Specific Terms for Third Party Software and Additional Licensed Program Descriptions
For
Reqtify® 2010, ControlBuild® 2010, AUTOSAR Builder® 2010

Open Source Software.

The Licensed Programs may include open source software components. Whenever an attribution notice is required by the licensor, such open source software is identified in the Documentation and notices in the Licensed Programs themselves. Except for the packages identified below, the warranty and Support Services provided by Company under the License Agreement apply to all such open source software and are provided by Company and not by the original licensor. The original licensor of the open source software provides it on an "as is" basis and without any liability whatsoever to Licensee.

Whenever distributed, the following packages are distributed and licensed under the terms of the GNU General Public License (or under the MIT license for some portions of the Cygwin tool) set forth in the documentation of the relevant Geensoft product (ControlBuild and/or AUTOSAR Builder). Source code for these components is available upon request.

Cygwin^{TM} 2.0 beta (Portions, see http://cygwin.com/license.html)
Mingw (Portions, see http://www.mingw.org/license)

Other Third Party Software Terms.

AUTOSAR Builder contains Eclipse components and Artop (AUTOSAR Tool Platform). These packages are licensed by the Company but the contributors of these packages disclaim any and all warranties and may not be held liable for damages arising from the use of such packages. The source code of these packages is available upon request.
