

## GEOVIA ROLES EXPLORING THE GEOVIA MINESCHED™ PORTFOLIO

---

The world's most advanced tactical mine planner for surface and underground mines of all sizes and types, GEOVIA MineSched provides scheduling to improve productivity and profits beyond what's possible with manual scheduling.

Intuitive, rapid setup and guided workflows take the complexity out of tactical mine planning, putting real decision-making power back in the hands of engineers and mining operations.

---

# MINESCHED™ TACTICAL MINE PLANNING - GREAT RESULTS WITH PROVEN TECHNOLOGY

## // TACTICAL MINE PLANNER

Produce practical and executable tactical mine plans from a long term strategic plan, for the optimal development and exploitation of the ore body.

For open pit mines, accepts and schedules any number of pits

For underground mines, supports scheduling of development advance as well as stope production

Heuristic algorithms for target-based scheduling allow superior results to be obtained when targeting specific material ratios and quality objectives

Manages stockpiles

Calculates haulage requirements

Supports all minerals and mining methods

Development & production planning integration for sub-level caving

Our **3DEXPERIENCE®** platform powers our brand applications, serving 11 industries, and provides a rich portfolio of industry solution experiences.

Dassault Systèmes, the **3DEXPERIENCE®** Company, provides business and people with virtual universes to imagine sustainable innovations. Its world-leading solutions transform the way products are designed, produced, and supported. Dassault Systèmes' collaborative solutions foster social innovation, expanding possibilities for the virtual world to improve the real world. The group brings value to over 250,000 customers of all sizes in all industries in more than 140 countries. For more information, visit [www.3ds.com](http://www.3ds.com).
