

DASSAULT SYSTEMES

LICENSED PROGRAMS TERMS (LPT) FOR

3DEXCITE DELTAGEN Release 13.1

Terms that are initially capitalized are defined in the Glossary - Release 2, available at www.3ds.com/terms/glossary.

These Licensed Programs Terms (“LPT”) and the terms incorporated herein by reference (including terms referenced on a website), are an integral part of the license agreement between DS and Licensee (“Agreement”), which refers to this LPT. In the event of a discrepancy, inconsistency or contradiction between this LPT and the other terms of the Agreement, the provisions of this LPT shall prevail, but only with respect to the [Licensed Programs](#) to which this LPT applies. Licensee acknowledges that it has full knowledge of all these terms and those incorporated herein by reference.

1. PRICING STRUCTURES

Licenses and [Support Services](#) for the Licensed Programs to which this LPT applies are granted according to one of the following pricing structures mentioned in the related [Quote](#), as specified in the [Product Portfolio](#) if available.

- [PLC/ALC](#)
- [TBL/ALC](#)
- [YLC](#)

Other pricing structures may be made available on a case by case basis.

2. LICENSING SCHEMES AND GEOGRAPHIC SCOPE

2.1. GENERAL RULES

The licenses for the Licensed Programs to which this LPT applies are granted pursuant to the Agreement, and according to one of the following licensing schemes (specifying the authorized use and end-users), as specified in the Product Portfolio if available, and as determined in the applicable Quote:

- [Concurrent \(floating\) Based](#)
- [Machine Based](#) (node-lock)
- Token Based “Credit”

Licenses for the Licensed Programs to which this LPT applies are granted for use on [Machines](#) by the [Users](#) (and [Extended Enterprise Users](#), as applicable) only in the country for which the licenses are ordered. However, (i) Users, whose usual workplace is located in the same country as the country where such use of the Licensed Programs has been authorized, may use the Licensed Programs in any other country (subject inter alia to the export and re-export laws and regulations provisions of the Agreement) for purposes of a business trip of a maximum of thirty (30) consecutive days and (ii) DS may authorize, on a case-by-case basis, the use of certain Licensed Programs by the Users (and Extended Enterprise Users, as applicable) on a Remote Access mode.

It is agreed that, notwithstanding anything to the contrary provided in the [Documentation](#), software components packaged and delivered by DS as part of a given Licensed Program:

- shall solely be used together and as part of such Licensed Program and
- shall not be used standalone and/or for other purposes than the ones for which such Licensed Program has been marketed and granted to Licensee by DS.

If a patent invention is implemented in the Licensed Programs for which a right to use is granted pursuant to the Agreement, DS hereby grants Licensee a non-exclusive license on the applicable patent limited to the use of such Licensed Program.

2.2. SPECIFIC PROVISIONS FOR CERTAIN LICENSED PROGRAMS

For 3DEXCITE DELTAGEN DStellar 20.000 Credits (6TP-DRE-20), 3DEXCITE DELTAGEN DStellar 100.000 Credits (6TP-DRE-100) and 3DEXCITE DELTAGEN DStellar 200.000 Credits (6TP-DRE-200) Licensed Programs granted under Token Based "Credit" licensing scheme:

- (i) Credits are 3DEXCITE DELTAGEN DStellar render credits.
- (ii) The number of granted credits is indicated in the name of the Licensed Programs and is determined in the Transaction Document.
- (iii) The number of required credits to perform a given job is determined as follows:

One credit grants the right to use one 3DEXCITE DELTAGEN DStellar Licensed Program (6CP-DRT or 6MP-DRT-N) on one render node (e.g. computer) during one hour.

Default model of credit consumption is based on a hardware configuration of 16 core render node, where one credit results in one 4k resolution image of a car interior, rendered offline, with global illumination and 4096 anti-aliasing light samples quality, or equivalent output. Other hardware configurations or other rendering needs may require an alternative model of credit consumption.

Licensee is responsible for evaluating its need of credits and ordering appropriate 3DEXCITE DELTAGEN DStellar Token Based "Credit" Licensed Programs to cover at any time its consumption of credits.

Upon DS request, Licensee undertakes to provide promptly DS with a report indicating the consumption of credits for the current validity period of such Licensed Program. At the end of the validity period, Licensee shall automatically provide DS with such a report. If credits consumption exceeds the number of credits previously ordered for the validity period, Licensee should report this overuse to DS. In all of these cases, DS will send to Licensee an invoice for the overuse of credits based on the 3DEXCITE DELTAGEN DStellar 1.000 Credits Overuse (6TP-DRX) Licensed Program. Licensee shall then pay such invoice according to the terms and conditions of the Agreement.

3. OTHER PERMITTED USES FOR LICENSED PROGRAMS

USE FOR CERTAIN SERVICES. Except for [Development Tool Kit](#), Licensee is authorized to use the Licensed Programs for added-value engineering or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Programs. In any event, Licensee may not (1) use the Licensed Programs to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an application service provider, or (2) install and/or operate and/or give access to the Licensed Programs on any hardware and/or software environment owned by or under control of any third party unless otherwise expressly authorized in the Agreement, or (3) represent or imply to any party that it is an authorized or certified provider of services for DS. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Licensee's use of the Licensed Programs with third party end users.

OUTSOURCING TO A THIRD PARTY. Licensee is authorized to execute the Licensed Programs remotely on computers operated by third parties, provided that only duly authorized Users, and/or Extended Enterprise Users if applicable, shall have access to the Licensed Programs. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Programs are installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted there under, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written agreement under which the third party agrees that its access to and use of the Licensed Programs is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any [DS Group Company](#). Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Programs, Licensee shall immediately terminate the third party's access to and use of the Licensed Programs. Licensee shall indemnify, defend, and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to each third party's access to or use of the Licensed Programs.

LICENSEE'S RESPONSIBILITY. In addition to all terms and conditions of the Agreement and all other provisions of this LPT, Licensee agrees that it is responsible for ensuring that any use of the Licensed Programs by all Users, and, if applicable all Named Users and/or Extended Enterprise Users, shall at all times be in compliance with the terms and conditions of the Agreement, and any breach by Extended Enterprise Users (if applicable) of the terms of this Agreement shall also be deemed a breach by Licensee.

SPECIAL PROVISIONS FOR CONTENT PROVIDED WITHIN THE LICENSED PROGRAM

The databases provided within the Licensed Program to Licensee such as, but not limited to, surrounding, material, item, visual representation generated optically, electronically, digitally or by any other mean ("Content") may solely be used (i) within the Licensed Programs, (ii) for evaluation, internal training, creating internal presentations, in particular internal film and video presentations, internal on-line or electronic publications, or creating derivative works resulting from the said internal use. Licensee must not use the Content in any other way and in particular is not entitled to (i) use the Content for advertising promotional projects, external presentations and publications, websites and all other forms of external communication and (ii) remove any notice of copyright, trade-mark or other proprietary right from any place where it is on or embedded in the Content. Irrespective of the rights granted herein, all rights in and to the Content, including, without

limitation, all copyrights and other intellectual property rights relating to the Content, are retained by DS or the third parties (as the case may be) which supplied the Content delivered with the Licensed Program.

4. SECURITY MECHANISMS

DS and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Programs may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Programs, and collect and transmit data about those illegal copies only (including IP and MAC addresses). Data collected will not include any Licensee data created with the Licensed Programs. By using the Licensed Programs, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. DS also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Programs. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Programs without any required lock device or authorization key provided by DS is prohibited.

5. ADDITIONAL DEFINITIONS

The following definitions are supplementary to the Glossary - Release 2, available at www.3ds.com/terms/glossary.

Remote Access means, if so specified in the Product Portfolio, that Users and/or Extended Enterprise Users may access and use the Licensed Program remotely via the Internet from any country (subject inter alia to the export and re-export laws and regulations provisions of the Agreement).

Token Based "Credit". Use of a Licensed Program in Token Based "Credit" mode grants a right to use a certain number of credits; this pool of credits can be accessed and used simultaneously by one or several authorized Users and/or Extended Enterprise Users, as applicable. Credits are consumed by running jobs from certain Licensed Programs. Each credit is for a one time use (consumable and not reusable).

- The number of granted credits for a Token Based "Credit" Licensed Program is specified in the Product Portfolio if available, and is determined in the applicable Transaction Document. Credits are available for the validity period of the corresponding Licensed Program, as long as not consumed. Unused credits expire at the end of the validity period and Licensee shall not be entitled to any refund, nor credit related to such expired credits.
- This Licensed Program must be used together with a management system that calculates credits consumption.
- The number of required credits to run a job shall be determined according to this LPT or in the Product Portfolio if available.

6. TRADEMARKS

DELTAGEN, 3DEXPERIENCE, the Compass logo and the 3DS logo, CATIA, SOLIDWORKS, ENOVIA, DELMIA, SIMULIA, GEOVIA, EXALEAD, 3D VIA, BIOVIA, NETVIBES, 3DSWYM and 3DEXCITE are commercial trademarks or registered trademarks of Dassault Systèmes, a French "société européenne" (Versailles Commercial Register # B 322 306 440), or its subsidiaries in the U.S. and/or other countries. All other trademarks are owned by their respective owners. Use of any Dassault Systèmes or its subsidiaries trademarks is subject to their express written approval.

Licensed Programs and services names may be trademarks or service marks of Dassault Systèmes or its subsidiaries.
