

PLASTIC PART FILLING ESSENTIALS

SIMULIA COURSE DESCRIPTION

Level: Fundamental
Products: 3DEXPERIENCE
Disciplines: Fluids

Audience

This course is intended for all roles that enable the Plastic Part Filling app, including:

- Interior Designer
- Plastic Mechanical Designer
- Mold & Compensation Engineer
- Mold Designer
- Mold & Tooling Designer
- Product Enclosure Designer

Why take this course?

This course is an introduction to performing basic injection molding simulation for product and design innovation on the 3DEXPERIENCE platform. The Plastic Part Filling app enables realistic simulation of the mold filling manufacturing process. This enables decision making early in the design cycle, when the cost of design change is low and opportunity is high.

What will you learn?

Upon completion of this course, you will be able to:

- Perform Mold Filling simulations
- View and evaluate simulation results

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Gain hands-on experience and master real-world workflows through guided, practical training sessions.

Run simulations collaboratively within the 3DEXPERIENCE platform, connecting design, data, and analysis seamlessly.
