

HAVELSAN

HAVELSAN offers new generation technologies with 38 years of experience in defense, simulation, ICT, homeland security and cyber security.

“The 3DEXPERIENCE platform helps us to shorten our development cycles and to deliver high-quality products.”

— Bulent US, Deputy Engineering Services Team Leader, HAVELSAN

Challenge

As a fast growing company with new departments, teams and projects, HAVELSAN needed a solution to align multi-disciplinary activities, data and processes in order to support its product portfolio growth without compromising quality.

Solution

HAVELSAN adopted the 3DEXPERIENCE® platform as a single source of the truth for all data and deliverables in a secure environment. The platform also enables the company to develop a unified product definition for its projects’ design, engineering and collaboration applications.

Benefits

Centralized data and processes help HAVELSAN shorten its high-technology products’ development cycle. With 3DEXPERIENCE, the company designs sophisticated products, efficiently masters product change management, and seamlessly integrates multi-disciplinary teams and processes, including third party applications.
