

CONNECTOR FOR ABAQUS/CAE ESSENTIALS

SIMULIA COURSE DESCRIPTION

Level: Fundamental

Products: 3DEXPERIENCE; Abaqus

Disciplines: Structures

Audience

This course is intended for the following role:

- All Physics Analyst

Why take this course?

This short course will teach Abaqus users how to import parts and assemblies from the 3DEXPERIENCE platform into Abaqus/CAE. Once a model has been defined and the job completed in Abaqus/CAE, the results can be saved to the 3DEXPERIENCE platform for collaboration, data analysis, and postprocessing.

What will you learn?

Upon completion of this course, you will be able to:

- Import product structure in Abaqus/CAE
- Save results to 3DEXPERIENCE
- Import results in 3DEXPERIENCE

- Open/download results from 3DEXPERIENCE
- View/analyze the results using the Physics Results Explorer app

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Connector courses help engineers link legacy tools with the 3DEXPERIENCE platform.

You connect Abaqus/CAE models to the 3DEXPERIENCE platform, ensuring consistent data flow from setup to results.

– SIMULIA Training Expert Team

What You Need to Know Before Starting

The following courses are required prior to taking this one:

- Introduction to Abaqus
- Getting Started with Physics Simulation
