|---------------------------------------|---|

| MineSched for Surface Scheduling |   |
|----------------------------------|---|
| Course Code                      | N/A   |
| Available                        | 2016  |
| Duration                         | 5 days / 40 Hours   |
| Course Material                  | English   |
| Level                            | Intermediate to Advance   |
| Audience                         | Surface and Underground Operators   |
| Description                      | <p>This course is designed to give a basic understanding of how to set up a surface schedule, perform some reporting and define material flow.</p> <p>The latest version includes these features:</p> <ul style="list-style-type: none"> <li>• Reverse vertical lag or constant face distance</li> <li>• Blending from multiple stockpiles to multiple processes</li> </ul>   |
| Objectives                       | <p>Upon completion of this course, you will be able to accomplish the following:</p> <ul style="list-style-type: none"> <li>• Set up data file structure</li> <li>• Apply constraints</li> <li>• Manipulate and interrogate the Block Model</li> <li>• Run a MineSched schedule</li> <li>• Set basic MineSched starting parameters</li> <li>• Report MineSched schedule information</li> <li>• Check input validation</li> <li>• Manipulate material movement</li> <li>• Prepare a MineSched model</li> <li>• Assign material targets and ratios</li> </ul> |
| Prerequisites                    | <p>Before taking this course, you require the following:</p> <ul style="list-style-type: none"> <li>• Knowledge of Windows 2000, XP, or Vista Operating System.</li> <li>• Knowledge of file management.</li> <li>• Knowledge of ASCII format files and MS Excel.</li> <li>• Completion of the GEOVIA Surpac Foundation course or similar experience</li> </ul>   |
| Available Online                 | No  |
