

LINEAR DYNAMICS WITH ABAQUS

SIMULIA COURSE DESCRIPTION

Level: Advanced
Products: Abaqus
Disciplines: Structures

Audience
 This course is recommended for simulation analysts who will perform linear dynamic analysis.

Why take this course?

This course introduces the user to the algorithms and methods used to study linear dynamic problems with Abaqus/Standard. The workshops reinforce the fundamental concepts presented in the lectures.

What will you learn?

Upon completion of this course you will be able to:

- Extract eigenmodes about a certain frequency
- Determine whether the number of extracted eigenmodes is sufficient to represent the structure's response adequately
- Perform transient, steady-state, response spectrum and random response analyses using the eigenmodes
- Use multiple base motions
- Apply damping in linear problems

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Gain hands-on experience and master real-world workflows through guided, practical training sessions.

Apply nonlinear analysis techniques to simulate complex structural and multiphysics problems accurately.

– SIMULIA Training Expert Team

What You Need to Know Before Starting

Introduction to Abaqus or equivalent and experience using Abaqus.

3DEXPERIENCE®

Dassault Systèmes is a catalyst for human progress. Since 1981, the company has pioneered virtual worlds to improve real life for consumers, patients and citizens.

With Dassault Systèmes' 3DEXPERIENCE platform, 370,000 customers of all sizes, in all industries, can collaborate, imagine and create sustainable innovations that drive meaningful impact.
