

INTRODUCTION TO XFLOW

SIMULIA COURSE DESCRIPTION

Level: Fundamental
Products: XFlow
Disciplines: Fluids

Audience
 Engineers with knowledge or experience in CFD

Why take this course?

This course introduces the XFlow Graphical User Interface (GUI) and shows how to run a simulation.

What will you learn?

Upon completion of this course you will be able to:

- Get started with the XFlow GUI
- Set up a single phase simulation in XFlow
- Postprocess simulations in XFlow
- Learn how to use the different lattice refinement schemes

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Gain hands-on experience and master real-world workflows through guided, practical training sessions.

Explore unsteady flow behavior and transient aerodynamics using particle-based CFD simulation.

– SIMULIA Training Expert Team

What You Need to Know Before Starting

This course has no prerequisites.
