

LICENSED PROGRAMS TERMS FOR

SIMULIA® Tosca Structure 8.1 and SIMULIA® Tosca Fluid 2.4

Terms that are initially capitalized are defined in the Glossary - Release 1, available at www.3ds.com/terms/glossary.

These Licensed Programs Terms (“LPT”) and the terms incorporated herein by reference (including terms referenced on a website), are an integral part of the license agreement between DS and Licensee (“Agreement”), which refers to this LPT. In the event of a discrepancy, inconsistency or contradiction between this LPT and the other terms of the Agreement, the provisions of this LPT shall prevail, but only with respect to the [Licensed Programs](#) to which this LPT applies. Licensee acknowledges that it has full knowledge of all these terms and those incorporated herein by reference.

AVAILABLE PRICING STRUCTURES

Licenses and [Support Services](#) on the Licensed Programs to which this LPT applies may be ordered according to one of the following pricing structures:

- [PLC/ALC](#), or
- [YLC](#)

Other pricing structures may be made available on a case by case basis.

LICENSING SCHEMES & GEOGRAPHIC SCOPE

The licenses on the Licensed Programs to which this LPT applies are granted pursuant to the Agreement, and according to one of the following licensing schemes (specifying the authorized use and end-users), as specified in the Product Portfolio, the terms of which are incorporated herein by reference:

- [Concurrent Based](#) (floating)
- [System License](#)

The Licensed Programs may be accessed and executed by [Users](#) whose usual workplace is (i) at the same facility as the [License Server](#) or (ii) on the [Machines](#) for which license keys have been provided, as applicable (1) on the License Server itself, and (2) on other Machines that are networked to the License Server at the same site as the License Server or are located in the same country as the License Server, as identified in the [Quote](#).

Within the parameters of the Quote, Licensee may from time to time designate the License Server(s) for which license keys shall be provided to other Machine(s) subject to the restrictions described in this LPT.

Licensee shall promptly provide DS with usage reports when requested.

Additional Information for Concurrent Based License: Those SIMULIA Tosca Structure 8.1 Licensed Programs with “Triple License”, “Double License” or “Single License” in the Licensed Programs’ name or SIMULIA Tosca Fluid 2.4 with “Fluid Topo Basic” in the Licensed Programs’ name are collectively called “Optimization Offers” and are licensed as described below:

Each Optimization Offer supports one or more of the following types of optimizations: “Topology”, “Shape”, or “Bead” (collectively “Optimization Types”) depending on the Optimization Offer licensed and includes one solver access.

The license grant authorizes one concurrent use per Optimization Offer, the same User running several Optimization Offers, on the same Machine, (even of the same Optimization Type), needs to have several licenses.

Within one Optimization Offer, only one Optimization Type can be used at a time, and consequently different Optimization Types must be used alternatively.

The solver access included in any of the Optimization Offers can be used in conjunction with more than one Optimization Offer. The solver access is limited by the total number of Optimization Offers licensed.

Additional Information for System License: A Licensed Program granted under a System License mode can be simultaneously used by the Users of Optimization Offers. As a consequence, the total number of simultaneous uses of the Licensed Programs in System License mode is limited by the total number of Optimization Offers licensed.

OTHER PERMITTED USES

USE FOR CERTAIN SERVICES. Except for [Development Tool Kits](#), Licensee is authorized to use such Licensed Programs for added-value engineering and/or implementation services. Added-value engineering or implementation services are services to deliver to a third party end user any deliverable generated specifically for said third party end user from use by Licensee of the Licensed Programs. In any event, Licensee may not (A) use the Licensed Programs to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an applications service provider, or (B) install and/or operate the Licensed Programs on any hardware and/or software environment owned by or under control of any third party, or (C) represent or imply to any party that it is an authorized or certified provider of services for DS. Licensee shall indemnify, defend and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Licensee's use of the Licensed Programs with third party end users.

OUTSOURCING TO A THIRD PARTY. Licensee is authorized to execute the Licensed Programs remotely on computers operated by third parties, provided that only duly authorized Users, and/or [Extended Enterprise Users](#) if applicable, shall have access to the Licensed Programs. Licensee may appoint a third party, such as an outsourcer, to operate the hardware on which the Licensed Programs are installed, on behalf of Licensee, only if (i) Licensee does not assign the Agreement or any licenses granted thereunder, in whole or in part, to the third party, (ii) the third party and Licensee enter into a written Agreement under which the third party agrees that its access to and use of the Licensed Programs is subject to all of the grant of license, confidentiality, restrictions, and limitations on use provisions of the Agreement, and (iii) such third party is not a competitor of any [DS Group Company](#). Licensee acknowledges and agrees that the third party shall be deemed an agent of Licensee. If Licensee becomes aware of any actual or suspected unauthorized use or disclosure of the Licensed Programs, Licensee shall immediately terminate the third party's access to and use of the Licensed Programs. Licensee shall indemnify, defend, and hold harmless DS against any claim, expense, judgment, damage, or loss (including reasonable attorneys' fees) which arises out of or in any way relates to each third party's access to or use of the Licensed Programs.

LICENSEE'S RESPONSIBILITY. In addition to all terms and conditions of the Agreement and all other provisions of this LPT, Licensee agrees that it is responsible for ensuring that any use of the Licensed Program by all Users, Named Users and/or Extended Enterprise Users if applicable shall at all times be in compliance with the terms and conditions of the Agreement. Any breach of the terms of this Agreement by Extended Enterprise Users if applicable, shall also be deemed a breach by Licensee.

SECURITY MECHANISMS

DS and its affiliated companies take all legal steps to eliminate piracy of their software products. In this context, the Licensed Programs may include a security mechanism that can detect the installation or use of illegal copies of the Licensed Programs, and collect and transmit data about those illegal copies only (including IP and MAC addresses). Data collected will not include any Licensee data created with the Licensed Programs. By using the Licensed Programs, Licensee consents to such detection and collection of data, as well as its transmission and use if an illegal copy is detected. DS also reserves the right to use a hardware lock device, license administration software, and/or a license authorization key to control access to the Licensed Programs. Licensee may not take any steps to avoid or defeat the purpose of any such measures. Use of any Licensed Programs without any required lock device or authorization key provided by DS is prohibited.

Trademarks

Tosca Structure, Tosca Fluid, **3DEXPERIENCE**, the Compass logo and the 3DS logo, CATIA, SOLIDWORKS, ENOVIA, DELMIA, SIMULIA, GEOVIA, EXALEAD, 3D VIA, BIOVIA, NETVIBES, and 3DXCITE are commercial trademarks or registered trademarks of Dassault Systèmes or its subsidiaries in the U.S. and/or other countries. All other trademarks are owned by their respective owners. Use of any Dassault Systèmes or its subsidiaries trademarks is subject to their express written approval.

Licensed Programs and services names may be trademarks or service marks of Dassault Systèmes or its subsidiaries.
