Appui Couronne	5	1
Axe Ancre	6	1
Axe Balancier	7	1
Axe Barillet	8	1
Axe Tirette	9	1
Primitive 1	1	1

3D COMMUNICATION

CATIA Composer is the industry leading solution for creating 2D and 3D product communications across industries. When creating interactive 3D experiences, CATIA Composer Player and CATIA Composer Player Pro are available to deliver engaging interactive 3D content.

CATIA Composer Player is a free interactive 3D engine that distributes high performance CATIA Composer content to any end-user. More than a simple viewer, CATIA Composer Player offers content consumers the ability to interact directly with product deliverables for more engaging product-based 3D experience Each installation of the CATIA Composer Player includes a standalone player, an ActiveX player, and a plug-in for Adobe Acrobat Reader. With three high performance application delivery options, the CATIA Composer Player offers the power and flexibility to deliver engaging CATIA Composer content where and when you need it.

CATIA Composer Player Pro extends upon CATIA Composer Player features with a powerful application programming interface. With nearly unlimited custom programming capabilities around the ActiveX player, advanced functionalities can be enabled such as the ability to query, manipulate, interact, and display CATIA Composer. Additionally, CATIA Composer Player Pro applications can be combined with data originating from external sources for even richer 3D experience.

It is also possible to maintain local file persistence using CATIA Composer Player Pro. Once the proper permissions have been granted, users can capture valuable feedback on an interactive scene using comments, labels, and annotations. Changes can then be "saved" to preserve markups and modifications for further review.

For an unmatched user experience, CATIA Composer Player Pro can be used to build customized interactive 3D experience that can be embedded anywhere ActiveX technology is supported. This game-changing technology supports the development of purpose-built applications that can be tailored to suit individual project or organizational needs.

	CATIA Composer Player ▼	**CATIA Composer Player Pro** ▼
Licensing	Free	Machine-based with publishing options for sharing applications outside the enterprise
Stand-alone Player	Full Playback of content authored in CATIA Composer Authoring and dimensioning capabilities include; activate views, cutting planes, rotate geometry, attach labels, adjust properties, add measurements	Full Playback of content authored in CATIA Composer Authoring and dimensioning capabilities include; activate views, cutting planes, rotate geometry, attach labels, adjust properties, add measurements
Adobe Acrobat Reader	Included	Included
ActiveX	**Basic APIs** • Create custom buttons to control CATIA Composer applications	**Advanced APIs** • Create custom buttons to control CATIA Composer applications • Full control of the ActiveX session • Bi-directional, real-time interaction with CATIA Composer • XML push to player to connect data and geometry • Interrogate and modify all properties of all actors • Multi player connectivity
"Save" Functionality	Read only	Right Manager settings enables markups and modifications to be saved
Use Cases	• Design/project review • Stakeholder communications • Assembly instructions • Sales/marketing presentations	• Product configurators • Online parts catalogs • Design markup • Manufacturing part consumption tracking • Visual Compare • Visual Training

Our **3D**EXPERIENCE® platform powers our brand applications, serving 12 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the **3D**EXPERIENCE® Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 170,000 customers of all sizes in all industries in more than 140 countries. For more information, visit **www.3ds.com**.
