DELMIAWORKS eLEARNING
INCREASE USER PROFICIENCY AND PRODUCTIVITY WITH ONLINE SKILLS DEVELOPMENT

OVER 140 ONLINE COURSES COVERING 750+ LESSONS
ANYTIME, ANYWHERE, ANY DEVICE MODULAR TRAINING

Keeping your staff trained and up-to-date with your ERP / MES / MOM solutions can be a challenge. Continuous learning to upgrade skills and user proficiency is a smart choice for customers looking to improve overall skillsets on a product with expansive functionality.

DELMIAworks eLearning subscription will help drive utilization by group, role, and process. Users become more proficient in their company roles and the onboarding process for new employees. eLearning customers exhibit increased speed of adoption allowing new skills and abilities to be implemented within their organization immediately.

WHAT IS eLEARNING?

- Learning Management System (LMS) platform that can be accessed 24/7 on any device
- 140 courses with over 750 lessons / Courses focused on module functionality (core/add-on)
- Includes recorded webinar courses that provide a broader overview on modules
- Includes Role-based learning tracks and Process-based learning tracks
- Quizzes are available at the end of each course to assess knowledge retention
- Managers can track utilization and completions with included reports
- 5-8 Courses added per quarter

eLEARNING BENEFITS

- ELearning allows students to work through topics at their own pace and automatically saving progress along the way so they can continue where they left off.
- Students can follow predetermined learning paths — based on role, job function, and process — which range from prerequisite training, implementation training, and post Go-Live training.
- Finally, DELMIAworks provides an extensive manufacturing-specific reference library for further clarification on key points made within the lesson materials.

As the eLearning library continues to grow we have aligned the list of 140 courses and 750+ lessons into recommended learning paths by job function, business process, and manufacturing specific processes. This will help current, as well as future employees, better utilize IQMS functionality to increase the efficiency of the jobs they perform.

RECOMMENDED LEARNING BY JOB FUNCTION

- System Administrator
- Accounts Receivable / Accounts Payable
- Customer Service or Sales Representative
- Production Manager
