

INTRODUCTION TO POWERINSIGHT

SIMULIA COURSE DESCRIPTION

Level: Fundamental
Products: PowerFLOW
Disciplines: Fluids

Audience
CFD Analysts

Why take this course?

PowerINSIGHT provides a graphical user interface that facilitates seamless configuration and generation of comparative results for corporate best practices. It enables interactive exploration of results and automated report generation. PowerINSIGHT equips teams with tools to maximize simulation investment returns, resulting in improved insight, communication, consistency, and automation.

What will you learn?

Upon completion of this course, you will be able to configure PowerINSIGHT to generate comparative results, explore simulation results interactively, and create automated reports. You will also learn to

maximize simulation investment returns through improved insights, communication, consistency, and automation, ultimately enhancing team collaboration.

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Gain hands-on experience and master real-world workflows through guided, practical training sessions.

Perform aerodynamic and thermal analyses using end-to-end CFD workflows on realistic geometries.

– SIMULIA Training Expert Team

What You Need to Know Before Starting

Basic familiarity with PowerFLOW suite
