

WEBAPI GRAPHQL & REST APIs

Data Sheet

OVERVIEW

Develop custom applications within DELMIAworks to best fit the needs of your organization.

The DELMIAWORKS WebAPI Software Development Kit (SDK) comes with all the tools needed to empower developers to write custom applications with the DELMIAWORKS manufacturing ERP and MES software solution.

DELMIAworks' WebAPI includes both the **API SDK for GRAPHQL APIs** and **WebAPI SDK for REST APIs**. With these tools, users can pull the specific data they need to optimize their operations with precision, and the certainty to know the system will return the information requested once those areas have been mapped.

IQMS.API.Entities.SalesDistribution.PriceBookBreaks Class Reference

Inherits IEntity.

Properties

Type of Variable	Description
long Id	The price book breaks' unique ID.
Decimal? Quantity	The quantity associated with the price.
Decimal? Price	The price of the item at that quantity.
DateTime? PriceDate	The date the price was created or revised.
DateTime? EffectiveDate	The date that this price will be in effect.
DateTime? InactiveDate	The date when this price will no longer be in effect.
String Comment	The price break comment.
long PriceBookBreaksTypeId	The price book breaks type's unique ID.

IQMS.API.Entities.SalesDistribution.PriceBookBreaksType Class Reference

Inherits IEntity, and IQMS.API.Helpers.Entities.Contracts.ILinkable.

Properties

Type of Variable	Description
long Id	The price book breaks' unique ID.
long PriceBookItemId	The price book breaks type's associated price book item ID in the PRICEBOOKITEM table.
long? PriceBookPriceTypeId	The price book breaks type's associated price book price type ID in the PRICEBOOK-PRICETYPE table.
long? CurrencyId	The currency ID associated to the price book break type.

IQMS.API.Entities.SalesDistribution.PriceBookHeader Class Reference

Inherits IEntity, and IQMS.API.Helpers.Entities.Contracts.ILinkable.

Properties

Type of Variable	Description
long Id	The primary key.
string Name	The price book name. This field must be unique.
string Description	The price book description. This field is required.

IQMS.API.Entities.SalesDistribution.PriceBookItem Class Reference

Inherits IEntity, and IQMS.API.Helpers.Entities.Contracts.ILinkable.

Properties

Type of Variable	Description
long Id	The primary key.
long PriceBookId	The price book ID.
string Class	The class code; two characters long. The combination of ItemNo, Class and Rev must be unique per price book ID and Must exists in arinv table.
string ItemNumber	The combination of ItemNo, Class and Rev must be unique per price book ID and Must exists in arinv table.
string Revision	The combination of ItemNo, Class and Rev must be unique per price book ID and Must exists in arinv table.

IQMS.API.Entities.SalesDistribution.PriceBookItemsView Class Reference

Inherits IEntity.

Properties

Type of Variable	Description
long Id	The price book item view's primary key.
long PriceBookId	The price book ID.
string Class	The 2-character class code.
string ItemNumber	The item number.
string Revision	The item's revision status.
string Description	The item's description.
string Description2	The item's additional description.
string ProductCode	The item's production code.
string InactiveInAllEplants	If the field is 'Y', the item is inactive in all EPlants.

IQMS.API.Entities.SalesDistribution.PriceBookPriceType Class Reference

Inherits IEntity.

Properties

Type of Variable	Description
long Id	The primary key.
string Code	The price book price type's unique code (max 25 characters).
string Description	The price book price type's description (max 255 characters).

Our 3DEXPERIENCE® Platform powers our brand applications, serving 11 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the 3DEXPERIENCE Company, is a catalyst for human progress.

We provide business and people with collaborative virtual environments to imagine sustainable innovations. By creating 'virtual experience twins' of the real world with our 3DEXPERIENCE platform and applications, our customers push the boundaries of innovation, learning and production.

Dassault Systèmes' 20,000 employees are bringing value to more than 270,000 customers of all sizes, in all industries, in more than 140 countries. For more information, visit www.3ds.com.
