Attestation of Security

We deliver cybersecurity expertise

This document certifies that

Dassault Systèmes – 3DExperience Platform, version R2023xGA

has been audited in regards to Industry Security Best Practices

XMCO hereby confirms that the application has been assessed by security experts in regards to current known attack vectors with OWASP and OSSTMM methodologies.

Issued by XMCO on 19/12/2022

Adrien Guinault – CTO

To maintain compliance, Dassault Systèmes is required to successfully pass ongoing annual assessment. In addition, Dassault Systèmes must continuously identify and provide XMCO with the information regarding any modification to system components or source code related to the assessed web applications. The parties further agree that this caused by any failure or breach of Dassault Systèmes certificate offers no guarantee or warranty to any third party that Dassault Systèmes is invulnerable to attacks or breaches in its security, and XMCO accordingly accepts no liability to any third party in the event of loss or damage
