

TEST MANAGEMENT ESSENTIALS

SIMULIA COURSE DESCRIPTION

Level: Fundamental

Products: 3DEXPERIENCE

Disciplines: Preparation & Validation

Audience

This course is intended for the following role:

- Test Manager

Why take this course?

The Test Manager role enables the apps on the 3DEXPERIENCE platform that teams use to build a validation plan, record the steps an operator needs to know to carry out a virtual or physical test and record whether requirements are met. This course introduces each app used by the various team members to store data for the purposes of traceability. The tests being tracked can be anything: from physical lab tests to simulations of physical functional or logical systems.

What will you learn?

Upon completion of this course, you will be able to:

- Create a dashboard to track your team's validation plan
- Create reusable test scripts in the V&V Library app
- Add test steps to the script to give instructions for the test operator
- Create Test Specifications, Test Cases and Test Executions for your project or design team in the V&V Strategy app

- Create Test Results and upload Evidence in the Test Results Capture app
- Change the maturity of the content on the 3DEXPERIENCE platform to enable collaboration and storage of the data
- Review the links between content on the 3DEXPERIENCE platform to understand the digital thread

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Gain hands-on experience and master real-world workflows through guided, practical training sessions.

Run simulations collaboratively within the 3DEXPERIENCE platform, connecting design, data, and analysis seamlessly.

– SIMULIA Training Expert Team

What You Need to Know Before Starting

Familiarity with the web interface of the 3DEXPERIENCE platform is recommended. Alternatively, completing the installation, login and 3DSearch units of following course is recommended prior to taking this one:

- Getting Started with Automation and Optimization
