Learning Experience for DELMIAWORKS DWKSLX-OC	1
Accounting Foundation: AP Invoices	2
Accounting Foundation: AR Invoices	3
Accounting Foundation: Cash Analysis	4
Accounting Foundation: Cash Disbursements	5
Accounting Foundation: Cash Receipts	6
Accounting Foundation: Fiscal Year Closing	7
Accounting Foundation: Inventory Activity Cost Journal (IACJ)	8
Accounting Foundation: Month-End Close for Periodic Inventory Method	9
Accounting Foundation: Month-End Close for Perpetual Inventory Method	10
Accounting Foundation: Process Costing	11
Accounting Foundation: Salesperson and Commissions	12
Accounting Foundation: Standard Costing	13
Accounting Foundation: Tax Codes and Terms	14
Accounting Foundation: Vendor 1099	15
DELMIAWorks IMP Foundation: Account Activity and Financial Reports	16
DELMIAWorks IMP Foundation: AR and AP Priors	17
DELMIAWorks IMP Foundation: Basic Flow and Navigation	18
DELMIAWorks IMP Foundation: Bills Of Material	19
DELMIAWorks IMP Foundation:Customer Maintenance	20
DELMIAWorks IMP Foundation:Finite Scheduling	21
DELMIAWorks IMP Foundation: General Journal Entries (Beginning Balances)	22
DELMIAWorks IMP Foundation:GL Account Setup and Maintenance	23
DELMIAWorks IMP Foundation: GL Defaults / Bank Maintenance Setup	24
DELMIAWorks IMP Foundation: Inventory Locations and Transactions	25
DELMIAWorks IMP Foundation: Manufactured Inventory	26
DELMIAWorks IMP Foundation:Packing Slips	27
DELMIAWorks IMP Foundation:Production Reporting	28
DELMIAWorks IMP Foundation: Purchased Inventory	29
DELMIAWorks IMP Foundation:Purchasing	30
DELMIAWorks IMP Foundation:RealTime Production Monitoring	31
DELMIAWorks IMP Foundation:Receiving	32

Learning Experience | Course Catalog

DELMIAWorks IMP Foundation: Sales Orders	33
DELMIAWorks IMP Foundation: Shop Calendar	34
DELMIAWorks IMP Foundation: Vendor Maintenance	35
DELMIAWorks IMP Foundation: Work Centers	36
DELMIAWorks IMP Foundation: Work Order Management	37
DELMIAWorks Implementation Methodology	38
DELMIAWorks MFG Foundation: Alternate Items	40
DELMIAWorks MFG Foundation: Assembly Line Clearance	41
DELMIAWorks MFG Foundation: Assembly Process Maintenance	42
DELMIAWorks MFG Foundation: Assembly Track	43
DELMIAWorks MFG Foundation: ASSY Data	44
DELMIAWorks MFG Foundation: ASSY Dispatch List	45
DELMIAWorks MFG Foundation: Bill of Lading (BOL)	46
DELMIAWorks MFG Foundation: Bills Of Materials (ASSY)	47
DELMIAWorks MFG Foundation: Capable To Promise	48
DELMIAWorks MFG Foundation: Capacity Planning	49
DELMIAWorks MFG Foundation: Dispo Designators	50
DELMIAWorks MFG Foundation: Final Assembly Reporting	51
DELMIAWorks MFG Foundation: Finite Scheduling for ASSY	52
DELMIAWorks MFG Foundation: Inventory Stocking Options	53
DELMIAWorks MFG Foundation: Inventory - Where Used	54
DELMIAWorks MFG Foundation: Material Staging	55
DELMIAWorks MFG Foundation: MFG Types and MFG Cells Comparisons and Use	56
DELMIAWorks MFG Foundation: Physical Inventory	57
DELMIAWorks MFG Foundation: Pick Tickets	58
DELMIAWorks MFG Foundation: PO Approval	59
DELMIAWorks MFG Foundation: Production Reporting Comparisons	60
DELMIAWorks MFG Foundation: Rework Processes in Assembly Track	61
DELMIAWorks MFG Foundation: UOM Conversions	62
DELMIAWorks MFG Foundation: Work Order Hard Allocation	63
DELMIAWorks Supply Chain II: CRM Overview	64
Finance Adv Cert: Account Revaluation	65
Finance Adv Cert: Accrued Freight	66
Finance Adv Cert: Avelera Tax Tool	67
Finance Adv Cert: Cost Source	68
Finance Adv Cert: Currency Translation	69

Learning Experience | Course Catalog

Finance Adv Cert: Eplant Configuration	70
Finance Adv Cert: Fixed Assets	71
Finance Adv Cert: GL Budgets	72
Finance Adv Cert: Import External File Utility Tool	73
Finance Adv Cert: Multi-Currency	74
Finance Adv Cert: Query Designer	75
Finance Adv Cert: Query Designer V21	76
Finance Adv Cert: Spreadsheet Server V14	78
Finance Adv Cert: Spreadsheet Server V21	80
HR Adv Certification: Task Clock Process	82
HR Adv Certification: Time and Attendance Setup	83
HR Adv Certification: Time and Attendance Setup	84
HR Adv Certification: Time and Attendance Task Clock Processing	85
HR Adv Certification: Time and Attendance Time Clock Processing	86
HR Adv Certification: Time and Attendance Violations	87
HR Adv Certification: Workforce	88
IMP Foundation: Material Resource Planning	89
IMP Foundation: System Parameters - Part I	90
IMP Foundation: System Parameters - Part II	91
Learn and Go: BI Dashboards	92
Learn and Go: IQAlerts	93
Learn and Go: Month End and Year End Closing	94
Learn and Go: Negative Inventory	95
Learn and Go: Physical Inventory	96
Learn and Go: Smart Page Accounting	97
Learn and Go: Transitioning from PIT to IACJ	98
Learn and Go: WMS User Profiles and Transactions	99
Learn and Go Workshop: Assy1 vs Generic Manufacturing	100
Learn and Go Workshop: Forecasting	101
Learn and Go Workshop: Introduction to Shopworks	102
Learn and Go Workshop: Labor Capacity	103
Learn and Go Workshop: Mastering Costing Setup	104
Learn and Go Workshop: Project Management	105
Learn and Go Workshop: Smart Page for Month End	106
Learn and Go Workshop: Vendor Evaluations	107
Learn and Go Workshop: Year End MFG Process	108

Learning Experience | Course Catalog

Maintenance, Repair and Overhaul: Equipment Basics	109
Maintenance, Repair and Overhaul: WO Basics	110
Maintenance, Repair and Overhaul: Work Order Processing	111
Maintenance, Repair and Overhaul: Work Order Tasks	112
Maintenance Adv Cert: MRO Equipment Setup	113
Maintenance Adv Cert: MRO Equipment Tasks	114
Maintenance Adv Cert: MRO Work Order Basics	115
Maintenance Adv Cert: MRO Work Order Processing	116
MFG Foundation: Customer RMA	117
MFG Foundation: Outsource Manual Processes	118
MFG Foundation: Shop Data	119
MFG Foundation: Vendor RMA	120

Learning Experience for DELMIAWORKS DWKSLX-OC

Accounting Foundation: AP Invoices	
Course Code	DELW-en-ACF1-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines the features and functions of creating AP Invoices. As part of the Financial suite of modules, AP Invoices are used in order to process payments.
Objectives	This training session outlines the features and functions of creating AP Invoices. As part of the Financial suite of modules, AP Invoices are used in order to process payments.
Prerequisites	
Available Online	Yes

Accounting Foundation: AR Invoices	
Course Code	DELW-en-ACF13-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines the features and functions of creating AR Invoices. As part of the Financial suite of modules, AR Invoices are used in order to process payments received.
Objectives	This training session outlines the features and functions of creating AR Invoices. As part of the Financial suite of modules, AR Invoices are used in order to process payments received.
Prerequisites	
Available Online	Yes

Accounting Foundation: Cash Analysis	
Course Code	DELOW-en-ACF8-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session explains the purpose and functions of the Cash Analysis module. Learn how to generate cash flow projections, the options and ability to chart or export this data for extended financial reporting.
Objectives	This training session explains the purpose and functions of the Cash Analysis module. Learn how to generate cash flow projections, the options and ability to chart or export this data for extended financial reporting.
Prerequisites	
Available Online	Yes

Accounting Foundation: Cash Disbursements	
Course Code	DELW-en-ACF5-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines the features and functions of Cash Disbursements. As part of the Financial suite of modules, Cash Disbursements are used to process payments for AP Invoice activity.
Objectives	This training session outlines the features and functions of Cash Disbursements. As part of the Financial suite of modules, Cash Disbursements are used to process payments for AP Invoice activity.
Prerequisites	
Available Online	Yes

Accounting Foundation: Cash Receipts	
Course Code	DELW-en-ACF4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines the features and functions of Cash Receipts. As part of the Financial suite of modules, Cash Receipts is used to enter payments from AR Invoice activity.
Objectives	This training session outlines the features and functions of Cash Receipts. As part of the Financial suite of modules, Cash Receipts is used to enter payments from AR Invoice activity.
Prerequisites	
Available Online	Yes

Accounting Foundation: Fiscal Year Closing	
Course Code	DELOW-en-ACF10-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session reviews the steps for Fiscal Year End Closing. As part of any financial process, closing year end books is a critical aspect to getting year end reports. This lesson will review those steps as well as those in preparation for future financial periods.
Objectives	This training session reviews the steps for Fiscal Year End Closing. As part of any financial process, closing year end books is a critical aspect to getting year end reports. This lesson will review those steps as well as those in preparation for future financial periods.
Prerequisites	
Available Online	Yes

Accounting Foundation: Inventory Activity Cost Journal (IACJ)

Course Code	DELW-en-ACF6-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session explains the purpose and functions of IACJ or Inventory Activity Cost Journal. Learn the requirements for Recipe Cards, the type of transactions that are supported, and posting those Journal entries.
Objectives	This training session explains the purpose and functions of IACJ or Inventory Activity Cost Journal. Learn the requirements for Recipe Cards, the type of transactions that are supported, and posting those Journal entries.
Prerequisites	
Available Online	Yes

Accounting Foundation: Month-End Close for Periodic Inventory Method	
Course Code	DELW-en-ACF14-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session provides instruction for the end of month closing procedures for the Periodic Inventory method including setting the GL Status for the current period, what reports to run to help determine account balances, end of month Financial Statements, closing the GL Status for the current period, in addition to opening the next period's GL Status. Also included is the Year End Closing Procedure.
Objectives	This training session provides instruction for the end of month closing procedures for the Periodic Inventory method including setting the GL Status for the current period, what reports to run to help determine account balances, end of month Financial Statements, closing the GL Status for the current period, in addition to opening the next period's GL Status. Also included is the Year End Closing Procedure.
Prerequisites	
Available Online	Yes

Accounting Foundation: Month-End Close for Perpetual Inventory Method	
Course Code	DELW-en-ACF15-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session provides instruction for the end of month closing procedures for the Perpetual Inventory at Standard Costing method including setting the GL Status for the current period, what reports to run to help determine account balances, posting the inventory transactions, end of month Financial Statements, closing the GL Status for the current period, in addition to opening the next period's GL Status. Also included is the Year End Closing Procedure.
Objectives	This training session provides instruction for the end of month closing procedures for the Perpetual Inventory at Standard Costing method including setting the GL Status for the current period, what reports to run to help determine account balances, posting the inventory transactions, end of month Financial Statements, closing the GL Status for the current period, in addition to opening the next period's GL Status. Also included is the Year End Closing Procedure.
Prerequisites	
Available Online	Yes

Accounting Foundation: Process Costing	
Course Code	DELW-en-ACF9-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session introduces the Process Costing module as part of the Financial suite of Costing methodologies. Process Costing provides a quick view of those cost contributions being introduced by cost elements and transactions.
Objectives	This training session introduces the Process Costing module as part of the Financial suite of Costing methodologies. Process Costing provides a quick view of those cost contributions being introduced by cost elements and transactions.
Prerequisites	
Available Online	Yes

Accounting Foundation: Salesperson and Commissions	
Course Code	DELW-en-ACF7-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session explains the setup and processing of Salespersons, Groups, and the Commissions earned. Learn how the Commission Hierarchy is setup, and follow the Commission History.
Objectives	This training session explains the setup and processing of Salespersons, Groups, and the Commissions earned. Learn how the Commission Hierarchy is setup, and follow the Commission History.
Prerequisites	
Available Online	Yes

Accounting Foundation: Standard Costing	
Course Code	DELW-en-ACF16-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session reviews the steps for setup and use of the Standard Costing functionality in the DELMIAWorks system. In order to better understand how manufacturing impacts the costs to produce parts, this lesson will show us how to create Cost Elements, assign correct GL Accounts, assign to Inventory items, and evaluate the Recipe Card.
Objectives	This training session reviews the steps for setup and use of the Standard Costing functionality in the DELMIAWorks system. In order to better understand how manufacturing impacts the costs to produce parts, this lesson will show us how to create Cost Elements, assign correct GL Accounts, assign to Inventory items, and evaluate the Recipe Card.
Prerequisites	
Available Online	Yes

Accounting Foundation: Tax Codes and Terms	
Course Code	DELW-en-ACF3-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session reviews the areas of setup for Tax Codes, Tax Elements and how they are linked. In addition, the Terms tables is explored and how to create unique Terms.
Objectives	This training session reviews the areas of setup for Tax Codes, Tax Elements and how they are linked. In addition, the Terms tables is explored and how to create unique Terms.
Prerequisites	
Available Online	Yes

Accounting Foundation: Vendor 1099	
Course Code	DELW-en-ACF2-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session explains the purpose and functions of the Vendor 1099 Form. Learn how to setup appropriate Vendors to enable tracking and generating forms.
Objectives	This training session explains the purpose and functions of the Vendor 1099 Form. Learn how to setup appropriate Vendors to enable tracking and generating forms.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Account Activity and Financial Reports

Course Code	DELW-en-IMP24-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview of Account Activity and Financial Reports within DELMIAWorks, which includes reviewing the account activity screen and drill-down options within the module, trial balance reports and Financial Reporting for income statements and balance sheets.
Objectives	The following session provides a foundational overview of Account Activity and Financial Reports within DELMIAWorks, which includes reviewing the account activity screen and drill-down options within the module, trial balance reports and Financial Reporting for income statements and balance sheets.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: AR and AP Priors	
Course Code	DELW-en-IMP25-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following implementation video provides training regarding Accounts Receivable and Accounts Payable Prior Invoices including how to enter, post and void AR/ AP Prior Invoices within DELMIAWorks.
Objectives	The following implementation video provides training regarding Accounts Receivable and Accounts Payable Prior Invoices including how to enter, post and void AR/ AP Prior Invoices within DELMIAWorks.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Basic Flow and Navigation	
Course Code	DELW-en-IMP1-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following video provides training for Basic Flow and Navigation of the DELMIAWorks system including launcher bar functionality, options & basic system navigation including module navigation & access, utilizing right-click menu options and how to configure user defined forms & user fields throughout the system.
Objectives	The following video provides training for Basic Flow and Navigation of the DELMIAWorks system including launcher bar functionality, options & basic system navigation including module navigation & access, utilizing right-click menu options and how to configure user defined forms & user fields throughout the system.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Bills Of Material	
Course Code	DELW-en-IMP9-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following fundamental session provides training for Bill of Material functionality and covers the different manufacturing types available for BOM configuration, required fields, how BOM structure affects department tasks and linking inventory, component or packaging items to the BOM.
Objectives	The following fundamental session provides training for Bill of Material functionality and covers the different manufacturing types available for BOM configuration, required fields, how BOM structure affects department tasks and linking inventory, component or packaging items to the BOM.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:Customer Maintenance	
Course Code	DELW-en-IMP19-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview of Receiving within DELMIAWorks including the difference between creating and posting receipts, how to review posting functions available, available options & parameters, how to void or reject receipts and viewing receiving tickets and labels.
Objectives	The following session provides a foundational overview of Receiving within DELMIAWorks including the difference between creating and posting receipts, how to review posting functions available, available options & parameters, how to void or reject receipts and viewing receiving tickets and labels.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:Finite Scheduling	
Course Code	DELW-en-IMP12-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session is the foundational overview of Finite Scheduling which includes understanding the data presented in this module, how to add and move Work Orders, and learn how System Parameters affect scheduling. In addition, learn about other modules that influence the schedule and other handy features.
Objectives	The following session is the foundational overview of Finite Scheduling which includes understanding the data presented in this module, how to add and move Work Orders, and learn how System Parameters affect scheduling. In addition, learn about other modules that influence the schedule and other handy features.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: General Journal Entries (Beginning Balances)

Course Code	DELW-en-IMP23-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following session provides foundational training for General Journal Entry processes including how to set up beginning balances, the difference between group vs. batch entries, the various Journal Entry Types and how to utilize templates.
Objectives	The following session provides foundational training for General Journal Entry processes including how to set up beginning balances, the difference between group vs. batch entries, the various Journal Entry Types and how to utilize templates.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:GL Account Setup and Maintenance	
Course Code	DELW-en-IMP21-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview of GL Account configuration and maintenance for account structure, account types, general accounts, reference codes, GL Years and Periods within DELMIAWorks.
Objectives	The following session provides a foundational overview of GL Account configuration and maintenance for account structure, account types, general accounts, reference codes, GL Years and Periods within DELMIAWorks.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: GL Defaults / Bank Maintenance Setup	
Course Code	DELW-en-IMP22-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview for GL Default accounts & the Bank Manager module within DELMIAWorks including how to configure GL Default accounts, their interaction with specific System Parameter options, how to access the Bank Manager and required maintenance tasks including reconciliation of bank accounts.
Objectives	The following session provides a foundational overview for GL Default accounts & the Bank Manager module within DELMIAWorks including how to configure GL Default accounts, their interaction with specific System Parameter options, how to access the Bank Manager and required maintenance tasks including reconciliation of bank accounts.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Inventory Locations and Transactions

Course Code	DELW-en-IMP8-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview for the Inventory Locations & Transactions module. Users will be introduced to module access & navigation basics, available location types and status flags, how disposition designators are configured and assigned throughout the system, when to use Lot#'s and how to read the Transaction Log.
Objectives	The following session provides a foundational overview for the Inventory Locations & Transactions module. Users will be introduced to module access & navigation basics, available location types and status flags, how disposition designators are configured and assigned throughout the system, when to use Lot#'s and how to read the Transaction Log.
Prerequisites	
Available Online	Yes

<h2 style="text-align: center;">DELMIAWorks IMP Foundation: Manufactured Inventory</h2>	
Course Code	DELW-en-IMP6-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following lesson provides an overview of Manufactured Inventory basics for users and covers how to locate manufactured inventory, reviewing MFG Inventory data, how to configure and assign UOM conversions to MFG items, reviewing information within the Inventory module and utilize Inventory Groups.
Objectives	The following lesson provides an overview of Manufactured Inventory basics for users and covers how to locate manufactured inventory, reviewing MFG Inventory data, how to configure and assign UOM conversions to MFG items, reviewing information within the Inventory module and utilize Inventory Groups.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:Packing Slips	
Course Code	DELW-en-IMP16-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following foundational session provides users with an overview of Packing Slips (Sales Order) within DELMIAWorks and covers how to create packing slip records, important options & parameters and their use, how to create a shipment, how Pick Tickets and Custom Data are utilized and how shipments influence inventory levels and sales aspects within the system.
Objectives	The following foundational session provides users with an overview of Packing Slips (Sales Order) within DELMIAWorks and covers how to create packing slip records, important options & parameters and their use, how to create a shipment, how Pick Tickets and Custom Data are utilized and how shipments influence inventory levels and sales aspects within the system.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:Production Reporting	
Course Code	DELW-en-IMP15-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview for Production Reporting by Shift including understanding how PRS picks up data from RealTime and the purpose of features found in the PRS screen. Users will also learn about manual and auto-disposition settings and functionality and the impact production reporting has within the system.
Objectives	The following session provides a foundational overview for Production Reporting by Shift including understanding how PRS picks up data from RealTime and the purpose of features found in the PRS screen. Users will also learn about manual and auto-disposition settings and functionality and the impact production reporting has within the system.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Purchased Inventory	
Course Code	DELW-en-IMP7-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This foundational overview lesson covers Purchased Inventory functionality within DELMIAWorks including how to define the on-hand amount which influence inventory availability, configuration for purchasing requirements, how to associate pricing via Buy/Sell Pricing and how to utilize the AKA Buying tab to associate vendors with specific price breaks.
Objectives	This foundational overview lesson covers Purchased Inventory functionality within DELMIAWorks including how to define the on-hand amount which influence inventory availability, configuration for purchasing requirements, how to associate pricing via Buy/Sell Pricing and how to utilize the AKA Buying tab to associate vendors with specific price breaks.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:Purchasing	
Course Code	DELW-en-IMP17-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides new users with an overview of Purchase Order functionality including module access, creating new Purchase Orders, how to add items to a Purchase Order (3 methods), how to generate releases with Must Arrive By dates and modular relationships throughout DELMIAWorks.
Objectives	The following session provides new users with an overview of Purchase Order functionality including module access, creating new Purchase Orders, how to add items to a Purchase Order (3 methods), how to generate releases with Must Arrive By dates and modular relationships throughout DELMIAWorks.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:RealTime Production Monitoring	
Course Code	DELW-en-IMP14-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following Session provides a foundational overview for Real Time Production Reporting and Monitoring including understanding the interface between Shop Calendar & Production Reporting, a demonstration of "custom views" for each user in RealTime and learning about key functions on the Individual Center View. In addition, learn about menu items, speed buttons & right clicks and learn how other modules are affected by RealTime.
Objectives	The following Session provides a foundational overview for Real Time Production Reporting and Monitoring including understanding the interface between Shop Calendar & Production Reporting, a demonstration of "custom views" for each user in RealTime and learning about key functions on the Individual Center View. In addition, learn about menu items, speed buttons & right clicks and learn how other modules are affected by RealTime.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:Receiving	
Course Code	DELW-en-IMP18-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview of Receiving within DELMIAWorks including the difference between creating and posting receipts, how to review posting functions available, available options & parameters, how to void or reject receipts and viewing receiving tickets and labels.
Objectives	The following session provides a foundational overview of Receiving within DELMIAWorks including the difference between creating and posting receipts, how to review posting functions available, available options & parameters, how to void or reject receipts and viewing receiving tickets and labels.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Sales Orders	
Course Code	DELW-en-IMP10-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview for the Sales Order module including module basics, adding items to sales orders, pricing hierarchy in relation to inventory items, how to generate releases with accurate Must Start Dates and the Quick Entry option.
Objectives	The following session provides a foundational overview for the Sales Order module including module basics, adding items to sales orders, pricing hierarchy in relation to inventory items, how to generate releases with accurate Must Start Dates and the Quick Entry option.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Shop Calendar	
Course Code	DELW-en-IMP5-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following fundamental session provides an overview of the Shop Calendar module. Users will learn how to perform Shop Calendar configuration including creating Holidays, how Manufacturing Cells and Work Center options impact the schedule and how to determine the Standard Labor Capacity available for production.
Objectives	The following fundamental session provides an overview of the Shop Calendar module. Users will learn how to perform Shop Calendar configuration including creating Holidays, how Manufacturing Cells and Work Center options impact the schedule and how to determine the Standard Labor Capacity available for production.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation:Vendor Maintenance	
Course Code	DELW-en-IMP20-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview for setting up and maintaining Vendor Maintenance, including setting up Vendor information, the subtabs available, remittance and vendor contacts. In addition, learn about the many menu options available within this module.
Objectives	The following session provides a foundational overview for setting up and maintaining Vendor Maintenance, including setting up Vendor information, the subtabs available, remittance and vendor contacts. In addition, learn about the many menu options available within this module.
Prerequisites	
Available Online	Yes

DELMIAWorks IMP Foundation: Work Centers	
Course Code	DELW-en-IMP4-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview of Work Centers within DELMIAWorks. Users will learn the difference between center types, how to configure a Center Cost, how to assign a RealTime address for production, how to configure MRO work center settings and how Capacity Planning and the Shop Calendar affect work center functionality.
Objectives	The following session provides a foundational overview of Work Centers within DELMIAWorks. Users will learn the difference between center types, how to configure a Center Cost, how to assign a RealTime address for production, how to configure MRO work center settings and how Capacity Planning and the Shop Calendar affect work center functionality.

Available Online	Yes

DELMIAWorks MFG Foundation: Assembly Track	
Course Code	DELW-en-MFG14-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This training lesson provides a fundamental overview for Assembly Track, including configuration & maintenance tasks. Topics include how to identify Assembly and Generic manufacturing, ASSY work order functionality, reviewing the Processes Section and an overview of right-click options available.
Objectives	This training lesson provides a fundamental overview for Assembly Track, including configuration & maintenance tasks. Topics include how to identify Assembly and Generic manufacturing, ASSY work order functionality, reviewing the Processes Section and an overview of right-click options available.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: ASSY Data	
Course Code	DELW-en-MFG20-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This foundational training session outlines the ASSY (Assembly) Data executable used for assembly manufacturing within DELMIAWorks. Users will learn how AssemblyData works with Assembly Track to provide information regarding scheduling & production, how the task clock and time clock interact with one another, how employees clock in and out while reporting production and rejected parts and other key ASSY Data functionality.
Objectives	This foundational training session outlines the ASSY (Assembly) Data executable used for assembly manufacturing within DELMIAWorks. Users will learn how AssemblyData works with Assembly Track to provide information regarding scheduling & production, how the task clock and time clock interact with one another, how employees clock in and out while reporting production and rejected parts and other key ASSY Data functionality.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: ASSY Dispatch List	
Course Code	DELW-en-MFG15-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This training lesson provides training regarding the Assembly Dispatch List in DELMIAWorks. Users will be shown an overview of the Dispatch List and its functionality and how to add, update or delete assembly processes, how the Dispatch List and ASSYDATA (Assembly Data) modules work together, the steps to run update schedule and update processes and how to use Auto Load for scheduling.
Objectives	This training lesson provides training regarding the Assembly Dispatch List in DELMIAWorks. Users will be shown an overview of the Dispatch List and its functionality and how to add, update or delete assembly processes, how the Dispatch List and ASSYDATA (Assembly Data) modules work together, the steps to run update schedule and update processes and how to use Auto Load for scheduling.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Bill of Lading (BOL)	
Course Code	DELW-en-MFG24-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following training session provides an overview for Bill of Lading (BOL) functionality within DELMIAWorks. Users will learn how to configure master data required, gain an understanding of the various methods to generate BOL data, learn how packing slips display BOL data and how to associate multiple packing slips with a BOL record.
Objectives	The following training session provides an overview for Bill of Lading (BOL) functionality within DELMIAWorks. Users will learn how to configure master data required, gain an understanding of the various methods to generate BOL data, learn how packing slips display BOL data and how to associate multiple packing slips with a BOL record.
Prerequisites	
Available Online	Yes

<h2 style="text-align: center;">DELMIAWorks MFG Foundation: Bills Of Materials (ASSY)</h2>	
Course Code	DELW-en-MFG9-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides users with an overview regarding Assembly BOMs (ASSY) and covers the difference between ASSY & Generic BOMs, how the item details tab is structured, the importance establishing processes and how changes in the throughput time can affect aspects on the BOM.
Objectives	The following session provides users with an overview regarding Assembly BOMs (ASSY) and covers the difference between ASSY & Generic BOMs, how the item details tab is structured, the importance establishing processes and how changes in the throughput time can affect aspects on the BOM.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Capable To Promise

Course Code	DELW-en-MFG11-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following lesson provides a manufacturing overview of the Capable to Promise & Available to Promise features within DELMIAWorks. Users will gain an understanding of the difference between CTP and ATP, learn what factors affect ATP and CTP and how to interpret CTP dates.
Objectives	The following lesson provides a manufacturing overview of the Capable to Promise & Available to Promise features within DELMIAWorks. Users will gain an understanding of the difference between CTP and ATP, learn what factors affect ATP and CTP and how to interpret CTP dates.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Capacity Planning	
Course Code	DELW-en-MFG17-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following training session provides a manufacturing foundational overview of Machine and Labor Capacity Planning. Users will gain an understanding of the overlap in functionality with Shop Calendars, BOMs, and Work Orders, learn how to set up available hours for Labor Capacity and the importance of changing start dates & time periods in the Machine and Labor Capacity Planning modules.
Objectives	The following training session provides a manufacturing foundational overview of Machine and Labor Capacity Planning. Users will gain an understanding of the overlap in functionality with Shop Calendars, BOMs, and Work Orders, learn how to set up available hours for Labor Capacity and the importance of changing start dates & time periods in the Machine and Labor Capacity Planning modules.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Dispo Designators	
Course Code	DELW-en-MFG6-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following lesson provides a manufacturing foundational overview of Disposition Designators for production in DELMIAWorks. Topics include how to view the disposition hierarchy, learn how to configure shipping and receiving disposition designators, gain a general understanding of how the MFG# and ITEM# default disposition designators different, how Hard Allocations are marked in the system and viewing Disposition Designators information in the Transaction Log.
Objectives	The following lesson provides a manufacturing foundational overview of Disposition Designators for production in DELMIAWorks. Topics include how to view the disposition hierarchy, learn how to configure shipping and receiving disposition designators, gain a general understanding of how the MFG# and ITEM# default disposition designators different, how Hard Allocations are marked in the system and viewing Disposition Designators information in the Transaction Log.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Final Assembly Reporting	
Course Code	DELW-en-MFG22-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This training lesson outlines Final Assembly Reporting for Assembly Manufacturing within DELMIAWorks. Users will learn how Final Assembly interacts with Assembly Track to provide production & reject information, be shown the differences between reporting in Final Assembly and process level reporting, how work orders & processes get updated after reporting and how Final Assembly functions affect on-hand inventory values.
Objectives	This training lesson outlines Final Assembly Reporting for Assembly Manufacturing within DELMIAWorks. Users will learn how Final Assembly interacts with Assembly Track to provide production & reject information, be shown the differences between reporting in Final Assembly and process level reporting, how work orders & processes get updated after reporting and how Final Assembly functions affect on-hand inventory values.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Finite Scheduling for ASSY	
Course Code	DELW-en-MFG13-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	<p>The following session provides a foundational outline for the Finite Schedule with Assembly Processes. Topics include understanding the relationship between processes and BOM's on qualified work centers, understanding how Finite Schedule and Assembly Track interact, understanding how assembly processes can be added to the schedule and how Autoload can help schedule processes.</p>
Objectives	<p>The following session provides a foundational outline for the Finite Schedule with Assembly Processes. Topics include understanding the relationship between processes and BOM's on qualified work centers, understanding how Finite Schedule and Assembly Track interact, understanding how assembly processes can be added to the schedule and how Autoload can help schedule processes.</p>
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Inventory Stocking Options	
Course Code	DELW-en-MFG2-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This training sessions provides users with a foundational overview regarding Inventory Stocking Options available within DELMIAWorks and includes a review of Reorder Point and Safety Stock options for purchased parts, replenishment features for manufactured items and how the Forecast module interacts with these options to provide valuable inventory stock information.
Objectives	This training sessions provides users with a foundational overview regarding Inventory Stocking Options available within DELMIAWorks and includes a review of Reorder Point and Safety Stock options for purchased parts, replenishment features for manufactured items and how the Forecast module interacts with these options to provide valuable inventory stock information.
Prerequisites	
Available Online	Yes

<h2 style="text-align: center;">DELMIAWorks MFG Foundation: Inventory - Where Used</h2>	
Course Code	DELW-en-MFG3-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	<p>The following session provides a foundational overview of the "Where Used" option for Inventory items. Users will learn how to access this feature, review the relationship between parent and child item numbers, how to view examples item traceability within the system, view an example of Sequential View functionality and view a demonstration of replace and append features.</p>
Objectives	<p>The following session provides a foundational overview of the "Where Used" option for Inventory items. Users will learn how to access this feature, review the relationship between parent and child item numbers, how to view examples item traceability within the system, view an example of Sequential View functionality and view a demonstration of replace and append features.</p>

DELMIAWorks MFG Foundation: Material Staging	
Course Code	DELW-en-MFG18-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides a foundational overview for Material Staging for manufacturing processes in DELMIAWorks including how to access staging functionality, understanding the difference between each view, understanding speed button functionality for date range & update schedule and how to execute reports to gain more insight into material requirements.
Objectives	The following session provides a foundational overview for Material Staging for manufacturing processes in DELMIAWorks including how to access staging functionality, understanding the difference between each view, understanding speed button functionality for date range & update schedule and how to execute reports to gain more insight into material requirements.
Prerequisites	
Available Online	Yes

<h2 style="text-align: center;">DELMIAWorks MFG Foundation: MFG Types and MFG Cells Comparisons and Use</h2>	
Course Code	DELW-en-MFG1-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following provides a foundational outline about Manufacturing Types and Manufacturing Cells within DELMIAWorks including configuration & maintenance tasks for MFG Types & MFG Cells, available MFG Types & how their Parameters affect production within the system, how to create a custom Manufacturing type and how to utilize the BOM comparison field option.
Objectives	The following provides a foundational outline about Manufacturing Types and Manufacturing Cells within DELMIAWorks including configuration & maintenance tasks for MFG Types & MFG Cells, available MFG Types & how their Parameters affect production within the system, how to create a custom Manufacturing type and how to utilize the BOM comparison field option.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Physical Inventory	
Course Code	DELW-en-MFG5-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following video provides a foundational overview for performing a Physical Inventory in DELMIAWorks. Users will learn about the two methods available including option & configuration differences, how to execute a Physical Inventory, review how the Physical Inventory affects the transaction log and how to identify different entry methods for inventory counts.
Objectives	The following video provides a foundational overview for performing a Physical Inventory in DELMIAWorks. Users will learn about the two methods available including option & configuration differences, how to execute a Physical Inventory, review how the Physical Inventory affects the transaction log and how to identify different entry methods for inventory counts.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: Pick Tickets	
Course Code	DELW-en-MFG23-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.67 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This foundational training sessions provides an overview for Pick Tickets in DELMIAWorks. Users will be shown how to access Pick Ticket records, how to create a Pick Ticket with items and locations to ship from, learn the difference between Sales Order & Inventory Availability modes, important options and converting Pick Tickets to a Packing Slip.
Objectives	This foundational training sessions provides an overview for Pick Tickets in DELMIAWorks. Users will be shown how to access Pick Ticket records, how to create a Pick Ticket with items and locations to ship from, learn the difference between Sales Order & Inventory Availability modes, important options and converting Pick Tickets to a Packing Slip.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: PO Approval	
Course Code	DELW-en-MFG26-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following lesson provides foundational training about Purchase Order Approvals within DELMIAWorks. Topics covered include system configuration for PO approval processes, overview of the available approval methods, how the PO hierarchy affects workflow and provide a demonstration of Purchase Order Approval execution with workflow.
Objectives	The following lesson provides foundational training about Purchase Order Approvals within DELMIAWorks. Topics covered include system configuration for PO approval processes, overview of the available approval methods, how the PO hierarchy affects workflow and provide a demonstration of Purchase Order Approval execution with workflow.
Prerequisites	
Available Online	Yes

<h2 style="text-align: center; margin: 0;">DELMIAWorks MFG Foundation: Production Reporting Comparisons</h2>	
Course Code	DELW-en-MFG21-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	<p>The following training sessions provides a foundational outline covering Production Reporting Options within DELMIAWorks. Users will learn the different options for reporting production against work orders & the modules tied to each, gain understanding of differences between each option, view a demonstration of commonly used production reporting options and review production reporting items within the Transaction Log.</p>
Objectives	<p>The following training sessions provides a foundational outline covering Production Reporting Options within DELMIAWorks. Users will learn the different options for reporting production against work orders & the modules tied to each, gain understanding of differences between each option, view a demonstration of commonly used production reporting options and review production reporting items within the Transaction Log.</p>

DELMIWorks MFG Foundation: Rework Processes in Assembly Track	
Course Code	DELW-en-MFG28-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This training session outlines Rework Processes for Assembly Track functionality in DELMIWorks and covers basic module functionality, reviews how other rework processes & sequential processing can interact, how to utilize Rework Processing with the ASSY Data utility and how to report against Rework Processes.
Objectives	This training session outlines Rework Processes for Assembly Track functionality in DELMIWorks and covers basic module functionality, reviews how other rework processes & sequential processing can interact, how to utilize Rework Processing with the ASSY Data utility and how to report against Rework Processes.
Prerequisites	
Available Online	Yes

DELMIAWorks MFG Foundation: UOM Conversions	
Course Code	DELW-en-MFG7-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following lesson provides a foundational outline regarding Unit of Measure (UOM) Conversion within DELMIAWorks for Inventory. Users will learn about configuration & maintenance tasks including how to convert an item's native UOM, how to access required documents to be updated after a UOM conversion is performed, how UOM affect purchase orders & sales orders, understand the risks associated with UOM conversions and recognize how UOM changes affect other areas of the system.
Objectives	The following lesson provides a foundational outline regarding Unit of Measure (UOM) Conversion within DELMIAWorks for Inventory. DELMIAWorks MFG Foundation: Work Order Hard Allocation	
Course Code	DELW-en-MFG12-F-DELMIAWORKSR3
Available Release	DELMIAWORKS 2020
Duration	0.58 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	This training lesson outlines the process of Hard Allocating Material to a Work Order within DELMIAWorks and covers the purpose of hard allocating materials, various fields utilized with this process, how to execute hard allocation of materials to a work order and how to remove hard allocated components from a work order.
Objectives	This training lesson outlines the process of Hard Allocating Material to a Work Order within DELMIAWorks and covers the purpose of hard allocating materials, various fields utilized with this process, how to execute hard allocation of materials to a work order and how to remove hard allocated components from a work order.
Prerequisites	
Available Online	Yes

DELMIAWorks Supply Chain II: CRM Overview	
Course Code	DELW-en-CRT15-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.58 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following video provides an overview of CRM, our Customer Relationship Management module. DELMIAWorks CRM enables multiple teams and departments to centralize meetings, tasks, calls, and a company calendar. Topics covered in this session include basic navigation, filters, setting up Users, lists, and custom views. All these features while providing immediate access to Customers, Vendors, Prospects, Partners, and Employees.
Objectives	The following video provides an overview of CRM, our Customer Relationship Management module. Available Online	Yes

Finance Adv Cert: Account Revaluation	
Course Code	DELW-en-FAC4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session introduces the concepts of Account Revaluation. The purpose of Account Revaluation provides the ability to update Balance Sheet accounts held in non-native currencies in order to show changes in exchange rates between native and foreign currencies.
Objectives	This training session introduces the concepts of Account Revaluation. The purpose of Account Revaluation provides the ability to update Balance Sheet accounts held in non-native currencies in order to show changes in exchange rates between native and foreign currencies.
Prerequisites	
Available Online	Yes

Finance Adv Cert: Accrued Freight	
Course Code	DELW-en-FAC11-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	If tracking Freight Costs are an important financial component, then this course will guide you through that process. This session will cover the GL account setup, accrued freight records, posting to the GL, and preparing the financial invoice.
Objectives	If tracking Freight Costs are an important financial component, then this course will guide you through that process. This session will cover the GL account setup, accrued freight records, posting to the GL, and preparing the financial invoice.
Prerequisites	
Available Online	Yes

Finance Adv Cert: Avelera Tax Tool	
Course Code	DELOW-en-FAC12-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	Explore the setup areas that are required as part of using the Avalara Tax Web Service. This session includes Customer usage, requirements for setting up inventory tax class codes, and where in the system tax calculations occur.
Objectives	Explore the setup areas that are required as part of using the Avalara Tax Web Service. This session includes Customer usage, requirements for setting up inventory tax class codes, and where in the system tax calculations occur.
Prerequisites	
Available Online	Yes

Finance Adv Cert: Cost Source	
Course Code	DELW-en-FAC10-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.33 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines the purpose of Using Cost Source within DELMIAWorks. This tool allows the user to link various activities or cost sources found in modules like Project Manager, JobShop, and Quotes to the Financial activities that provide a value-add to these areas of the system.

Finance Adv Cert: Query Designer V21	
Available Release	DELMIAWORKS 2024
Duration	0.58 hours
Course Material	English
Level	Advanced
Audience	
Description	<p>This presentation takes a detailed look at the Query Designer tool and its integration with the DELMIAWorks software. Query Designer allows users to design, maintain, and run queries within Excel to seamlessly retrieve critical business data for use within a spreadsheet. This presentation will cover general use of Query Designer Version 21.4.2 which is available for EnterpriseIQ versions 2022x and above. For users on EnterpriseIQ versions 2022 and below, Query Designer version 14.7.3 has been validated for use with those versions. Please look for this additional presentation in our Video Library. In order to use Query Designer, a Designer License must be purchased and applied during installation. This presentation assumes that the installation and configuration of Spreadsheet Server has already been completed and the Designer License has been applied. It is recommended that Query Designer users have general knowledge of the Data Dictionary Table structure within EnterpriseIQ in order to build queries.</p>
Objectives	<ul style="list-style-type: none"> • Launching Query Designer from the Spreadsheet Server Tab within Excel - • General Navigation and Review of the Query Designer Ribbon - • How to build a new query including identifying tables, creating relationships between tables, saving and running the query - • How to use the expression builder to establish criteria for filtering and created calculated fields.

Finance Adv Cert: Query Designer V21

- • How to use the Detail Query and Summary Query within a spreadsheet and apply Excel functions.

Maintenance, Repair and Overhaul: Equipment Basics	
Course Code	DELW-en-MROEB-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	1.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an overview of the basics for Work Orders in the Maintenance, Repair and Overhaul module: including how task & MRO work orders are related, the features of the MRO Work Order, what menu options & speed buttons are available, and how to access several important MRO reports.
Objectives	<p>Learn how task & MRO work orders are related.</p> <ul style="list-style-type: none"> - Discover the features of the MRO Work Order - Learn about what menu options & speed buttons are available - Utilize several important MRO reports
Prerequisites	
Available Online	Yes

Maintenance, Repair and Overhaul: WO Basics	
Course Code	DELW-en-MROWOB-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.33 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an overview of the basics for Work Orders in the Maintenance, Repair and Overhaul module: including how task & MRO work orders are related, the features of the MRO Work Order, what menu options & speed buttons are available, and how to access several important MRO reports.

Available Online	Yes

Maintenance, Repair and Overhaul: Work Order Processing

Course Code	DELW-en-MROWOP-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	1.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an overview of processing Work Orders for Maintenance, Repair and Overhaul module: including how to create work orders based on total units, options for creating work orders, how to utilize the work order planner, and how to close tasks and archive work orders
Objectives	<p>Create work orders based on total units.</p> <ul style="list-style-type: none"> - Utilize options for creating work orders - Utilize the work order planner. - Learn how to close tasks and archive work orders
Prerequisites	
Available Online	Yes

Maintenance, Repair and Overhaul: Work Order Tasks	
Course Code	DELW-en-MROWOT-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	1.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an overview of the Work Order Tasks for Maintenance, Repair and Overhaul module: including how task & equipment are related, what task features there are , how task templates are used, How total units effect tasks & equipment status, and what task fields affect MRO Work Orders.
Objectives	<p>Learn how task & equipment are related.</p> <ul style="list-style-type: none"> - Discover what task features there are. - Learn how task templates are used. - Discover how total units effect tasks & equipment status. - Learn what task fields affect MRO Work Orders.
Prerequisites	
Available Online	Yes

Maintenance Adv Cert: MRO Equipment Setup	
Course Code	DELW-en-MAC2-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session covers how to configure equipment to be tracked and utilized in the MRO module and provides a demonstration of equipment setup within DELMIAWorks including all required steps.
Objectives	This training session covers how to configure equipment to be tracked and utilized in the MRO module and provides a demonstration of equipment setup within DELMIAWorks including all required steps.
Prerequisites	
Available Online	Yes

Maintenance Adv Cert: MRO Equipment Tasks	
Course Code	DELW-en-MAC3-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines Equipment Tasks for the MRO (Maintenance, Repair, and Overhaul) module including basic functionality/options, creating task templates to utilize in the system, and total units for task & equipment status and fields that affect work order functions.
Objectives	This training session outlines Equipment Tasks for the MRO (Maintenance, Repair, and Overhaul) module including basic functionality/options, creating task templates to utilize in the system, and total units for task & equipment status and fields that affect work order functions.
Prerequisites	
Available Online	Yes

Maintenance Adv Cert: MRO Work Order Basics	
Course Code	DELW-en-MAC4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session covers basics of MRO Work Order functionality including an overview of Task and Work Order interactions, features of MRO Work Orders, available menu options/speed buttons, and accessing essential reports.
Objectives	This training session covers basics of MRO Work Order functionality including an overview of Task and Work Order interactions, features of MRO Work Orders, available menu options/speed buttons, and accessing essential reports.
Prerequisites	
Available Online	Yes

Maintenance Adv Cert: MRO Work Order Processing	
Course Code	DELW-en-MAC5-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session covers processing Maintenance, Repair and Overhaul (MRO) Work Orders. Users will learn how to generate MRO work orders, how different options affect work order creation, how to access & utilize the work order planner and a demonstration of processing a MRO work order from closing a task to archiving the work order.
Objectives	This training session covers processing Maintenance, Repair and Overhaul (MRO) Work Orders. Users will learn how to generate MRO work orders, how different options affect work order creation, how to access & utilize the work order planner and a demonstration of processing a MRO work order from closing a task to archiving the work order.
Prerequisites	
Available Online	Yes

MFG Foundation: Customer RMA	
Course Code	DELW-en-MFG25-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following video provides information on how to process and manage returns for Customer RMAs which provide a system to track inventory items, quantities, packing slip information and final outcomes for Customer purchased products that request a return.
Objectives	The following video provides information on how to process and manage returns for Customer RMAs which provide a system to track inventory items, quantities, packing slip information and final outcomes for Customer purchased products that request a return.
Prerequisites	
Available Online	Yes

MFG Foundation: Outsource Manual Processes	
Course Code	DELW-en-MFG10-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following session provides users with an introduction to Outsource Manual Processes. This session also includes how to create an Outsource BOM and the different options for managing this in the DELMIAWorks system
Objectives	The following session provides users with an introduction to Outsource Manual Processes. This session also includes how to create an Outsource BOM and the different options for managing this in the DELMIAWorks system
Prerequisites	
Available Online	Yes

MFG Foundation: Shop Data	
Course Code	DELW-en-MFG19-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following video provides an overview the ShopData application in the DELMIAWorks system. This application is ideal for the shop floor environment and users. Track production, print labels, track scrap and other quality issues with this touch-screen capable application.
Objectives	The following video provides an overview the ShopData application in the DELMIAWorks system. This application is ideal for the shop floor environment and users. Track production, print labels, track scrap and other quality issues with this touch-screen capable application.
Prerequisites	
Available Online	Yes

MFG Foundation: Vendor RMA	
Course Code	DELW-en-MFG27-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Materials	Chinese , English
Level	Fundamental
Audience	
Description	The following video provides information on managing Inventory returns via the Vendor RMA module in the DELMIAWorks system. This lesson includes information on linking returns by PO Receipts, tracking returns, and return codes.
Objectives	The following video provides information on managing Inventory returns via the Vendor RMA module in the DELMIAWorks system. This lesson includes information on linking returns by PO Receipts, tracking returns, and return codes.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: Assembly Complex Lines	
Course Code	DELW-en-MFGAC1-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session covers Assembly Complex Lines used with ASSY Manufacturing. Learn how and why complex lines are used, how to configure ASSY2 and ASSY3 complex lines and Bills of Material and review the differences for reporting ASSY2 and ASSY3 production in DELMIAWorks.
Objectives	This training session covers Assembly Complex Lines used with ASSY Manufacturing. Learn how and why complex lines are used, how to configure ASSY2 and ASSY3 complex lines and Bills of Material and review the differences for reporting ASSY2 and ASSY3 production in DELMIAWorks.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: Daily Projected Requirements and Parts Projection	
Course Code	DELW-en-MFGAC3-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following training session covers how to access and analyze the daily projected requirements for production needs as well as the planned production by part and estimated quantities for Inventory in the DELMIAWorks system.
Objectives	The following training session covers how to access and analyze the daily projected requirements for production needs as well as the planned production by part and estimated quantities for Inventory in the DELMIAWorks system.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: Lot Number Tracking	
Course Code	DELW-en-MFGAC5-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following video covers managing inventory with the Lot Number Tracking system in the DELMIAWorks and provides information on inventory movements with using Lot #s, managing Locations with different Lot #s, and Lot # tracking.
Objectives	The following video covers managing inventory with the Lot Number Tracking system in the DELMIAWorks and provides information on inventory movements with using Lot #s, managing Locations with different Lot #s, and Lot # tracking.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: Plant Floor Layout	
Course Code	DELW-en-MFGAC7-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training module covers Plant Floor Layout functionality in DELMIAWorks including configuration of a layout with an overview of the toolbox option and best practices.
Objectives	This training module covers Plant Floor Layout functionality in DELMIAWorks including configuration of a layout with an overview of the toolbox option and best practices.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: Serial # Tracking	
Course Code	DELW-en-MFGAC6-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following video provides an overview of Serial # Tracking functionality within the DELMIAWorks which is utilized to manage serial numbers as they are generated, scanned, and moved throughout the system for inventory items.
Objectives	The following video provides an overview of Serial # Tracking functionality within the DELMIAWorks which is utilized to manage serial numbers as they are generated, scanned, and moved throughout the system for inventory items.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: ShopData Disposition Transactions	
Course Code	DELW-en-MFGAC10-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following video provides an introduction to the different disposition transactions that can be conducted through ShopData of the DELMIAWorks system. This lesson includes information on RT Scan to Inventory, Floor Dispositions, and Pallet Builder.
Objectives	The following video provides an introduction to the different disposition transactions that can be conducted through ShopData of the DELMIAWorks system. This lesson includes information on RT Scan to Inventory, Floor Dispositions, and Pallet Builder.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: ShopData - Inventory Transactions and Location	
Course Code	DELW-en-MFGAC8-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following video provides an introduction to the different transactions that can be conducted through ShopData for specific inventory of the DELMIAWorks system. This lesson includes information on understanding the location status, moving inventory, and increasing or decreasing quantities within the ShopData application.
Objectives	The following video provides an introduction to the different transactions that can be conducted through ShopData for specific inventory of the DELMIAWorks system. This lesson includes information on understanding the location status, moving inventory, and increasing or decreasing quantities within the ShopData application.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: ShopData Labels	
Course Code	DELW-en-MFGAC4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines how ShopData Labels are configured & utilized within DELMIAWorks. Users are shown how to configure labels within ShopData, review the differences between the three labels types available, how to disposition RealTime labels and a demonstration of printing labels for each type in ShopData.
Objectives	This training session outlines how ShopData Labels are configured & utilized within DELMIAWorks. Users are shown how to configure labels within ShopData, review the differences between the three labels types available, how to disposition RealTime labels and a demonstration of printing labels for each type in ShopData.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: ShopData - Work Order Materials and Components	
Course Code	DELW-en-MFGAC9-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session provides information about ShopData Work Order Materials & Components functionality including an overview of how to find and analyze data, how to review color codes available, the differences between inventory quantities and how to identify pending transactions.
Objectives	This training session provides information about ShopData Work Order Materials & Components functionality including an overview of how to find and analyze data, how to review color codes available, the differences between inventory quantities and how to identify pending transactions.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: Visual BOM Routing	
Course Code	DELW-en-MFGAC2-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session covers Visual BOM Routing functionality and reviews the differences between Visual and Text-based bills of material, outlines NEW and LIKE NEW functions and color codes, how to use to Cost/Quote speed button and hw BOM details and work order routing functionality work together.
Objectives	This training session covers Visual BOM Routing functionality and reviews the differences between Visual and Text-based bills of material, outlines NEW and LIKE NEW functions and color codes, how to use to Cost/Quote speed button and hw BOM details and work order routing functionality work together.
Prerequisites	
Available Online	Yes

MFG I Adv Cert: WMS Transactions	
Course Code	DELW-en-MFGAC11-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following video provides an introduction to the different transactions that can be conducted through Warehouse Management Systems for labeled inventory in the DELMIAWorks system. This lesson includes information on understanding the menu options, moving inventory along with shipping and receiving.
Objectives	The following video provides an introduction to the different transactions that can be conducted through Warehouse Management Systems for labeled inventory in the DELMIAWorks system. This lesson includes information on understanding the menu options, moving inventory along with shipping and receiving.
Prerequisites	
Available Online	Yes

MFG II Adv Cert: RT Charting	
Course Code	DELW-en-MFG2AC1-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines RealTime Process Monitoring - RT Charts Setup functionality including configuration of RealTime Charts, how to use the RealTime Charts Web Application and a detailed overview of add/remove capabilities.
Objectives	This training session outlines RealTime Process Monitoring - RT Charts Setup functionality including configuration of RealTime Charts, how to use the RealTime Charts Web Application and a detailed overview of add/remove capabilities.
Prerequisites	
Available Online	Yes

MFG II Adv Cert: RT Device Map	
Course Code	DELW-en-MFG2AC2-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines the RealTime Process Monitoring Device Mapping Setup including configuration steps required, review the technote for important information, how to launch the server and how to log in to the device setup application.
Objectives	This training session outlines the RealTime Process Monitoring Device Mapping Setup including configuration steps required, review the technote for important information, how to launch the server and how to log in to the device setup application.
Prerequisites	
Available Online	Yes

MFG II Adv Cert: RT Process Monitor	
Course Code	DELW-en-MFG2AC3-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session outlines the RealTime Process Monitoring application including configuration & execution steps.
Objectives	This training session outlines the RealTime Process Monitoring application including configuration & execution steps.
Prerequisites	
Available Online	Yes

MFG II Adv Cert: RT Station	
Course Code	DELW-en-MFG2AC4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session provides information about RT Station, which includes a discussion about the RT Station interface and a demonstration of the RT Applications.
Objectives	This training session provides information about RT Station, which includes a discussion about the RT Station interface and a demonstration of the RT Applications.
Prerequisites	
Available Online	Yes

MFG II Adv Cert: Serialized Inventory Control	
Course Code	DEW-en-MFG2AC5-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session introduces the function and features of Serialized Inventory Control and how the system controls and tracks each movement of inventory. By using the WMS/IQRF scanner functions, the system requires a barcode label enforcing strict parameters to ensure accurate tracking.
Objectives	This training session introduces the function and features of Serialized Inventory Control and how the system controls and tracks each movement of inventory. By using the WMS/IQRF scanner functions, the system requires a barcode label enforcing strict parameters to ensure accurate tracking.
Prerequisites	
Available Online	Yes

MFG II Adv Cert: Shopworks Setup & Configuration	
Available Release	DELMIAWORKS 2025
Duration	0.75 hours
Course Material	English
Level	Intermediate
Audience	
Description	<p>Shopworks is a web-based dashboard and business intelligence solution that allows users to access basic work station functions, which is configurable based on user preferences and business practices, and allows management-level users to view work center production statistics. The Shopworks web application is available for companies with Shopworks licensing. This presentation assumes that all installation steps for Shopworks have been completed. Today we will cover the setup steps necessary to begin using this application.</p>
Objectives	<ul style="list-style-type: none"> • Setup of the EnterpriseIQ Security Inspector Oracle Users <ul style="list-style-type: none"> - • Difference between generic users and named users - • Assigning Shopworks licenses and determining read/write access for the available widgets per Shopworks Floor user - • Dashboard Settings - • Cloning Dashboards - • Review of available Widgets and their configuration settings
Prerequisites	
Available Online	Yes

Production Engineering Adv Cert: Engineering Quotes	
Course Code	DELW-en-PEAC1-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The Engineering Quote module is a powerful tool used to fine tune estimated costs and profit margins. The quote structure is similar to creating a Bill of Manufacture (BOM), but allows the user to run unlimited “what if” scenarios without affecting the manufacturing side. This session will take the user from Quote to BOM conversion and back again.
Objectives	The Engineering Quote module is a powerful tool used to fine tune estimated costs and profit margins. The quote structure is similar to creating a Bill of Manufacture (BOM), but allows the user to run unlimited “what if” scenarios without affecting the manufacturing side. This session will take the user from Quote to BOM conversion and back again.
Prerequisites	
Available Online	Yes

Production Engineering Adv Cert: JobShop	
Course Code	DELW-en-PEAC3-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session provides an introduction to the JobShop module including configuration requirements, creating projects, item production and archiving projects.
Objectives	This training session provides an introduction to the JobShop module including configuration requirements, creating projects, item production and archiving projects.
Prerequisites	
Available Online	Yes

Production Engineering Adv Cert: PLM - DHR	
Course Code	DELW-en-PEAC2-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session covers the Product Life Management or Device History Record (PLM/DHR) tools that are employed at every concept of design, through various engineering changes, pre-production, post-production, and conclusion of every part or product within the DELMIAWorks system. Leverage all that the PLM/DHR modules have to offer.
Objectives	This training session covers the Product Life Management or Device History Record (PLM/DHR) tools that are employed at every concept of design, through various engineering changes, pre-production, post-production, and conclusion of every part or product within the DELMIAWorks system. Leverage all that the PLM/DHR modules have to offer.
Prerequisites	
Available Online	Yes

Production Engineering Adv Cert: Project Manager Processes and Tasks	
Course Code	DELW-en-PEAC5-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	DELMIAWorks Project Manager module provides a robust set of tools to manage all types of projects. This session covers the processing of tasks, work orders, and tracking time and costs for each project.
Objectives	DELMIAWorks Project Manager module provides a robust set of tools to manage all types of projects. This session covers the processing of tasks, work orders, and tracking time and costs for each project.
Prerequisites	
Available Online	Yes

Production Engineering Adv Cert: Project Manager Setup and Use	
Course Code	DELW-en-PEAC4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	DELMIAWorks Project Manager module provides a robust set of tools to manage all types of projects. This session covers the setup portion in preparation of using this module. Explore necessary parameters, optional parameters, and common resources. Project Manager leverages Templates and Workflows for added productivity as well.
Objectives	DELMIAWorks Project Manager module provides a robust set of tools to manage all types of projects. This session covers the setup portion in preparation of using this module. Explore necessary parameters, optional parameters, and common resources. Project Manager leverages Templates and Workflows for added productivity as well.
Prerequisites	
Available Online	Yes

QMS Adv Cert: Gages and Devices	
Course Code	DELW-en-QMSAC1-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an introduction to Quality Gages and Devices. As part of the Quality suite of modules, learn how to set up, track usage, and maintenance of each Gage and Device that may be linked to certain Inspection Parameters. As part pf the Gage and Device configuration, calibration standards and studies are also available as part of this module.
Objectives	This training session is an introduction to Quality Gages and Devices. As part of the Quality suite of modules, learn how to set up, track usage, and maintenance of each Gage and Device that may be linked to certain Inspection Parameters. As part pf the Gage and Device configuration, calibration standards and studies are also available as part of this module.
Prerequisites	
Available Online	Yes

QMS Adv Cert: In-Process Inspection Log	
Course Code	DELW-en-QMSAC2-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an introduction to In-Process Inspection Log module. As part of the Quality suite of modules, learn how this tool can be leveraged for data collection purposes. Unlike Quick Inspection, no data is transferred into the SPC modules but still can be exported.
Objectives	This training session is an introduction to In-Process Inspection Log module. As part of the Quality suite of modules, learn how this tool can be leveraged for data collection purposes. Unlike Quick Inspection, no data is transferred into the SPC modules but still can be exported.
Prerequisites	
Available Online	Yes

QMS Adv Cert: Inspection Approval Process	
Course Code	DELW-en-QMSAC3-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session provides an overview of the Inspection Approval process. As part of the Inspection setup, and Quick Inspection, Inspection Approval is required prior to data entry.
Objectives	This training session provides an overview of the Inspection Approval process. As part of the Inspection setup, and Quick Inspection, Inspection Approval is required prior to data entry.
Prerequisites	
Available Online	Yes

QMS Adv Cert: Quality Audit	
Course Code	DELW-en-QMSAC4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an introduction to Quality Audits module. As part of the Quality suite of modules, learn how to set up Templates and Workflows, schedule your Audits by leveraging IQAlerts, CRMs, and involve your team for both Internal and External Audits.
Objectives	This training session is an introduction to Quality Audits module. As part of the Quality suite of modules, learn how to set up Templates and Workflows, schedule your Audits by leveraging IQAlerts, CRMs, and involve your team for both Internal and External Audits.
Prerequisites	
Available Online	Yes

QMS Adv Cert: Quick Inspection	
Course Code	DELW-en-QMSAC7-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an introduction to the Quick Inspection module. As part of the Quality suite of modules, learn how the setup portion of Inspection setup is critical to using the Quick Inspection area of the system. Once parameters, groups, and devices have been entered and the record approved the user is now ready to enter data collected.
Objectives	This training session is an introduction to the Quick Inspection module. As part of the Quality suite of modules, learn how the setup portion of Inspection setup is critical to using the Quick Inspection area of the system. Once parameters, groups, and devices have been entered and the record approved the user is now ready to enter data collected.
Prerequisites	
Available Online	Yes

QMS Adv Cert: SPC Inspection Setup	
Course Code	DELW-en-QMSAC5-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an introduction to Inspection Setup for Statistical Process Control module or SPC. As part of the Quality suite of modules, learn how to setup parameters and inspection groups as well as associating them to gauges or devices that may be used to collect that data.
Objectives	This training session is an introduction to Inspection Setup for Statistical Process Control module or SPC. As part of the Quality suite of modules, learn how to setup parameters and inspection groups as well as associating them to gauges or devices that may be used to collect that data.
Prerequisites	
Available Online	Yes

QMS Adv Cert: SPC Past Inspections	
Course Code	DELW-en-QMSAC6-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session is an introduction to reviewing Past Inspections conducted by Quick Inspections. Past Inspections can be viewed leveraging SPC functionality. As part of the Quality suite of modules, SPC Past Inspections contributes to the overall trending data.
Objectives	This training session is an introduction to reviewing Past Inspections conducted by Quick Inspections. Past Inspections can be viewed leveraging SPC functionality. As part of the Quality suite of modules, SPC Past Inspections contributes to the overall trending data.
Prerequisites	
Available Online	Yes

Quality Foundation: APQP / PPQ	
Course Code	DELW-en-QF10-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training course covers Advanced Product Quality Planning (APQP) in DELMIAWorks. Learn about how to utilize APQP based on your business needs, template configuration, how to minimize risks during product launch and executing an approval using workflow.
Objectives	This training course covers Advanced Product Quality Planning (APQP) in DELMIAWorks. Learn about how to utilize APQP based on your business needs, template configuration, how to minimize risks during product launch and executing an approval using workflow.
Prerequisites	
Available Online	Yes

Quality Foundation: Control Plans	
Course Code	DELW-en-QF8-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	This training session reviews Control Plan functionality for DELMIAWorks. Review modular interactions throughout the system with Control Plans, how to execute and utilize Control Plans based on your business needs and available parameters.
Objectives	This training session reviews Control Plan functionality for DELMIAWorks. Review modular interactions throughout the system with Control Plans, how to execute and utilize Control Plans based on your business needs and available parameters.
Prerequisites	
Available Online	Yes

Quality Foundation: Corrective Action- CAR/CAPA	
Course Code	DELW-en-QF4-F-DELMIAWORKSR5
Available Release	DELMIAWORKS 2020x
Duration	0.50 hours
Course Material	English
Level	Fundamental
Audience	
Description	The following training module reviews Corrective Action Reports (CAR/CAPA) functionality including system wide modular interactions, how to create a new CAR/CAPA record, an overview of why and how to utilize and execute CAR/CAPA based on your business needs and a demonstration of configuration and execution of approval templates and workflow.

Sys Admin Foundation: SmartPage

Available Release	DELMIAWORKS 2024
Duration	0.67 hours
Course Material	English
Level	Fundamental
Audience	
Description	The DELMIAWorks Smart Page is a custom designed workspace enabling the user to access various elements all from a single screen. This replaces the use of the launcher bar as it provides access to all EnterpriseIQ functionality as well as additional elements. A user can incorporate the various modules and elements that they use on a continuous basis in the Smart Page window making access to their most used features very simple and fast.
