SIMULIA - 3DEXPERIENCE Simulation business category

The following provisions supplement those of the corresponding section of the Offering Specific Terms for 3DEXPERIENCE R2026x Online Services:

Physics behavior models

Physics behavior models produced by the Physics Behavior Creator (6NP-VTB-OC, 6NP-VTB-GC, 6NP-VTB-OP, 6NP-VTB-GP) Online Services are derivative works of the resources provided by 3DS through such Online Services and therefore include 3DS pre-existing rights (including intellectual property rights). The input used within the process of creating the physics behavior model may be Customer Data, 3DS data or third-party data. The intellectual property rights in and to the input data remain with the original intellectual property holder of such input data. Even if a physics behavior model was trained using Customer Data, the physics behavior model itself cannot be considered as Customer Data (therefore the restrictions set forth in the section "License and Use Rights" of the Agreement fully apply to the physics behavior models and in particular, the physics behavior models cannot be exported, distributed, sublicensed, rented, or leased). 3DS may use these physics behavior models for the sole purpose of providing Online Services to Customer.

Customer is granted a right to use the physics behavior model solely (i) for the use of the Physics Simulation Advisor (6NP-GAI-OC, 6NP-GAI-GC, 6NP-GAI-OP, 6NP-GAI-GP) Online Services, and (ii) on the Platform it has been created for.
