

PARAMETRIC DESIGN IMPROVEMENT: FLUIDS

SIMULIA COURSE DESCRIPTION

Level: Fundamental

Products: 3DEXPERIENCE

Disciplines: Automation; Fluids

Audience

This course is intended for all roles that enable the Parametric Design Study and Fluid Scenario Creation apps including:

- Fluid Dynamics Engineer
- Thermal Engineer

Why take this course?

Design improvement studies allow engineers to find the best design while varying design parameters. Using the Parametric Design Study app, you can easily author, monitor and postprocess a parametric design improvement study based on a flow analysis. Physics simulations from which the user initiates a study are first defined and run using the Fluid Scenario Creation app.

What will you learn?

Upon completion of this course, you will be able to:

- Create a design improvement study, defining design variables and objective(s)

- Perform design space checks and run the study
- Monitor and review study results

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Gain hands-on experience and master real-world workflows through guided, practical training sessions.

This approach helps you manage and share aerodynamic simulation data efficiently.

– SIMULIA Training Expert Team

What You Need to Know Before Starting

An understanding of the scenario app to be used to define a simulation and analysis case is required prior to taking this course, for instance by completing:

- Fluid Simulation Essentials

3DEXPERIENCE®

Dassault Systèmes is a catalyst for human progress. Since 1981, the company has pioneered virtual worlds to improve real life for consumers, patients and citizens.

With Dassault Systèmes' 3DEXPERIENCE platform, 370,000 customers of all sizes, in all industries, can collaborate, imagine and create sustainable innovations that drive meaningful impact.
