

CHARTER FOR 3DEXPERIENCE EDU CENTERS OF EXCELLENCE

- 1 **3DEXPERIENCE Edu Centers of Excellence** are facilities that provide up-to-date **3DEXPERIENCE expertise and credentials** to learners in academia, individuals and/or to professionals in the economic sectors of manufacturing, infrastructure & cities and life sciences.
- 2 Centers of Excellence work jointly with employers to maintain their continuous awareness about **required skills** and **new industry practices and processes**.
- 3 Dassault Systèmes promotes Centers of Excellence on the basis on their **verified area of competency** and supports their continuous efforts to maintain and enhance their expertise in **3DEXPERIENCE** and related best practices.
- 4 Centers of Excellence provide academic learners with **project opportunities** to contextualize the **3DEXPERIENCE** platform within specific business situations, especially in SMBs.
- 5 Centers of Excellence make appropriate investments to provide learners with knowledge and know-how of **virtual twins** along the **digital thread** from ideation up to virtual experience or to physical product and manufacturing, using established and emerging industry practices and processes.
- 6 Centers of Excellence combine their own knowledge and know-how in various domains with their **3DEXPERIENCE** expertise to develop **innovative practices** and their subsequent **learning experiences**.
- 7 Centers of Excellence actively promote the jobs and innovative methods and approaches of selected economic sectors among school students and the public with the aim of demonstrating the **attractiveness of studies and careers** in those sectors.
- 8 Centers of Excellence maintain their globally competitive awareness, accelerate their educational development and optimize their operational efficiency by actively participating in a **worldwide network of peers** established and coordinated by Dassault Systèmes.
- 9 Centers of Excellence actively display their membership and promote the program to **disseminate its value** to the public, learners, companies, educational institutions and governments.
- 10 Centers of Excellence review their status on a regular basis with Dassault Systèmes to guarantee that the **3DEXPERIENCE** knowledge and know-how they provide is **continuously state-of-the-art**.
