BIOVIA

BIOVIA ONE LAB
LIMS ESSENTIALS

Get a new LIMS up and running quickly

BIOVIA ONE Lab LIMS Essentials offers a rapid, value-added, cost-effective implementation with full LIMS features available from day one.

LIMS (Laboratory Information Management Systems) deployments are often lengthy and expensive due to integrations, customizations, and training on disparate systems. If you are seeking an easy-to-deploy solution, try leveraging a cloud-based solution with well-defined out-of-the-box functionalities to streamline the deployment process and quickly achieve operational efficiency

LIMS with Procedure Execution

BIOVIA ONE Lab LIMS is a robust laboratory information management system designed to enhance the efficiency and accuracy of laboratory operations. With **integrated Procedure Execution** ONE Lab LIMS enables labs to streamline their workflows, ensuring compliance with standard operating procedures and regulatory requirements. Users can easily create, manage, and execute procedures in real time, reducing the likelihood of errors and accelerating data collection and analysis. By automating and optimizing procedural tasks, **BIOVIA ONE Lab LIMS** empowers laboratories to focus on delivering quality results while improving overall productivity.

Includes Must-Have Features:

- **Sample Management:** Efficiently track and manage all sample data.
- **Request Management:** Simplify the process of handling and processing lab requests.
- **Certificate of Analysis:** Automatically generate customizable reports and certificates from test results.
- **Equipment Integration:** Seamlessly connect your lab equipment for automated data capture.
- **Procedure Execution:**
  - **Method Authoring:** Create and standardize test methods easily with no coding required!
  - **Guided Procedure Execution:** Ensure consistency and accuracy with guided workflows, and included instrument and inventory integration.
  - **Review-by-Exception:** Focus on only the results that deviate from the norm.

Why Choose BIOVIA ONE Lab LIMS Essentials?

- **Quick Deployment:** Get up and running in as little as 3 months with a packaged solution from BIOVIA
- **Cost Effective:** Implement a comprehensive LIMS without breaking the bank
- **Industry Best Practices:** Leverage proven methodologies yielding maximum value with minimal risk
- **Validation-Ready Scientific Cloud Infrastructure:** Accelerate validation for GxP environments with BIOVIA's proven testing and validation kits.
- **Improve Operational Efficiency:** Optimize workflows and reduce time-consuming tasks through automation.
- **Improve Scientific Efficiency:** structured data storage in a holistic solution enabling powerful analytics
- **Ensure Compliance:** Maintain adherence to regulatory standards effortlessly.
- **Accelerate Batch Release:** Automatically approve and release tests which meet specifications

Unlock the full potential of your lab operations with **BIOVIA ONE Lab LIMS Essentials.**
