

## **Dassault Systèmes Suspends Business Operations in Russia**

Russia's invasion of Ukraine is a disaster in every regard and triggers unprecedented turmoil. Many people at Dassault Systèmes have personal, professional and family bonds with Ukraine. This human tragedy resonates with our entire company. Dassault Systèmes strongly stands for peace. We stand in solidarity with the people of Ukraine.

Dassault Systèmes has implemented, since last week, all the actions to suspend its business operations in Russia. We have complied with European and international rules of conduct and sanctions: strict export controls have been applied and many aspects of our business in Russia have ceased. This plan was rolled out immediately after the invasion. We will provide the necessary support for our colleagues in Russia.

Since the invasion began, our primary concern has been the safety of our colleagues and their families in areas impacted by the war. This remains our absolute priority. Dassault Systèmes has taken measures to support members of our teams who have family members in Ukraine, who must temporarily relocate, or who have any concerns related to this crisis.
