

DASSAULT SYSTEMES

OFFERING SPECIFIC TERMS (OST) FOR 3DEXPERIENCE R2024x Dedicated Cloud ONLINE SERVICES

ADDITIONAL TERMS #1

These additional terms #1, which supplement the Offering Specific Terms for 3DEXPERIENCE R2024x Dedicated Cloud Online Services, are an integral part of such Offering Specific Terms. Except as expressly supplemented by these additional terms #1, all terms and conditions of the Offering Specific Terms for 3DEXPERIENCE R2024x Dedicated Cloud Online Services shall remain in full force and effect.

The Offering Specific Terms for 3DEXPERIENCE R2024x Dedicated Cloud Online Services together with these additional terms #1 (OST) and the terms incorporated herein by reference (including terms referenced on a website) are an integral part of the license and online services agreement between 3DS and Customer (“Agreement”), which refers to this OST. In the event of a discrepancy, inconsistency or contradiction between this OST and the other terms of the Agreement, the provisions of this OST shall prevail, but only with respect to the Online Services to which this OST applies. Customer acknowledges that it has full knowledge of all the terms of this OST and those incorporated herein by reference.

2. LICENSING SCHEMES AND GEOGRAPHIC SCOPE

2.2 SPECIFIC PROVISIONS FOR CERTAIN 3DS OFFERINGS

The following provisions supplement those of the corresponding section of the Offering Specific Terms for 3DEXPERIENCE R2024x Dedicated Cloud Online Services:

NETVIBES - 3DEXPERIENCE Business Analytics business category

Collaboration & intelligence / Enterprise data sciences

For each Online Service listed below in Table 5, Customer is delivered a certain quantity of biosphere material compute units, unless defined differently in the Documentation.

Moreover, Customer is allowed to consume a limited number of biosphere material compute surplus units, as described in the Documentation, when no biosphere material compute units are available.

For any given period, to be able to continue to run jobs consuming biosphere material compute units or biosphere material compute surplus units, Customer must order, at least, a required number of Biosphere Materials Compute 10,000 Units (6TP-BC1-DC) Online Services.

This required number shall be equal to the number of Biosphere Materials Compute 10,000 Units (6TP-BC1-DC) Online Services delivering a cumulated total number of biosphere material compute units superior to the number of extra biosphere material compute units consumed during the previous given period.

For any given period, the number of extra biosphere material compute units is equal to the number of biosphere material compute units and biosphere material compute surplus units consumed, excluding the total number of biosphere material compute units delivered by the Online Services listed in Table 5.

Consumption rules of biosphere material compute units and biosphere material compute surplus units are specified in the Documentation. For one (1) Platform, biosphere material compute units and biosphere material compute surplus units are shared among all the authorized Users (and/or Extended Enterprise Users, as applicable). Biosphere material compute units and biosphere material compute surplus units belonging to one (1) Platform cannot be transferred to another Platform.

The number of biosphere material compute units and biosphere material compute surplus units is specified on a yearly basis. For terms of one (1) year or less, all biosphere material compute units and biosphere material compute surplus units are issued at the beginning of the term and unused biosphere material compute units and biosphere material compute surplus units expire at the end of the term. For terms longer than one (1) year, biosphere material compute units and biosphere material compute surplus units are issued per year and unused biosphere material compute units and biosphere material compute surplus units expire at the end of the given year period; for any incomplete year period, the number of issued biosphere material compute units and biosphere material compute surplus units is pro-rated and unused biosphere material compute units and biosphere material compute surplus units expire at the end of the given incomplete year period.

Table 5

3DS Offering Name	Product Number	Biosphere material compute units delivered
Data Scientist	6NP-DAL-DC	Three hundred and fifty thousand (350,000)

ENOVIA - 3DEXPERIENCE Governance/Lifecycle business category

The following provisions supersede those of the corresponding section of the Offering Specific Terms for 3DEXPERIENCE R2024x Dedicated Cloud Online Services:

Business process task credit

For each Business Process Player (6NP-BPO-DC) Online Service, Customer is delivered a given number of business process task credits, as defined in the Documentation. Consumption rules of business process task credits are specified in the Documentation.

For one (1) Platform, business process task credits are shared among all the authorized Users (and/or Extended Enterprise Users, as applicable). Such task credits belonging to one (1) Platform cannot be transferred to another Platform.

The number of business process task credits is specified on a yearly basis. For terms of one (1) year or less, all business process task credits are issued at the beginning of the term and unused business process task credits expire at the end of the term. For terms longer than one (1) year, business process task credits are issued per year and unused business process task credits expire at the end of the given year period; for any incomplete year period, the number of issued business process task credits is pro-rated and unused business process task credits expire at the end of the given incomplete year period.
