DASSAULT SYSTEMES OFFERING SPECIFIC TERMS (OST) FOR Online Learning Experience ONLINE SERVICES

This OST (Offering Specific Terms) and the terms incorporated herein by reference (including terms referenced on a website) are an integral part of the license and online services agreement between 3DS and Customer ("Agreement"), which refers to this OST. In the event of a discrepancy, inconsistency or contradiction between this OST and the other terms of the Agreement, the provisions of this OST shall prevail, but only with respect to the Online Services to which this OST applies. Customer acknowledges that (i) it has full knowledge of all the terms of this OST and those incorporated herein by reference, and (ii) this OST applies to any Release available from November 13, 2026 onwards.

1 PRICING STRUCTURES

The use of Online Services to which this OST applies is granted according to the pricing structures mentioned in the related Transaction Document. Some of those pricing structures may not be applicable to the 3DS Offerings to which this OST applies.

TSC (Term-based Service Charge) is a one-time and non-refundable fee that provides Customer with an access right to the Licensed Program(s) included in the 3DS Offering for a given period as mentioned in the Product Portfolio and/or in the Transaction Document, subject to the conditions set forth in the Agreement. "TSCx" is a TSC for a period of "x" years. TSC is not automatically renewed. Customer may terminate its online access to a 3DS Offering at any time and, if such option is generally available to the market, opt instead to install on Machines and use the functionally-equivalent Release of the Licensed Program(s) being used upon the termination date of the corresponding ASC, provided that Customer requests such change in writing prior to such termination date and is not in breach of the Agreement. Any such installed use shall be for the remaining duration of the TSC and remains subject to the terms of the Agreement.

ASC (Annual Service Charge) is the yearly fee for using of a 3DS Offering, according to the conditions set forth in the Agreement. For the first year, ASC is due together with the TSC. Provided Customer has paid TSC, payment of the ASC entitles Customer to (i) use of the 3DS Offering, (ii) Support Services for the Licensed Program(s) included in the 3DS Offering, including the licenses of such Licensed Program(s) on the year's new Release(s) in place of prior ones, and (iii) a right to use and Support Services for the non-Licensed-Program elements of the 3DS Offering. Termination of ASC of a 3DS Offering ordered under a TSC/ASC pricing structure automatically terminates TSC. The ASC renewal price shall be calculated by applying the percentage difference between the list price of the renewal period and the list price of the prior period against the price charged to Customer for the prior period.

YSC (Yearly Service Charge) is a one (1) year fee that entitles Customer to (i) a right to access and use the 3DS Offering and (ii) Support Services for such 3DS Offering, subject to the conditions set forth in the Agreement. Customer is deemed to have accepted to renew any 3DS Offering for one (1) year and to pay YSC at the then-applicable price, if Customer continues to use such 3DS Offering(s) after the 3DS Offering anniversary date. The renewal price shall be calculated by applying the percentage difference between the list price of the renewal period and the list price of the prior period against the price charged to Customer for the prior period. Termination of use rights and Support Services is not permitted without terminating the access rights to the Online Services.

QSC (Quarterly Service Charge) is a three (3) month fee that entitles Customer to (i) a right to access and use the 3DS Offering and (ii) Support Services for such 3DS Offering. Customer is deemed to have accepted to renew any 3DS Offering for three (3) months and to pay QSC at the then-applicable price, if Customer continues to use such 3DS Offering(s) after the 3DS Offering anniversary date. The renewal price shall be calculated by applying the percentage difference between the list price of the renewal period and the list price of the prior period against the price charged to Customer for the prior period. Termination of use rights and Support Services is not permitted without terminating the access rights to the Online Services.

Other pricing structures may be made available on a case-by-case basis.

Notwithstanding anything to the contrary in this OST, in case of orders made to Distributors, Distributors are free to set their own Customer price and price increase, as applicable.

2 LICENSING SCHEMES AND USE RIGHTS

2.1 GENERAL PROVISIONS

This OST does not apply to the Online Services listed below in Table 1 that are covered by the latest Release of the OST for **3D**EXPERIENCE Online Services, together with its additional terms.

Table 1

3DS Offering Name	Product Number
SOLIDWORKS Learner	*6NP-LWKLX-OC*
Collaborative Innovation Learner	*6NP-LCILX-OC*
Certification Credit	*6TP-LCRLX-OC*
Design/Engineering Learner	*6NP-LDELX-OC*
Governance/Lifecycle Learner	*6NP-LGVLX-OC*
Manufacturing/Production Learner	*6NP-LMPLX-OC*
Simulation Learner	*6NP-LSMLX-OC*
Virtual Planet Learner	*6NP-LVPLX-OC*

Online Services to which this OST applies may be granted according to one of the licensing schemes below (specifying the authorized use), as mentioned in the Product Portfolio if available, and as determined in the applicable Transaction Document.

2.1.1 LICENSING SCHEMES

Named User Based means the right to use a 3DS Offering by a single Named Users or, when applicable, a single Extended Enterprise Named User. If specified in the Product Portfolio, certain 3DS Offerings used in Named User Based mode can be run on several devices at the same time, within the limit of the consumption capacity of the Token Based licenses. Customer shall not use any automated program or "user agent" program or utilities for multiple Users and/or Extended Enterprise Users, as applicable. Customer may replace Named User(s) or Extended Enterprise Named User(s), as applicable, to reflect permanent personnel change(s), provided that the number of authorized users does not exceed the licensed quantity. Upon 3DS' request, Customer shall provide 3DS with a signed document listing (i) the number of Named Users and Extended Enterprise Named Users, as applicable, (ii) the type of use of the 3DS Offerings, and (iii) the locations and types of the systems on which 3DS Offerings operate or Customer has installed the 3DS Offering(s) as applicable. 3DS may provide Customer with one or more utilities, either included within the 3DS Offering(s) or separately, for the purpose of analyzing access right(s) and utilization, to establish usage by Customer. In such case, Customer shall provide, if applicable, the unedited and unmodified output file(s) and/or report(s) resulting from the operation(s) of such utility(ies), along with a signed declaration that the file(s) is(are) representative of actual 3DS Offering(s) usage. Customer is responsible for implementing all reasonable means to monitor its compliance with the terms of the Agreement.

Credit Based means the right to use a 3DS Offering within the limit of a specified number of credits during the subscription term. Credits are consumable, non-reusable, and non-refundable. The number of credits is determined on a yearly basis and prorated for partial-year terms. Credits are issued at the start of each applicable term or year and expire at the end of that term or year if unused. The number of credits required for each use is defined in the Product Portfolio and/or Documentation and may change if the applicable 3DS Offering is modified. Credits of the same type may be shared simultaneously by authorized Users, Extended Enterprise Users, and/or Machines, as applicable, until all available credits are consumed. Certain 3DS Offerings may require specific types of credits.

2.1.2 USAGE RIGHTS

Online Services are granted for use on Machines by the Users (and Extended Enterprise Users, as applicable) only in the country for which the 3DS Offerings are ordered. However, (i) such Users may use the Online Services in any other country (subject inter alia to the export and re-export laws and regulations provisions of the Agreement) for purposes of a business trip of a maximum of thirty (30) consecutive days and (ii) 3DS may authorize, on a case-by-case basis, the use of certain Online Services by the Users (and Extended Enterprise Users, as applicable) on a Remote Access mode.

All Users (and Extended Enterprise Users, as applicable) must have an account created on **3D**EXPERIENCE Edu Space (https://eduspace.3ds.com/), a platform which enables Customer to train its Users (and Extended Enterprise Users, as applicable) on how to use the 3DS Offerings. Each User (and Extended Enterprise Users, as applicable) can launch all of the courses included in the Online Services as specified in the related Transaction Documents.

Customer, Users and Extended Enterprise Users, as applicable, are not authorized to download the Online Services on their computers or on any hardware device.

Customer will have access to a private space, called the "Customer domain", created on **3D**EXPERIENCE Edu Space and specifying the number of courses included in the Online Services ordered by Customer. Any additional Online Services ordered by Customer will be included within its "Customer domain".

Customer may request to replace Named User(s) or Extended Enterprise Named User(s), as applicable, as necessary to reflect permanent personnel change(s), provided that the number of individuals authorized to use the Online Services does not exceed the maximum number of rights granted to Customer for such Online Services, and reassignments do not exceed ten percent (10%) of the authorized Users, per year.

It is agreed that, notwithstanding anything to the contrary provided in the Documentation, software components packaged and delivered by 3DS as part of a given 3DS Offering shall solely be used:

- together and as part of such 3DS Offering,
- and solely for purposes for which such 3DS Offering has been marketed and granted to Customer.

If a patent invention is implemented in the 3DS Offering for which a right to use or access is granted pursuant to the Agreement, 3DS hereby grants Customer a non-exclusive license on the applicable patent limited to the use of such 3DS Offering.

2.2 SPECIFIC PROVISIONS FOR CERTAIN 3DS OFFERINGS

Users (or Extended Enterprise Users, as applicable) of any 3DS Offering listed below in Table 2, have access on top of the training materials, to complementary online environments where they can practice autonomously in self-paced mode during their training time. Access details are included in the courses. The server access duration and server access period are provided in Table 2 below.

Table 2

3DS Offering Name	Product Number	Server Access Duration (Hour)	Server Access Period (Week)
Learning Experience for DELMIA Manufacturing Execution, Planning & Control	*6NP-DELECLX-OC*	80	12
Learning Experience for DELMIA Apriso Process Builder	*6NP-APBCDA-OC*	40	4
Learning Experience for DELMIA Apriso Foundation	*6NP-AFNDCDA-OC*	20	4
Learning Experience for DELMIA Apriso Complex Assembly Production	*6NP-ACAPCDA-OC*	20	4
Learning Experience for DELMIA Apriso Repetitive Production	*6NP-APOCDA-OC*	30	3
Learning Experience for DELMIA Apriso Warehouse Shipping	*6NP-AWHCDA-OC*	20	2
Learning Experience for DELMIA Apriso Quality	*6NP-AQTYCDA-OC*	30	3
Learning Experience for DELMIA Apriso Issue Management	*6NP-AIMCDA-OC*	6	2
Learning Experience for DELMIA Apriso Dispatching Board	*6NP-ADBCDA-OC*	6	2
Learning Experience for DELMIA Apriso Maintenance	*6NP-AMTCDA-OC*	20	2
Learning Experience for DELMIA Apriso Time & Labor	*6NP-ATLCDA-OC*	20	2

Certification exams

Each certification exam requires a certain number of credits.

The list of certification exams, the number of credits required for each certification exam and the credit consumption rules are defined at https://go.3ds.com/certification.

To be granted such credits Customer must purchase the required number of *Certification Credit (6TP-CRLX-OC)* Online Services.

For some Online Services, Users have access to certification exams during the term of 3DS Offerings. Two (2) consecutive attempts of a given exam are separated by at least fourteen (14) days.

3 SPECIFIC TERMS RELATED TO THE USE OF CERTAIN 3DS OFFERINGS OR SERVICES

3.1 USE FOR CERTAIN SERVICES

Except for Development Tool Kits, Customer is authorized to use the Online Services for added-value engineering or implementation services. Added-value engineering or implementation services are services to deliver to a third-party end user any deliverable generated specifically for said third-party end user from use by Customer of the Online Services. In any event, Customer may not (1) use the Online Services to develop software code for (i) general distribution by any means, and whether alone or bundled or delivered with any product, data, information, software, or other element, or (ii) any services that do not add value attributable to the intervention of specific human skills, such as, without limitation, in a data services operation or as an application service provider, or (2) give any third party the access to the Online Services unless otherwise expressly authorized in the Agreement, or (3) represent or imply to any party that it is an authorized or certified provider of services for 3DS. Customer shall indemnify and defend 3DS against any claim, expense, judgment, damage or loss (including reasonable attorneys' fees) which arises out of or in any way relates to Customer's use of the Online Services with third-party end users.

3.2 SOFTWARE CODE DEVELOPMENT FOR CUSTOMER USE

If explicitly specified in the Documentation, Customer is entitled to use the tools and menu options contained in certain 3DS Offerings to develop software code for Customer use as a standalone item or as embedded in Customer's commercial products. Such software code shall not depend on or make use of the 3DS Offering during the operation of said Customer's products by its end-users, including through Application Programming Interfaces (API).

4 SPECIFIC TERMS FOR THIRD-PARTY COMPONENTS

The specific terms relating to the use of certain third-party components or products not developed by or for a 3DS Group Company and granted to Customer to be used in connection with or within a 3DS Offering are defined hereafter:

NONE

5 DEFINITIONS

The following definitions supplement those of the section DEFINITIONS of the Agreement.

5.1 GENERAL DEFINITIONS

Configuration or **Package** means a standard set of 3DS Offerings which are bundled together. The 3DS Offerings composing such Configuration or Package shall only be operated together.

Development Tool Kit means a 3DS Offering specifically designed for application or content development. A Development Tool Kit is either identified (i) with "CAA" or "ENOVIA Studio" or "Toolkit" or "Development Toolkit" in the 3DS Offering name, or (ii) in the Transaction Document and/or the Product Portfolio.

Extended Enterprise Named User means an Extended Enterprise User identified with a unique confidential and personal username and password to use the 3DS Offering from a single device at any given time.

Extended Enterprise User means an employee of Customer's affiliate(s), supplier(s) and/or customer(s) authorized to use Customer's 3DS Offering for the sole and exclusive purpose of enabling the Extended Enterprise User(s) to conduct business with Customer. The use of the 3DS Offering by any such Extended Enterprise User(s) (1) shall be solely limited to use (a) as configured and deployed by Customer and (b) in connection with the Extended Enterprise User's performance of services for and on behalf of Customer, and (2) shall exclude any use by Extended Enterprise User (a) for its own account or a third party's account, or (b) for the purpose of modifying, otherwise using, maintaining or hosting the 3DS Offering. Extended Enterprise Users are authorized if specified in the Product Portfolio.

Machine means a device on which a 3DS Offering is executed and which is either (1) (i) belonging to Customer or under its sole control or supervision and located on Customer's premises or according to Teleworking conditions, or (ii) authorized by Customer according to its own information technology charter or equivalent whereby third-party devices (e.g. Users own devices) are specifically authorized, or (2) operated by a third-party service provider as specifically authorized in the Agreement solely for and on behalf of Customer.

Named User means a User identified with a unique confidential and personal username and password to use the 3DS Offering from a single device at any given time.

Product Portfolio means a set of information related to the 3DS Offerings available at https://www.3ds.com/terms/product-portfolio/online-services.

Remote Access means, if specified in the Product Portfolio, that Users and/or Extended Enterprise Users may access and use the 3DS Offering remotely via the Internet from any country (subject inter alia to the export and re-export laws and regulations provisions of the Agreement).

Teleworking means any program authorized by Customer to enable its employees to work outside its own premises, using information and communication technology (or equivalent program established by a Customer entitled to Education Use (or former Academic Use) of the 3DS Offerings for its Users).Any use of 3DS Offerings while Teleworking is authorized if at all times: (a) Customer's employees do so on Machine(s) connected to Customer's network (e.g. via Virtual Private Network), (b) Customer is able to provide access to such Machine(s) during a compliance verification according to the Agreement, and (c) Customer's employees use the 3DS Offerings for Customer's exclusive internal needs. The same authorizations apply to Users of Customer entitled to Education Use (or former Academic Use) of the 3DS Offerings.

Token Based means the right to use certain 3DS Offering within the limit of a determined number of tokens. Tokens are reserved for one (1) use at a time and when released, are available for other uses. The quantity of tokens required for a given use of the 3DS Offering is determined in the Product Portfolio and/or in the Documentation, and may be changed in the event of modifications to such 3DS Offering. Pool of tokens of same type can be accessed and used simultaneously by one or several authorized Users and/or Extended Enterprise Users and/or Machines, as applicable within the limit of the number of available tokens.

User means any (a) Customer's employee, or (b) employee of Customer's consultant(s) or subcontractor(s) (i) who accesses a 3DS Offering, (ii) who works for the exclusive internal needs of Customer and (iii) whose usual workplace is located within Customer's premises. Subject to the terms and conditions of the Agreement, including without limitation, export-related obligations, Customer's employee may also work according to Teleworking conditions. For Education Use (or former Academic Use) of 3DS Offering**, User** means (i) any individual who works for Customer and is dedicated either to education or non-profit research or (ii) any individual duly enrolled in Customer's education program.
