

DraftSight 2018 SP3 Release Notes

List of Improvements in SP3 (November 2018):

#	Description
1103575	Enhances Select Matching (“Anpassung auswählen”) to work more easily in German language to avoid typing additional word to show settings.
1103554	Improves the stability of DraftSight 2018 with Mac OS 10.14 Mojave. <i>(P.S. The latest release of Mojave 10.14 is a very new Mac OS, therefore it is not yet “officially” supported by the current release of DraftSight 2018.)</i>
1103304	Improves Title.dcl file to work properly in DraftSight.
1097924	Improves printing experience and stability when using HP DesignJet 800 driver with “Print Error: The handle is invalid.”
1093956	Corrects a problem in the German version of DraftSight where option “Einstellungen” is not recognized unless the entire word is typed.
1092941	Fixes the problem when creating DWG files from DraftSight 2013 or other CAD system encountering limited functionality with the latest version of DraftSight 2018.
1082947	Improves the Options for “Entity Frame Control” so that the settings can be saved.
1081597	Fixes the problem where incorrect values are captured in G-code from G-Code Generator.
1077500	Corrects the behavior where Toolbars in Tool Matrix becomes greyed out and inaccessible when closing all files and using command File > New.
1076074	Fixes the problem where DraftSight to PDF task failed with error “The supplied object ID is not valid.”
1074461	Enhances the stability of Scale (command) entities to avoid the application hanging or stopping with no recovery.
1071523	Allows changing the values of block attributes from command line.
1071361	Improves the stability of DraftSight 2018 while using Batch Print (specific to Windows 7 OS).
1070544	Improves the performance when moving exploded blocks with a high resolution 4K monitor.
1069378	Corrects the behavior where Toolbox Weld Symbol changes appearance when Edit definition.
1057089	Improves the stability of DraftSight when closing the application (German OS).
1048296	Enhances DraftSight to remember the default file open location.
1046627	Fixes the problem where content of DWG/DXF is not displayed for embedded DWG/DXF OLE in other applications with only DraftSight installed on PC.
