1. The Business Objects Software may only be used with the Licensed Programs under the ENOVIA Brand (except for ENOVIA VPLM and ENOVIA SmarTeam products), with data access limited to data created or used by the ENOVIA Licensed Program.
2. "Deployment" means a single installation of one of the following Business Objects Software modules: Repository, Security Domain, Central Management Server ("CMS") or CMS Cluster.

A multi-core chip Processor with N processor cores shall be counted as N Processors.
5. When the Business Objects Software is licensed on a Concurrent Access basis, the aggregate number of Users accessing the Business Objects Software at any one time may not exceed the number of concurrent licenses Licensee has obtained. 8. Licensee shall abide by the terms of the Business Objects end user license which is part of the installation process, including any country unique terms.
