

# DASSAULT SYSTEMES

## LICENSED PROGRAMS TERMS (LPT) FOR

### SIMULIA® Abaqus 6.14 and Abaqus 6.14-AP Anatomical

Terms that are initially capitalized are defined in the Glossary - Release 1, available at [www.3ds.com/terms/glossary](http://www.3ds.com/terms/glossary).

These Licensed Programs Terms (“LPT”) and the terms incorporated herein by reference (including terms referenced on a website), are an integral part of the license agreement between DS and Licensee (“Agreement”), which refers to this LPT. In the event of a discrepancy, inconsistency or contradiction between this LPT and the other terms of the Agreement, the provisions of this LPT shall prevail, but only with respect to the [Licensed Programs](#) to which this LPT applies. Licensee acknowledges that it has full knowledge of all these terms and those incorporated herein by reference.

## 1. PRICING STRUCTURES

Licenses and [Support Services](#) for the Licensed Programs to which this LPT applies are granted according to the following pricing structure mentioned in the related [Quote](#), as specified in the [Product Portfolio](#) if available.

➤ [YLC](#)

Other pricing structures may be made available on a case by case basis.

## 2. LICENSING SCHEMES AND GEOGRAPHIC SCOPE

### 2.1. GENERAL RULES

The licenses for the Licensed Programs to which this LPT applies are granted pursuant to the Agreement, and according to the following licensing scheme (specifying the authorized use and end-users), as specified in the Product Portfolio if available, and as determined in the applicable Quote:

➤ [Concurrent \(floating\) Based](#)

Each Licensed Program in Concurrent Based mode requires a unique license for each concurrent use of the Licensed Program. Licensee may receive a license key for each License Server which will permit access to the agreed number of concurrent uses for the Licensed Programs.

Licensed Programs may be accessed and executed by [Users](#) whose usual workplace is at the same facility as the License Server (1) on the License Server itself, and (2) on other [Machines](#) that are networked to the License Server at the same site as the License Server or are located in the same country as the License Server, as identified in the Quote.

Within the parameters of the Quote or Ordering Document, Licensee may from time to time designate the License Server(s) for which license keys may be provided and from which the Licensed Programs shall be available to other Machine(s) subject to the restrictions described in this LPT.

It is agreed that, notwithstanding anything to the contrary provided in the [Documentation](#), software components packaged and delivered by DS as part of a given Licensed Program:

- shall solely be used together and as part of such Licensed Program and
- shall not be used standalone and/or for other purposes than the ones for which such Licensed Program has been marketed and granted to Licensee by DS.

If a patent invention is implemented in the Licensed Programs for which a right to use is granted pursuant to the Agreement, DS hereby grants Licensee a non-exclusive license on the applicable patent limited to the use of such Licensed Program.

### 2.2. SPECIFIC PROVISIONS FOR CERTAIN LICENSED PROGRAMS

**NONE**

### 3. OTHER PERMITTED USES FOR LICENSED PROGRAMS

All terms of the Agreement that are not modified according to this LPT remain applicable

**USE FOR CERTAIN SERVICES.** Licensee is authorized to use the Licensed Programs for added-value engineering or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Programs. In any event, Licensee may not (1) use the Licensed Programs to develop similar programs or software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an application service provider, or (2) install and/or operate and/or give access to the Licensed Programs on any hardware and/or software environment owned by or under control of any third party unless otherwise expressly authorized in the Agreement, or (3) represent or imply to any party that it is an authorized or certified provider of services for DS. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Licensee's use of the Licensed Programs with third party end users.

**OUTSOURCING TO A THIRD PARTY.** Licensee is authorized to execute the Licensed Programs remotely on computers operated by third parties, provided that only duly authorized Users, and/or Extended Enterprise Users if applicable, shall have access to the Licensed Programs. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Programs are installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted there under, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written agreement under which the third party agrees that its access to and use of the Licensed Programs is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any [DS Group Company](#). Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Programs, Licensee shall immediately terminate the third party's access to and use of the Licensed Programs. Licensee shall indemnify, defend, and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to each third party's access to or use of the Licensed Programs.

**LICENSEE'S RESPONSIBILITY.** In addition to all terms and conditions of the Agreement and all other provisions of this LPT, Licensee agrees that it is responsible for ensuring that any use of the Licensed Programs by all Users, and, if applicable all Named Users and/or Extended Enterprise Users, shall at all times be in compliance with the terms and conditions of the Agreement, and any breach by Extended Enterprise Users (if applicable) of the terms of this Agreement shall also be deemed a breach by Licensee.

**LICENSE AND USE RIGHTS:** Notwithstanding anything to the contrary in the Article "License" of the General Terms of the Agreement, DS grants Licensee, from the Effective Date of the License, a non-exclusive and non-transferable (except as expressly permitted in the General Terms of the Agreement) right, for the duration identified in the Quote and solely for its internal business use, to (i) modify the databases provided within the Licensed Programs and (ii) copy the Licensed Programs to which this LPT applies.

Licensee shall use the Licensed Program to which this LPT applies only in combination with other Licensed Programs. Licensee is permitted to make modifications to databases provided within the Licensed Program to which this LPT applies from within the graphical user interface of another Licensed Program. Licensee is expressly prohibited from modifying, distributing or reproducing any input file or any portion thereof created by another Licensed Program and which is necessary to run the Licensed Program to which this LPT applies. Simulation results obtained from the Licensed Program may not be used with any software, including but not limited to open source, that is capable of creating a numerical or finite element based model.

**OWNERSHIP:** Licensee shall retain title to all modifications made to the databases included within the Licensed Program. Modifications may include, without limitation, the insertion by Licensee of medical devices or additional or alternative material definitions into the Licensed Program. Licensee agrees that DS may create derivatives works or enhance the Licensed Program which may contain similar or identical modifications to those made to the Licensed Program by Licensee. In such a case, DS shall retain title to its own modifications or creations and Licensee will not bring any claim against DS or any DS Group Company related to such derivative work or enhancement.

**WARRANTY:** DS does not warrant that the Licensed Program will materially conform to its Documentation if Licensee modifies the Licensed Program in any way.

**TERMINATION OF THE LICENSED PROGRAM OR THE SUPPORT SERVICES:** Notwithstanding anything to the contrary in the Article "Termination" of the General Terms of the Agreement, upon (i) termination for convenience by Licensee of the license of the Licensed Program or the Support Services or (ii) expiration of the license of the Licensed Program or the Support Services, Licensee is authorized to retain copies of the current and previous Releases of the Licensed Program, or any portion thereof, to which this LPT applies with reduced rights of use as detailed hereinafter. Licensee may access such copies of the current and previous Releases of the Licensed Programs and any simulation results already obtained from the Licensed Program for interrogation or post-processing, including the generation of images or reports, but may not execute any additional solver uses.

#### 4. SECURITY MECHANISMS

DS and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Programs may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Programs, and collect and transmit data about those illegal copies only (including IP and MAC addresses). Data collected will not include any Licensee data created with the Licensed Programs. By using the Licensed Programs, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. DS also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Programs. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Programs without any required lock device or authorization key provided by DS is prohibited.

#### 5. ADDITIONAL DEFINITIONS

The following definitions are supplementary to the Glossary - Release 1, available at [www.3ds.com/terms/glossary](http://www.3ds.com/terms/glossary).

**Remote Access** means, if so specified in the Product Portfolio, that Users and/or Extended Enterprise Users may access and use the Licensed Program remotely via the Internet from any country (subject inter alia to the export and re-export laws and regulations provisions of the Agreement).

#### 6. TRADEMARKS

Abaqus, 3DEXPERIENCE, the Compass logo and the 3DS logo, CATIA, SOLIDWORKS, ENOVIA, DELMIA, SIMULIA, GEOVIA, EXALEAD, 3D VIA, BIOVIA, NETVIBES, 3DSWYM and 3DEXCITE are commercial trademarks or registered trademarks of Dassault Systèmes S.A. or its subsidiaries in the U.S. and/or other countries. All other trademarks are owned by their respective owners. Use of any Dassault Systèmes S.A. or its subsidiaries trademarks is subject to their express written approval.

Licensed Programs and services names may be trademarks or service marks of Dassault Systèmes S.A. or its subsidiaries.
