Open Source Software.

The Licensed Programs may include open source software components. Whenever an attribution notice is required by the licensor, such open source software is identified in the Documentation and notices in the Licensed Programs themselves. The warranty and Support Services provided by Dassault Systèmes under the License Agreement apply to all such open source software and are provided by Dassault Systèmes and not by the original licensor. The original licensor of the open source software provides it on an “as is” basis and without any liability whatsoever to Licensee.
