Licensed Program Specifications (LPS)

SIMULIA® Isight 5.9 and SIMULIA® Execution Engine 5.9

Terms that are initially capitalized are defined in the Glossary - Release 1, available at
www.3ds.com/terms/glossary

A list of SIMULIA® Isight 5.9 and of SIMULIA® Execution Engine 5.9 Licensed Programs
is available in the Product Portfolio on Dassault Systèmes website:

www.3ds.com/terms/product-portfolio

Hardware and Software Requirements

Hardware and software information for SIMULIA Isight 5.9 and SIMULIA Execution
Engine 5.9 Licensed Programs is available on the following website:

http://www.simulia.com/support/sup_systems_info.html

Licensed Program Materials Availability

Restricted materials - No. This Licensed Program is available without source Licensed
Programs materials. It is available in object code only.

Supplemental Terms

Licensing Schemes & Geographic Scope

The licenses on the Licensed Programs to which this LPS applies are granted pursuant to the
Agreement with Dassault Systèmes for the following usage and authorized users as such
terms are defined in the Glossary - Release 1.

➢ Concurrent Based (floating)   System License
➢ Token Based

The Licensed Program may be accessed and executed by Users whose usual workplace is at the same facility as the License Server or on the Machines for which license keys have been provided, as applicable (1) on the License Server itself, and (2) on other Machines that are networked to the License Server at the same site as the License Server or are located in the same country as the License Server, as identified in the Quote.

Within the parameters of the Quote, Licensee may from time to time designate the License Server(s) for which license keys shall be provided and from which tokens shall be available to other machine(s) subject to the restrictions described in this LPS.

Licensee shall promptly provide Dassault Systèmes with usage reports when requested.

Number of tokens. For execution of Isight simulation workflows, the number of required tokens (referred to as "Isight Tokens") is determined by the number and type of components in the simulation workflow and the number of processor cores used in running the simulation workflow. In case of a new license or renewal of any license of a Licensed Program, the required number of tokens may be changed in the event of modifications to such Licensed Program. Licensee will receive a license key for each License Server which will permit access to the Licensed Programs. License keys include the agreed number and type of tokens for the Licensed Programs. The Licensed Programs, license tokens and applicable fees are specified in the Quote.

Additional Information for Concurrent Based license: Each Licensed Program licensed in Concurrent Based mode requires a unique license feature for each concurrent use. Licensee will receive a license key for each License Server which will permit access to the Licensed Program(s).

Other Permitted Uses

USE FOR CERTAIN SERVICES. Except for Development Tool Kits, Licensee is authorized to use such Licensed Programs for added-value engineering and/or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Programs. In any event, Licensee may not (A) use the Licensed Programs to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an applications service provider, or (B) install and/or operate the Licensed Programs on any hardware and/or software environment owned by or under control of any third party (except as set forth below in "Outsourcing To a Third Party"), or (C) represent or imply to any party that it is an authorized or certified provider of services for Dassault Systèmes. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Licensee's use of the Licensed Programs with third party end users.

OUTSOURCING TO A THIRD PARTY. Licensee is authorized to execute the Licensed Programs remotely on computers operated by third parties, provided that only duly authorized Users, and/or Extended Enterprise Users if applicable, shall have access to the Licensed Programs. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Programs is installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted thereunder, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written Agreement under which the third party agrees that its access to and use of the Licensed Programs is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any DS Group Company. Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Programs, Licensee shall immediately terminate the third party's access to and use of the Licensed Programs. Licensee shall indemnify, defend, and hold harmless Dassault Systèmes against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to each third party's access to or use of the Licensed Programs.

LICENSEE'S RESPONSIBILITY. In addition to all terms and conditions of the Agreement and all other provisions of this LPS, Licensee agrees that it is responsible for ensuring that any use of the Licensed Program by all Users, Named Users and/or Extended Enterprise Users if applicable shall at all times be in compliance with the terms and conditions of the Agreement. Any breach of the terms of this Agreement by Extended Enterprise Users if applicable, shall also be deemed a breach by Licensee.

Type/Duration of Program Services(also referred to as "Support Services")

You will find all necessary information including processes, on Dassault Systèmes website:
        http://www.3ds.com/terms/support-policies

Designated Machine Identification

No

Specific Terms for Third Party Software

The specific terms relating to the use of certain third party software components or products not developed by or for a DS Group Company and granted to Licensee to be used in connection with or within a Licensed Program are defined hereafter:

Open Source Software

The Licensed Programs may include open source software components. Whenever notices (such as acknowledgment, copies of licenses or attribution notice) are required by the original licensor, such notices are included in the Documentation of the Licensed Programs.

The following components are not distributed and licensed under the terms of the Agreement but under the terms of their original licenses set forth in the Documentation and/or notice files in the Licensed Programs themselves. Source code for these components is available upon request.

> Under the GNU LESSER GENERAL PUBLIC LICENSE version 2.1, available at http://www.gnu.org/licenses/old-licenses/lgpl-2.1.en.html:
> > RSyntaxTextArea
> > JUG (Java UUID Generator)
> > Jacob
>
> Under the GNU LESSER GENERAL PUBLIC LICENSE version 3, available at http://www.gnu.org/licenses/lgpl-3.0.en.html:
> > GWT Beans Binding
> > ModalFrameUtility

The warranty and indemnification provided by DS under the Agreement does NOT apply to all such open source software components. Support Services provided by DS under the Agreement apply to open source software components and shall be provided by DS and not by the original licensor, but only for the use of the Licensed Programs that is in compliance with the terms of the Agreement, and in conjunction with the Licensed Programs. The original licensors of said open source software components provide them on an "as is" basis and without any liability whatsoever to Licensee.

Additionnal Third Party Software Terms

The following terms apply in addition to the Agreement:

None.

Exclusions

The Support Services provided by DS under the Agreement are not applicable to open source software components listed hereunder:

None.

Test Period

No

Security Mechanisms

Dassault Systèmes and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Programs may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Programs, and collect and transmit data about those illegal copies only (including IP and MAC addresses). Data collected will not include any Licensee data created with the Licensed Programs. By using the Licensed Programs, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. Dassault Systèmes also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Programs. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Programs without any required lock device or authorization key provided by Dassault Systèmes is prohibited.

Softcopy Publications

The Licensed Program may include licensed publications in displayable or source form. Except as provided in this section, the terms and conditions of the Agreement with Dassault Systèmes apply to these publications and to any copies that are made from them.

The licensed publications may be used in displayable or source form on all machines designated for this Licensed Program. The licensed publications may also be copied and used on other machines in support of authorized use of this Licensed Program.

To support authorized use of the Licensed Program, printed copies of the displayable or source material may be made if the copyright notice and any other legend of ownership is reproduced on each copy or partial copy. [1]

Warranty

The Licensed Programs are warranted as specified in the Agreement.
Licensed Programs Specifications may be updated from time to time and such updates may constitute a change in specifications.

Following the discontinuance of Support Services related to the Licensed Programs, such Licensed Programs will be provided "AS IS" as specified in the Agreement.
