

3DEXPERIENCE®

BUILD CONTROL

AEROSPACE & DEFENSE

Lean Manufacturing Delivered

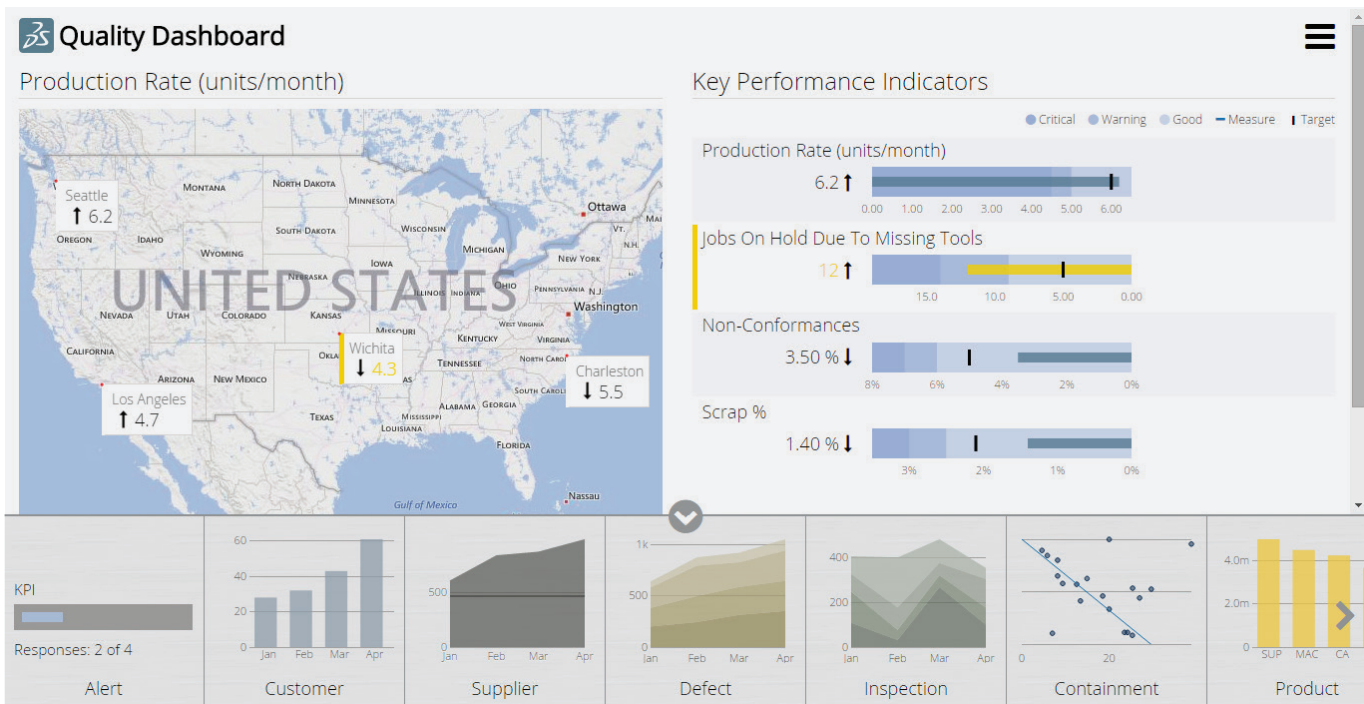

*DELMIA's Build Control for
the Aerospace & Defense industry
enables OEMs and suppliers to have
full visibility and control of their
shop floor processes.*

DELMIA's Aerospace & Defense Build Control delivers a suite of proven and scalable business process modeling, global process management and production intelligence solutions that enables OEM's, Tier 1 and Tier 2 suppliers to have a Manufacturing Operation Control Center. Companies can increase manufacturing efficiency by leveraging real-time KPIs and analytics of production orders, quality issues, inventory flows, equipment effectiveness and labor utilization across the extended enterprise.

Provides global visibility into manufacturing operations

Persona-based executive dashboard

INDUSTRY CHALLENGES

- How to meet market demand?
- How to meet program target margins?
- How to bring company-related manufacturing data together for enterprise reporting?

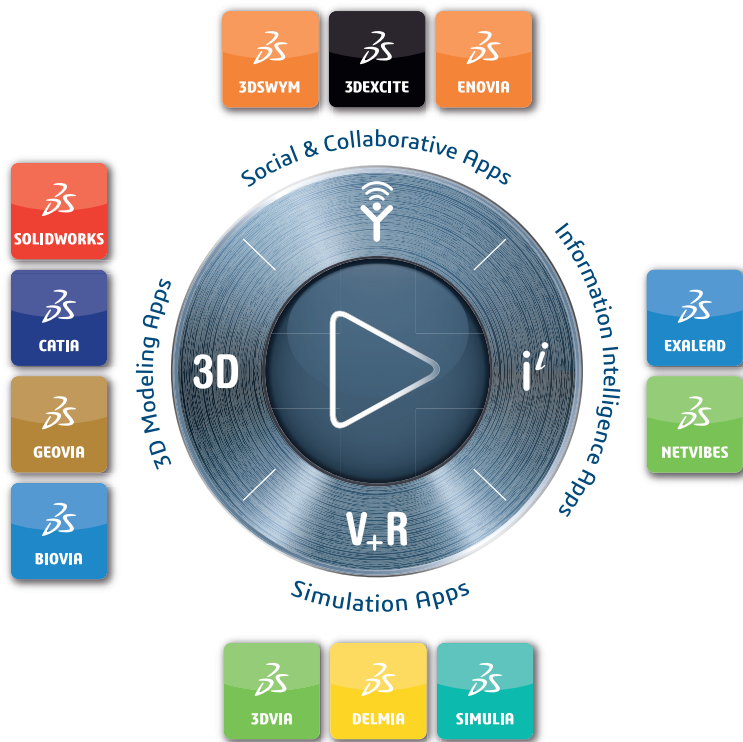

SOLUTION HIGHLIGHTS

- Live monitoring of extended enterprise production data
- Cross-manufacturing domain visibility to Production, Quality, Warehouse, Maintenance, Time & Labor and Supply Chain
- Persona-based executive dashboard
- Out-of-the-box predefined Intelligence Packs
- Cross-silo analysis to eliminate data silos

SOLUTION VALUES

- Reduce order backlog
- Assess risks and implement mitigation procedures
- Enable global process governance through Center of Excellence (COE)
- Separate the business process modeling and user experience design
- Globally standardize and enforce best practices
