. Required token configurations may be changed for new or renewed licenses and with modifications of the covered products. Licensee will receive one or more license keys, each for a specific License Server which will permit access to the Licensed Programs. License keys include the agreed number and type of tokens for the Licensed Programs. The Licensed Programs, license tokens and applicable fees are specified in the Quote.

Additional Information for Concurrent Based. Each Licensed Program in concurrent Based mode requires a unique license feature (sometimes referred to as “interactive tokens”) for each concurrent User. Licensee will receive one or more license keys, each for a specific License Server which will permit access to the Licensed Programs.

## **Other Permitted Uses**

**USE FOR CERTAIN SERVICES.** Except for [Development Tool Kits](#), Licensee is authorized to use such Licensed Program for added-value engineering and/or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Program. In any event, Licensee may not (A) use the Licensed Program to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an applications service provider, or (B) install and/or operate the Licensed Program on any hardware and/or software environment owned by or under control of any third party, or (C) represent or imply to any party that it is an authorized or certified provider of services for Dassault Systèmes. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Licensee's use of the Licensed Program with third party end users.

**OUTSOURCING TO A THIRD PARTY.** Licensee is authorized to execute the Licensed Program remotely on computers operated by third parties, provided that only duly authorized Users, and/or [Extended Enterprise Users](#) if applicable, shall have access to the Licensed Program. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Program is installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted thereunder, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written Agreement under which the third party agrees that its access to and use of the Licensed Program is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any [DS Group Company](#). Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Program, Licensee shall immediately terminate the third party's access to and use of the Licensed Program. Licensee shall indemnify, defend, and hold harmless Dassault Systèmes against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to each third party's access to or use of the Licensed Program.

**LICENSEE'S RESPONSIBILITY.** In addition to all terms and conditions of the Agreement and all other provisions of this LPS, Licensee agrees that it is responsible for ensuring that any use of the Licensed Program by all Users, Named Users and/or Extended Enterprise Users if applicable shall at all times be in compliance with the terms and conditions of the Agreement. Any breach of the terms of this Agreement by Extended Enterprise Users if applicable, shall also be deemed a breach by Licensee.

---

## **Type/Duration of Program Services( also referred to as “Support Services”)**

You will find all necessary information including processes, on Dassault Systèmes website :

<http://www.3ds.com/terms/support-policies>

---

## **Designated Machine Identification**

No

---

## **Specific Terms for Third Party Software**

The specific terms relating to the use of certain third party software components or products not developed by or for a DS Group Company and granted to Licensee to be used in connection with or within a Licensed Program are defined hereafter:

### **Open Source Software**

The Licensed Programs may include open source software components. Whenever notices (such as acknowledgment, copies of licenses or attribution notice) are required by the original licensor, such notices are included in the Documentation of the Licensed Programs.

The following components are not distributed and licensed under the terms of the Agreement but under the terms of their original licenses set forth in the Documentation and/or notice files in the Licensed Programs themselves. Source code for these components is available upon request.

Under the GNU LESSER GENERAL PUBLIC LICENSE version 2.1, available at <http://www.gnu.org/licenses/old-licenses/lgpl-2.1.en.html>:  
ML (Multilevel Preconditioning Package)

The warranty and indemnification provided by DS under the Agreement does NOT apply to all such open source software components. Support Services provided by DS under the Agreement apply to open source software components and shall be provided by DS and not by the original licensor, but only for the use of the Licensed Programs that is in compliance with the terms of the Agreement, and in conjunction with the Licensed

Programs. The original licensors of said open source software components provide them on an “as is” basis and without any liability whatsoever to Licensee.

### **Additional Third Party Software Terms**

The following terms apply in addition to the Agreement:

None.

### **Exclusions**

Included on the media with the Abaqus components and under license from third parties, as a convenience to Abaqus users, may be certain third-party and open source software components that may be executed at the user’s option. These optional third-party and open source software components are not part of the Abaqus components and are NOT warranted or supported by DS. All optional third-party software components are identified in the Documentation.

---

## **Test Period**

No

---

## **Security Mechanisms**

Dassault Systèmes and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Programs may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Programs, and collect and transmit data about those illegal copies only (including IP and MAC addresses). Data collected will not include any Licensee data created with the Licensed Programs. By using the Licensed Programs, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. Dassault Systèmes also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Programs. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Programs without any required lock device or authorization key provided by Dassault Systèmes is prohibited.

---

## **Softcopy Publications**

The Licensed Program may include licensed publications in displayable or source form. Except as provided in this section, the terms and conditions of the Agreement with Dassault Systèmes apply to these publications and to any copies that are made from them.

The licensed publications may be used in displayable or source form on all machines designated for this Licensed Program. The licensed publications may also be copied and used on other machines in support of authorized use of this Licensed Program.

To support authorized use of the Licensed Program, printed copies of the displayable or source material may be made if the copyright notice and any other legend of ownership is reproduced on each copy or partial copy.<sup>1</sup>

---

## **Warranty**

The Licensed Program is warranted as specified in the Agreement with Dassault Systèmes.

Licensed Program Specifications may be updated from time to time and such updates may constitute a change in specifications.

Following the discontinuance of all Program Services (Support Services), this Licensed Program will be provided "As Is" as specified in the Agreement with Dassault Systèmes.

### **Footnotes:**

<sup>1</sup>

#### **Trademarks**

SIMULIA, Abaqus, CATIA and Dassault Systèmes' logo are trademarks or registered trademarks of Dassault Systèmes or its subsidiaries in the US and/or in other countries.

Company, products and services names may be trademarks or service marks of related companies.

References in this publication to Dassault Systèmes Products, Licensed Programs and/or Program Services (Support Services) do not imply that Dassault Systèmes intends to make these available in all countries in which Dassault Systèmes operates.

Any other documentation with respect to this Licensed Program, excluding any documentation referenced herein, is provided for reference purposes only and does not extend or modify these specifications.

March 2014
