2.2 SPECIFIC PROVISIONS FOR CERTAIN 3DS OFFERINGS

CATIA - 3DEXPERIENCE Design/Engineering business category **Systems Simulation**

The following provisions supersede those of the corresponding section of the Offering Specific Terms for 3DEXPERIENCE R2024x Dedicated Cloud Online Services:

For each Systems Simulation Analyst (6NB-SIC-DC) Online Service, Users (and Extended Enterprise Users, as applicable) are granted the right to execute up to five hundred (500) systems simulations, depending on server resources consumption, as defined in the Documentation. A systems simulation has to be understood as a single computation, which is based on the parameters that Users define in the model of the system. The computation involves compilation, simulation execution and simulation results.

The number of systems simulations is specified on a yearly basis. For terms of one (1) year or less, all systems simulations are issued at the beginning of the term and unused systems simulations expire at the end of the term. For terms longer than one (1) year, systems simulations are issued per year and unused systems simulations expire at the end of the given year period; for any incomplete year period, the number of issued systems simulations is pro-rated and unused systems simulations expire at the end of the given incomplete year period.

Moreover, to be able to execute more systems simulations, Customer must order Systems Unit Credit Pack (Small) (6TP-SYU-S-DC) Credit Based Online Services. Consumption rules are specified in the Documentation.

ENOVIA - 3DEXPERIENCE Governance/Lifecycle business category

Business process task credit

The following provisions supersede those of the corresponding section of the Offering Specific Terms for 3DEXPERIENCE R2024x Dedicated Cloud Online Services and additional terms #1:

For each Business Process Player (6NP-BPO-DC) or Business Process Contributor (6NP-BPB-DC) Online Service, Customer is delivered a given number of business process task credits, as defined in the Documentation. Consumption rules of business process task credits are specified in the Documentation.

For one (1) Platform, business process task credits are shared among all the authorized Users (and/or Extended Enterprise Users, as applicable). Such task credits belonging to one (1) Platform cannot be transferred to another Platform.

The number of business process task credits is specified on a yearly basis. For terms of one (1) year or less, all business process task credits are issued at the beginning of the term and unused business process task credits expire at the end of the term. For terms longer than one (1) year, business process task credits are issued per year and unused business process task credits expire at the end of the given year period; for any incomplete year period, the number of issued business process task credits is pro-rated and unused business process task credits expire at the end of the given incomplete year period.
