These system requirements refer to only the current version of GEOVIA Surpac™ and may vary for earlier versions.

¹Microsoft® Office is required only if you use a Microsoft Access database with Surpac 2022. For best performance, use Microsoft® Office 64-bit.

²Additional memory will improve performance with large file sets. For example, a 20 GB block model will require at least 24 GB to be loaded fully into memory, but will perform better with 32 GB.

³Surpac 2021 and later versions require the processor to support the Advanced Vector Extensions (AVX) instruction set. To check if your processor supports AVX, refer to the Intel Processor Diagnostic Tool.
