

DASSAULT SYSTEMES

THIRD PARTY SOFTWARE TERMS (TPST) FOR DELMIA Ortems Releases 7.4 and earlier LICENSED PROGRAMS

1. OPEN SOURCE SOFTWARE

The Licensed Programs may include third party software components. Whenever notices (such as acknowledgment, copies of licenses or attribution notice) are required by the original licensor, such notices are included in the Documentation of the Licensed Programs.

The following components are not distributed and licensed under the terms of the Agreement but under the terms of their original licenses set forth thereafter and/or in the Documentation and/or notice files in the Licensed Programs themselves. Source code for these components is available upon request.

Under Interbase Public License available at <http://www.firebirdsql.org/en/interbase-public-license/>

Firebird UDF scripts
Firebird

Under Mozilla Public License 1.1 available at <http://directory.fsf.org/wiki/License:MPLv1.1>

SynEdit
Indy.Sockets
JCL - JEDI Code Library

Except for components mentioned in the section "EXCLUSIONS" below, the warranty, indemnification and Support Services provided by DS under the Agreement apply to all such third party software components and shall be provided by DS and not by the original licensor, but only for the use of the Licensed Programs that is in compliance with the terms of the Agreement, and in conjunction with the Licensed Programs. The original licensors of said third party software components provide them on an "as is" basis and without any liability whatsoever to Customer (or Licensee).

2. ADDITIONAL THIRD PARTY SOFTWARE TERMS

The following terms apply in addition to the Agreement:

NONE

3. EXCLUSIONS

The warranty, indemnification and Support Services provided by DS under the Agreement are not applicable to open source software components listed hereunder:

NONE
