

BOOKSHELF: 3DEXPERIENCE BASICS FOR SIMULATION

SIMULIA COURSE DESCRIPTION

Level: Fundamental
Products: 3DEXPERIENCE
Disciplines: Automation

Audience

This course is intended for users on the 3DEXPERIENCE platform with roles enabling desktop apps including physics simulation in the disciplines of Structures, Fluids, Electromagnetics or Motion.

Why take this course?

This course provides a selection of short standalone modules (5-10 min each) on how to install, configure, and start using the 3DEXPERIENCE desktop interface for physics simulation. Choose any module to get the help you need!

What will you learn?

When you reference a module, you will understand one of the topics:

- Installation & Login
- Requesting a Role
- Where to Find Help
- Importing Geometry
- Material Databases
- Search in the Desktop Interface
- View Manipulation
- Preferences in the Desktop Interface
- Deleting your Data

Explore Your Learning Options

Live Sessions	Engage in Real-Time, interactive group workshops guided by experts. Learn and collaborate live in your preferred language and time zone.	Join a live session
On-Demand Learning	Access expert-designed courses anytime, anywhere. Perfect for independent learners looking to build skills on their schedule.	Start Learning Now
Private Training	Exclusive, tailor-made sessions designed to meet your team's unique goals with expert guidance.	Contact Us for Custom Training

Bookshelf courses offer short, self-paced modules focused on essential setup and navigation skills. Each unit provides clear, actionable guidance you can apply right away on the 3DEXPERIENCE platform.

Starting on the 3DEXPERIENCE platform can feel daunting.
Each short module focuses on one clear action—installing, searching, or managing data—so you can learn fast and apply it right away.

— SIMULIA Training Expert Team

What You Need to Know Before Starting

This course has no prerequisites.
